

ATTENTION:

Free Weekly Messages

As we settle in to a new normal, communication and connection are more important than ever. GTL understands the impact that family and friends can have on boosting morale but recognizes that sometimes financial difficulties get in the way of connecting. From now on, you will be able to contact your loved ones via **two free messages per week**. This is a **permanent** program, continuing indefinitely.

DETAILS:

- All persons incarcerated will be provided two free message vouchers each week, as conditions and security allow.
- The free messages available for the week in which it is provided, any unused messages will not carry over to the following week and no credit will be given.

Thanks,

Deb Alderson
GTL President & CEO
