Facility AUDIT FINDINGS

Summary of Audit Findings

The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Number of standards exceeded:	
2	<ul style="list-style-type: none"> • 115.11 - Zero tolerance of sexual abuse and sexual harassment; PREA coordinator • 115.12 - Contracting with other entities for the confinement of inmates
Number of standards met:

<p>INTERVIEWS</p>	
<p>Inmate/Resident/Detainee Interviews</p>	
<p>Random Inmate/Resident/Detainee Interviews</p>	
<p>34. Enter the total number of RANDOM INMATES/RESIDENTS/DETAINEES who were interviewed:</p>	<p>15</p>
<p>35. Select which characteristics you considered when you selected RANDOM INMATE/RESIDENT/DETAINEE interviewees: (select all that apply)</p>	<p> <input checked="" type="checkbox"/> Age <input checked="" type="checkbox"/> Race <input checked="" type="checkbox"/> Ethnicity (e.g., Hispanic, Non-Hispanic) <input checked="" type="checkbox"/> Length of time in the facility <input checked="" type="checkbox"/> Housing assignment <input checked="" type="checkbox"/> Gender <input type="checkbox"/> Other <input type="checkbox"/> None </p>
<p>36. How did you ensure your sample of RANDOM INMATE/RESIDENT/DETAINEE interviewees was geographically diverse?</p>	<p>The auditor ensured a geographically diverse sample among interviewees (random and targeted). The following Individuals In Custody (IIC) were selected from the housing units: three from 1A, five from 1B, one from 2B, one from 3A, three from 3B, five from 4A, four from 4B, three from 5A, three from 5B, one from healthcare and one from segregated housing.</p>

37. Were you able to conduct the minimum number of random inmate/resident/detainee interviews?	<input checked="" type="radio"/> Yes <input type="radio"/> No
38. Provide any additional comments regarding selecting or interviewing random inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):	<p>29 of the IICs (random and targeted) were male and one was transgender female. Eleven of the IICs interviewed were black, twelve were white, five were Hispanic, and two were another race/ethnicity. With regard to age, four were between eighteen and 25, seven were 26-35, six were 36-45, eight were 46-55 and five were 56 or older. 27 of the IICs interviewed were at the facility less than a year, two were there between a year and five years and one was at the facility between five and ten years.</p>
Targeted Inmate/Resident/Detainee Interviews	
39. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	15
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
40. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	1

41. Enter the total number of interviews conducted with inmates/residents/detainees with a cognitive or functional disability (including intellectual disability, psychiatric disability, or speech disability) using the "Disabled and Limited English Proficient Inmates" protocol:	2
42. Enter the total number of interviews conducted with inmates/residents/detainees who are Blind or have low vision (i.e., visually impaired) using the "Disabled and Limited English Proficient Inmates" protocol:	1
43. Enter the total number of interviews conducted with inmates/residents/detainees who are Deaf or hard-of-hearing using the "Disabled and Limited English Proficient Inmates" protocol:	1
44. Enter the total number of interviews conducted with inmates/residents/detainees who are Limited English Proficient (LEP) using the "Disabled and Limited English Proficient Inmates" protocol:	2
45. Enter the total number of interviews conducted with inmates/residents/detainees who identify as lesbian, gay, or bisexual using the "Transgender and Intersex Inmates; Gay, Lesbian, and Bisexual Inmates" protocol:	2
46. Enter the total number of interviews conducted with inmates/residents/detainees who identify as transgender or intersex using the "Transgender and Intersex Inmates; Gay, Lesbian, and Bisexual Inmates" protocol:	1

<p>47. Enter the total number of interviews conducted with inmates/residents/detainees who reported sexual abuse in this facility using the "Inmates who Reported a Sexual Abuse" protocol:</p>	<p>2</p>
<p>48. Enter the total number of interviews conducted with inmates/residents/detainees who disclosed prior sexual victimization during risk screening using the "Inmates who Disclosed Sexual Victimization during Risk Screening" protocol:</p>	<p>3</p>
<p>49. Enter the total number of interviews conducted with inmates/residents/detainees who are or were ever placed in segregated housing/isolation for risk of sexual victimization using the "Inmates Placed in Segregated Housing (for Risk of Sexual Victimization/Who Allege to have Suffered Sexual Abuse)" protocol:</p>	<p>0</p>
<p>49. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</p>	<p><input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.</p> <p><input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.</p>
<p>49. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>The auditor reviewed housing assignments for high risk IICs and those who reported sexual abuse.</p>
<p>50. Provide any additional comments regarding selecting or interviewing targeted inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews):</p>	<p>No text provided.</p>

Staff, Volunteer, and Contractor Interviews

Random Staff Interviews

51. Enter the total number of RANDOM STAFF who were interviewed:

13

52. Select which characteristics you considered when you selected RANDOM STAFF interviewees: (select all that apply)

- Length of tenure in the facility
- Shift assignment
- Work assignment
- Rank (or equivalent)
- Other (e.g., gender, race, ethnicity, languages spoken)
- None

If "Other," describe:

Gender, Race and Ethnicity

53. Were you able to conduct the minimum number of RANDOM STAFF interviews?

- Yes
- No

54. Provide any additional comments regarding selecting or interviewing random staff (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):

Security staff mainly make up three shifts, first shift works from 7am-3pm, second shift works from 3pm-11pm and third shift works from 11pm-7am. Six staff were interviewed from first shift, four staff were from second shift and three staff were from third shift. With regard to the demographics of the random staff interviewed, ten were male and three were female. One staff member was black and twelve were white. Six staff were Correctional Officers, two were Sergeants, two were Lieutenants and three were Majors.

Specialized Staff, Volunteers, and Contractor Interviews

Staff in some facilities may be responsible for more than one of the specialized staff duties. Therefore, more than one interview protocol may apply to an interview with a single staff member and that information would satisfy multiple specialized staff interview requirements.

55. Enter the total number of staff in a SPECIALIZED STAFF role who were interviewed (excluding volunteers and contractors):	26
56. Were you able to interview the Agency Head?	<input checked="" type="radio"/> Yes <input type="radio"/> No
57. Were you able to interview the Warden/Facility Director/Superintendent or their designee?	<input checked="" type="radio"/> Yes <input type="radio"/> No
58. Were you able to interview the PREA Coordinator?	<input checked="" type="radio"/> Yes <input type="radio"/> No
59. Were you able to interview the PREA Compliance Manager?	<input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> NA (NA if the agency is a single facility agency or is otherwise not required to have a PREA Compliance Manager per the Standards)

60. Select which SPECIALIZED STAFF roles were interviewed as part of this audit from the list below: (select all that apply)

- Agency contract administrator
- Intermediate or higher-level facility staff responsible for conducting and documenting unannounced rounds to identify and deter staff sexual abuse and sexual harassment
- Line staff who supervise youthful inmates (if applicable)
- Education and program staff who work with youthful inmates (if applicable)
- Medical staff
- Mental health staff
- Non-medical staff involved in cross-gender strip or visual searches
- Administrative (human resources) staff
- Sexual Assault Forensic Examiner (SAFE) or Sexual Assault Nurse Examiner (SANE) staff
- Investigative staff responsible for conducting administrative investigations
- Investigative staff responsible for conducting criminal investigations
- Staff who perform screening for risk of victimization and abusiveness
- Staff who supervise inmates in segregated housing/residents in isolation
- Staff on the sexual abuse incident review team
- Designated staff member charged with monitoring retaliation
- First responders, both security and non-security staff
- Intake staff

	<input checked="" type="checkbox"/> Other
If "Other," provide additional specialized staff roles interviewed:	Mailroom
61. Did you interview VOLUNTEERS who may have contact with inmates/residents/detainees in this facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
61. Enter the total number of VOLUNTEERS who were interviewed:	1
61. Select which specialized VOLUNTEER role(s) were interviewed as part of this audit from the list below: (select all that apply)	<input type="checkbox"/> Education/programming <input type="checkbox"/> Medical/dental <input type="checkbox"/> Mental health/counseling <input checked="" type="checkbox"/> Religious <input type="checkbox"/> Other
62. Did you interview CONTRACTORS who may have contact with inmates/residents/detainees in this facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
62. Enter the total number of CONTRACTORS who were interviewed:	2
62. SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

64. Did you have access to all areas of the facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

Was the site review an active, inquiring process that included the following:

65. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
---	--

66. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

67. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
---	--

68. Informal conversations with staff during the site review (encouraged, not required)?

Yes

No

69. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).

The on-site portion of the audit was conducted on October 28-29, 2024. The auditor had an initial briefing with facility leadership and discussed the audit logistics. After the initial briefing, the auditor selected IICs and staff for interview as well as documentation to review. The auditor conducted a tour of the facility on October 28, 2024. The tour included all areas associated with the facility to include: housing units, warehouse, intake, visitation, chapel, education, vocation, maintenance, food service, health services, recreation, commissary, front entrance and administration. During the tour the auditor was cognizant of staffing levels, video monitoring placement, blind spots, posted PREA information, privacy for IICs in housing units and other factors as indicated in the appropriate standard findings.

The auditor observed PREA information posted in housing units and common areas via the PREA Poster and PREA Reporting Poster. The PREA Posters were on legal size paper in English and Spanish. The PREA Reporting Posters were on yellow letter size paper in English and Spanish. Additionally, the auditor observed that the PREA hotline number was stenciled near the phones in the housing units. Informal conversation with staff and IICs indicated PREA information has been posted for a while.

Third party reporting information was observed in visitation and the front entrance via the PREA Poster and/or the PREA Reporting Poster. The PREA Poster was observed in English and Spanish on legal size paper. The PREA Reporting Poster was observed on yellow letter size paper in English and Spanish.

During the tour the auditor confirmed the facility follows a staffing plan. There were at least two security staff per housing building. Program, work and education areas included

non-security staff and either a positioned or roving security staff member. In areas where security staff were not directly assigned, routine security checks were required. During the tour the auditor observed staff conducting rounds and performing official duties. The auditor observed that lines of sight were adequate inside the housing units with rounds. The facility did not appear to be overcrowded. The auditor observed blind spots in numerous locations, including: the laundry area in each housing unit, the warehouse, maintenance, and in commissary. The facility immediately took corrective action and ordered mirrors for the identified blind spots. The facility provided photos confirming blind spots were alleviated through installation of mirrors in all identified areas.

During the tour the auditor observed cameras in housing units and most common areas. The auditor verified that the cameras are not actively monitored but rather are utilized mainly for investigative purposes. Shift Commanders, Internal Affairs (IA) and administrative level staff have access to view the cameras.

During the tour the auditor observed that privacy was provided via saloon doors, raised walls and solid doors. The auditor viewed the strip search areas in visitation, segregated housing and intake and confirmed there were not any cross gender viewing issues. A review of video monitoring technology confirmed there were no cross gender viewing issues. With regard to the opposite gender announcement, the auditor heard the announcement verbally upon entry into most of the housing units. The announcement was loud and appeared to be audible for IICs within the housing units. The agency also has a paging system for the deaf and hard of hearing IICs where the announcement can be sent out to their watches. Staff were observed entering the opposite gender announcement on housing units where deaf and/or hard of

hearing IICs lived. Informal conversation with IICs and staff indicated the opposite gender announcement is routinely made and IICs have privacy when showering using the restroom and changing their clothes.

Medical and mental health records are all paper. The records area is staffed 8am-4pm Monday through Friday. The records door is locked when not staffed. Records staff advised that medical and mental health care staff have access to medical records after hours as well as the Warden and the Major. Risk screening information is maintained in the electronic Offender 360 program. Security staff did not have computer access on the units and as such did not have access to the risk screening information in Offender 360. Additionally, the agency restricted access to the risk screening information and any access has to be approved by the agency PREA Coordinator. Investigative files are paper and electronic. Only Internal Affairs (IA) staff have access to the investigations in the electronic database. Paper files are also maintained in IA's locked office.

During the tour the auditor observed that IICs are able to place outgoing mail in any of the locked boxes around the facility, including in the housing unit sally ports. None of the drop boxes were specific to sexual abuse or sexual harassment allegations or information. The interview with the mailroom staff indicated that outgoing regular mail is unsealed and is reviewed prior to being sent out. Outgoing legal mail comes sealed and is not read or inspected. The mailroom staff stated that incoming mail is sorted by regular and privileged/legal. Regular mail is opened and reviewed. Incoming legal mail is provided to the control room staff who distribute it to third shift staff to handle. Third shift staff call pass the IICs to the vocational building, where legal mail is opened in front of them. The mailroom staff stated that mail to and from JHA is legal/privileged mail. The mailroom staff stated

mail to and from the local rape crisis center is legal/privileged mail.

The auditor observed the intake process through a demonstration. IICs are provided initial information and comprehensive education at the same time as they have previously been provided education at a prior IDOC facility. All IICs are provided a Handbook (available in English and Spanish) and are given orientation. Orientation is conducted in housing unit two. PREA education is completed via the PREA Resource Center's education video (available in English, Spanish and American Sign Language). The video is shown on a 65 inch tv. The auditor observed that the video included subtitles and the audio was adequate. At the conclusion of the video, staff read the PREA script, which includes verbally discussing key points of the video, agency reporting mechanisms and information on the local rape crisis center.

Staff also point out the posted PREA information and note where it is found throughout the facility. All IICs receive orientation within seven days of arrival at the facility. The staff indicated that if an IIC is LEP they can utilize a staff translator.

The auditor was provided a demonstration of the initial risk screening process. The initial risk screening is completed in a classroom in the education building, one-on-one. Mental health staff use the DOC 0494 to complete the risk screening. The staff verbally ask each question on the form. Staff do not conduct a file review and as such the initial risk screening is self-reported information only. Mental health staff noted that a few questions are pre-populated in the system but they are able to make changes, if necessary. If changes are made or there are discrepancies, comments are entered. Prior to the issuance of the report, the facility conducted training with the mental health care staff on the risk assessments process. The training outlined that the initial risk screening is required to

have a review of file information, and should not only be self-disclosure. Staff signed confirming they received the training. The risk reassessment is completed by clinical staff in a private office or at a table in housing unit two (no IIC housing in this area). Staff typically complete the screening on the paper form and subsequently enter it into Offender 360 program. Paper forms are then destroyed. Staff review the IIC information in Offender 360 prior to meeting with the IIC. Staff then verbally ask the IIC all the questions on the DOC 0494. If any discrepancies are found from the file and the verbal response, staff go off what is in the file. Staff noted if an IIC is LEP they utilize staff translators or Propio. Staff also stated they make accommodations for any disabled IIC as well.

The auditor tested the internal reporting mechanism during the tour. The auditor called the internal PREA hotline on October 28, 2024 and left a message to test functionality. IICs are advised to select English or Spanish upon contact with the hotline. Initial phone instructions are provided in English and Spanish, however the hotline instructions/directions are only available in English. The auditor received confirmation from the PC on the same date that the call was received and forwarded to him. IICs have access to the phones most of the day. The internal PREA hotline is accessible on all phones but does require an IIC pin number. The auditor also tested the internal written reporting process. The auditor had an IIC assist with submitting a grievance on October 28, 2024 via the locked grievance box in the sally port of one of the housing units. On October 30, 2024, the auditor received a copy of the grievance and confirmation that the grievance was received and if the allegation was sexual abuse it would be reported immediately to the Shift Commander.

The auditor also tested the outside reporting mechanism via a letter to the John Howard

Association. The process is the same across all facilities, and as such the auditor utilized the test completed at a prior IDOC facility. The auditor obtained a free (yellow) envelope from commissary. All IICs are provided a certain number of free envelopes. A test letter was sent via the US mail from Dixon Correctional Center on February 27, 2024. The auditor addressed the mail to JHA and noted "privileged mail" on the envelope. The auditor did not have an IIC number and as such a return address stamp was utilized by the facility. While a return name and number is required by IICs, the mail staff do not open this mail and as such IICs are able to remain anonymous within the letter. The John Howard Association is utilized for numerous services and they are not just an organization to report sexual abuse. The auditor received confirmation on March 6, 2024 (via the JHA Director) that the letter was received and that IICs can remain anonymous when reporting.

Additionally during the tour, the auditor asked staff to demonstrate how to document a verbal report of sexual abuse. Staff indicated if they received a verbal report they would complete an incident report. Staff stated an incident report can be completed via paper and the forms are available in the housing units. Staff noted they fill out the information and then turn it into the shift office (Major or Lieutenant).

The auditor tested the third party reporting mechanism on numerous occasions. The auditor called the PREA hotline as outlined on the agency website. The hotline is the same hotline utilized for the IIC population. The auditor received confirmation from the PREA Coordinator that the message was received and forwarded to him to handle. He indicated he would provide the information to the facility for investigation if it was a report of sexual abuse or sexual harassment.

The auditor tested the victim advocacy

hotline during the on-site portion of the audit. An IIC assisted with the call and dialed 1, 2, 999 and then entered his pin number. The call connected to an answering services that advised they would connect the call to the rape crisis center staff. The auditor was connected to a staff member from the local rape crisis center. She confirmed the hotline is accessible 24 hours a day and that an advocate would talk with the IIC and provide services over the phone. The auditor confirmed that calls to the hotline are free, unmonitored and unrecorded. A pin number is required but it is not tracked. In addition to the hotline, IICs are also able to set up a legal call or visit with the organization through medical, mental health or their counselor.

During IIC interviews the auditor utilized Propio for LEP IICs. The auditor was provided a call in number and a code to receive services. The auditor called the number and was able to secure a translator for the LEP interviews. Additionally, the auditor utilized Propio for disabled IIC interviews at prior IDOC audits. The auditor was provided a website that included options for language translation and American Sign Language. The auditor utilized video ASL translation for deaf IICs.

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

70. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?

Yes

No

71. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).

During the audit the auditor requested personnel and training files of staff, IIC files, medical and mental health records, grievances, incident reports and investigative files for review. A more detailed description of the documentation review is as follows:

Personnel and Training Files. The auditor reviewed a total of 38 personnel and/or training files that included five staff hired in the previous twelve months, two contractors hired within the previous twelve months and four staff promoted within the previous twelve months. The sample included eleven total contractors, six volunteers and five medical and mental health care staff.

Individual In Custody Files. A total of 38 IIC files were reviewed. 33 IIC files were of those that arrived within the previous twelve months, three were LEP IICs, eight were disabled IICs, two were transgender or intersex IICs and eight were identified with prior sexual victimization and/or a history of prior abusiveness.

Medical and Mental Health Records. The auditor reviewed medical and mental health documentation for eleven victims of sexual abuse and sexual harassment as well as mental health documents for eight IICs who disclosed victimization during the risk screening and/or were identified with prior sexual abusiveness.

Grievances. The auditor reviewed the identified sexual abuse grievances as well as the grievance log and additional grievances.

Incident Reports. The auditor reviewed incident reports associated with the sexual abuse and sexual harassment allegations.

Investigation Files. The auditor reviewed all allegations reported during the previous twelve months. The auditor reviewed eleven administrative investigations.

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

72. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	0	0	0	0
Staff-on-inmate sexual abuse	1	0	1	0

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

74. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/ Court Case Filed	Convicted/ Adjudicated	Acquitted

Interviews:

1. Interview with the PREA Coordinator
2. Interview with the PREA Compliance Manager

Findings (By Provision):

115.11 (a): The PAQ indicated that the agency has a written policy mandating zero tolerance toward all forms of sexual abuse and sexual harassment in facilities it operates directly or under contract. The PAQ also stated that the facility has a policy outlining how it will implement the agency's approach to preventing, detecting and responding to sexual abuse and sexual harassment and that the policy includes definitions on prohibited behaviors regarding sexual abuse and sexual harassment and sanctions for those found to have participated in prohibited behaviors. The PAQ further stated that the policy includes a description of agency strategies and response to reduce and prevent sexual abuse and sexual harassment of IICs. The agency policy, AD 04.01.301 outlines the agency's strategies on preventing, detecting and responding to sexual abuse and include definitions of prohibited behavior. Page 1 states that the agency has a zero tolerance policy. In addition ID 04.01.301, outlines the facility specific procedures on preventing, detecting and responding to sexual abuse and sexual harassment. Page 2 (both policies) provide the definitions of prohibited behaviors and page 12 outlines sanctions for those who have participated in prohibited behaviors. In addition to AD and ID 04.01.301, the agency has numerous other policies that address portions of sexual abuse prevention, detection and response strategies. The policies include: 04.01.302, 01.02.103, 04.03.104, 05.01.113, 04.01.105, 04.01.111, 05.07.101, 01.12.120, 01.12.112, 01.12.101, 01.12.115, 01.01.101, 01.02.101, 04.01.122, 03.03.102, 05.15.100, 04.01.114, 03.01.120, SOP Manual for Mental Health and Illinois Administrative Code 20.504. The policies address "preventing" sexual abuse and sexual harassment through the designation of a PC and PCM, training (staff, volunteers and contractors), staffing, intake/risk screening, IIC education and posting of signage (PREA posters, etc.). The policies address "detecting" sexual abuse and sexual harassment through training (staff, volunteers, and contractors) and intake/risk screening. The policies address "responding" to allegations of sexual abuse and sexual harassment through reporting, victim services, medical and mental health services, employee and IIC discipline, incident reviews and data collection. The policies are consistent with the PREA standards and outline the agency's approach to sexual safety. Additionally, the agency has the PREA Manual which addresses each provision of each standard and has corresponding direction, if applicable, related to the provision/standard. The PREA Manual is utilized by agency staff as a road map for PREA compliance.

115.11 (b): The PAQ indicated that the agency employs or designates an upper-level, agency-wide PREA Coordinator with sufficient time and authority to develop, implement and oversee agency efforts to comply with the PREA standards. AD 04.01.301, page 3 states that the Director shall designate an Agency PREA Coordinator who shall develop, implement and oversee the Department's Sexual Abuse and Harassment Prevention and Intervention Program. The agency's organizational chart reflects that the PC position is an upper-level, agency-wide position. The position is the Senior Public Service Administrator who reports to the

Chief Compliance Officer who reports to the Director. The interview with the PC indicated that the work gets done, but often requires that he work long hours. He stated the Department is currently in the process of restructuring the PREA Unit to incorporate additional staff. Eventually, the IDOC PREA Compliance Unit will consist of one Senior Public Service Administrator (Agency PREA Coordinator), two Administrative Assistant II positions, and three Internal Security Investigator II positions. The PC stated there are a total of 31 PREA Compliance Managers and 31 Backup PREA Compliance Managers. Collaboration with the individuals occurs using in-person and WebEx meetings, SharePoint and an email distribution list in Outlook. Additionally, he stated that site visits are made to all facilities, and he is always available via email/phone. The interview with the PC indicated that if he identifies an issue complying with a PREA standard he would contact the specific Department Head and notify them of a concern and develop corrective action collectively. He indicated if the issue requires a policy change, the Department's Policy and Directive Unit as well as the Legal Department are utilized. Additionally, he stated that he can also utilize the National PREA Resource Center and networking with other states if necessary.

115.11 (c): The PAQ indicated that the facility has designated a PREA Compliance Manager that has sufficient time and authority to coordinate the facility's efforts to comply with PREA standards. The PAQ stated the position of PCM at the facility is the Shift Supervisor and the position reports to the Assistant Warden. AD 04.01.301, page 4 states that the Chief Administrative Officer of each correctional facility shall designate a facility PREA Compliance Manager with sufficient time and authority to coordinate the facility's efforts to comply with PREA standards and who is trained in sexual abuse crisis issues and has the knowledge, skills and abilities for program implementation and evaluation. The facility's organizational chart indicates that the PCM is the Shift Supervisor who reports to the Assistant Warden of Operations. The interview with the PREA Compliance Manager indicated he does not have enough time to manage all of his PREA related responsibilities as he is tasked with many duties at the facility. He advised he coordinates the facility efforts through ensuring they are in compliance. He noted he puts dates in his calendar so deadlines are met, he reviews all the files to make sure they are on top of things and he keeps all the information in a database so that the backup staff have access. The PCM stated if he identifies an issues complying with a PREA standard he will have conversation with the Warden and they will work with the area to alleviate the issue. It should be noted that the PREA Compliance Manager was very involved in the facility's PREA compliance. He was knowledgeable on PREA and the many areas (security, classification, investigations, etc.) that PREA encompasses. His authority appeared to be well respected by staff and IICs with regard to ensuring compliance.

Based on a review of the PAQ, AD 04.01.301, ID 04.01.301, 04.01.302, 01.02.103, 04.03.104, 05.01.113, 04.01.105, 04.01.111, 05.07.101, 01.12.120, 01.12.112, 01.12.101, 01.12.115, 01.01.101, 01.02.101, 04.01.122, 03.03.102, 05.15.100,

	<p>04.01.114, 03.01.120, SOP Manual for Mental Health, Illinois Administrative Code 20.504, the PREA Manual, the agency organizational chart, the facility organizational chart and information from interviews with the PC and PCM, the facility appears to exceed this standard.</p> <p>Recommendation</p> <p>While the PCM excels at his position, he noted he felt he did not have enough time. The auditor highly recommends that facility obtain additional staff to assist the PCM with duties.</p>

115.12	Contracting with other entities for the confinement of inmates
	<p>Auditor Overall Determination: Exceeds Standard</p> <p>Auditor Discussion</p> <p>Documents:</p> <ol style="list-style-type: none"> 1. Pre-Audit Questionnaire 2. Contracts for Confinement of Individuals In Custody <p>Interviews:</p> <ol style="list-style-type: none"> 1. Interview with the Agency’s Contract Administrator <p>Findings (By Provision):</p> <p>115.12 (a): The PAQ indicated that the agency has entered into or renewed two contracts for the confinement of IICs since the last PREA audit and both contracts require the contractor to adopt and comply with PREA standards. A review of the two contracts confirmed that language is included in each contract that states that the “vendor shall comply with all applicable fiscal, operational and program policies of the IDOC contained in Administrative Directives, Administrative Rules and applicable memoranda. IDOC shall provide at least one complete set to the Center.” It also states that the “vendor shall grant open access, at all times, to the IDOC for inspection, audits, routine IDOC business and any other purposes relating to this program as determined by the IDOC.”</p>

115.12 (b): The PAQ indicated that the two contracts require the agency to monitor the contractor’s compliance with PREA standards. The interview with the Agency Contract Administrator indicated that individual correctional facilities do not contract for confinement services on their own. The IDOC does contract with Safer Foundations for the confinement of offenders in a Community Confinement setting. The two facilities are stand-alone facilities and both facilities undergo their own PREA audit every three years just like the facilities operated by the State. The Agency Contract Administrator confirmed that both contracts require full compliance with the PREA standards and both PREA audit reports are available on the IDOC website. A review of the agency website confirmed that both contracted facilities had a PREA audit completed during each of the previous three audit cycles. All reports are available for review on the website.

Based on the review of the PAQ, the language within the contracts and information from the interview with the Agency Contract Administrator, the agency appears to exceed this standard. The agency has two contracts, both which have language that require the contractor (Safer Foundations) to comply with PREA standards. In addition to the language, the agency goes above and beyond by coordinating and paying for the PREA audits for the contracted agency. The agency does this to ensure that the contractor complies with the PREA standards and is fully compliant. The PC schedules these audits and includes them in his PREA audit three year cycle.

Site Review Observations:

1. Staffing Levels
2. Video Monitoring Technology or Other Monitoring Materials

Findings (By Provision):

115.13 (a): The PAQ indicated that the agency requires each facility it operates to develop, document and make its best efforts to comply on a regular basis with a staffing plan that provides for adequate levels of staffing and, where applicable, video monitoring, to protect IICs against abuse. AD 04.01.301 pages 4-5 address the agency's staffing plan development. Specifically, it states that the Chief Administrative Officer of each correctional facility shall ensure the facility develops, documents and makes its best efforts to comply on a regular basis with a staffing plan that provides for adequate levels of staffing, and where applicable, video monitoring, to protect IICs against sexual abuse and sexual harassment. In calculating adequate staffing levels and determining the need for video monitoring, facilities shall take into consideration: generally accepted correctional practices, any judicial findings of inadequacy, any finding of inadequacy from Federal investigative agencies, any finding of inadequacy from internal or external oversight bodies, all components of the facility's physical plant including blind-spots or areas where staff or offenders may be isolated, the composition of the offender population, the number and placement of supervisory staff, institutional programs occurring on a particular shift, any applicable State or local laws, the prevalence of substantiated and unsubstantiated incidents of abuse and any other relevant factors. The PAQ indicated that the staffing plan is based on 698 IICs, which is average daily population. The

facility employs 249 staff. Security staff mainly make up three shifts; 7am-3pm, 3pm-11pm and 11pm-7am. Each shift has a Shift Supervisor as well as zone supervisors (Lieutenants), Sergeants and Correctional Officers. Supervisors and Officers are assigned to housing units as well as other program, work and common areas. Additionally, medical and mental health care staff and administrative staff have their own varied scheduled work hours. The facility utilizes overtime to ensure all minimum mandatory posts are filled. The agency continues to make efforts in recruiting to hire staff across all IDOC facilities. During the tour the auditor confirmed the facility follows a staffing plan. There were at least two security staff per housing building. Program, work and education areas included non-security staff and either a positioned or roving security staff member. In areas where security staff were not directly assigned, routine security checks were required. During the tour the auditor observed staff conducting rounds and performing official duties. The auditor observed that lines of sight were adequate inside the housing units with rounds. The facility did not appear to be overcrowded. The auditor observed blind spots in numerous locations, including: the laundry area in each housing unit, the warehouse, maintenance, and in commissary. The facility immediately took corrective action and ordered mirrors for the identified blinds spots. The facility provided photos confirming blind spots were alleviated through installation of mirrors in all identified areas. During the tour the auditor observed cameras in housings units and most common areas. The auditor verified that the cameras are not actively monitored but rather are utilized mainly for investigative purposes. Shift Commanders, Internal Affairs (IA) and administrative level staff have access to view the cameras. The interview with the Warden confirmed that the facility has a staffing plan that includes adequate levels to protect IICs from sexual abuse. She stated they have full staffing that allows for each post to be filled as well as extra eyes on housing units for inspections. She confirmed video monitoring is part of the staffing plan. She also confirmed the staffing plan is documented. The Warden advised that the majority of programs occur on the 7am-3pm shift and as such they have heavier staff on that shift. She noted staffing is based on a minimum custody facility. The Warden confirmed all elements under this provision are considered in the staffing plan. She stated she checks for compliance with the staffing plan through internal and external auditing. The PCM stated that while they are short staffed, they try to keep everything running with the staff that they do have. He noted they always staff critical positions/areas on the staffing plan and they take into account the gender of the staff and the IICs. He noted there is always at least one male staff in the housing units. The PCM confirmed the elements under this provision are considered in the staffing plan.

115.13 (b): The PAQ indicated that each time the staffing plan is not complied with, the facility documents and justifies all deviations from the staffing plan. AD 04.01.301, page 5 states that if circumstances arise where the staffing plan is not complied with, the facility shall document and justify all deviation from the plan on the Daily Roster review, DOC 0531, in accordance with 05.01.101. The interview with the Warden confirmed that any deviations from the staffing plan would be documented on the roster. A review of daily rosters confirmed that deviations are

documented through the number of staff in each category (i.e. call ins, training, military, etc.) as well the posts that are closed due to the deviations. It should be noted that the facility does not deviate from the minimum number of staff required, but rather the staff filling those positions. The facility utilizes voluntary and mandatory overtime to fill all minimum staffing posts.

115.13 (c): The PAQ indicated that at least once a year the facility in collaboration with the PC, reviews the staffing plan to see where adjustments are needed. AD 04.01.301, page 5 states that whenever necessary, but no less frequent than once per year, the facility, in consultation with the Agency PREA Coordinator, shall assess, determine and document whether adjustments are needed to the staffing plan established herein, the facility's deployment of video monitoring systems and other monitoring technologies, and the resources the facility has available to ensure adherence to staffing plan. The staffing plan was most recently reviewed on November 9, 2023. The plan was reviewed to assess, determine and document whether any adjustments were needed to the staffing plan, the deployment of video monitoring technologies and/or the resources available to commit to ensuring adherence to the staffing plan. The staffing plan review included documentation on the facility staffing allocations, cameras and all the required components under provision (a) of this standard, including physical plant, finding of inadequacy, composition of IIC population, programs occurring on each shift, incidents of sexual abuse and other relevant factors. The plan outlined the need for additional cameras. The staffing plan was previously reviewed on October 13, 2022. The PC confirmed that he is consulted regarding each facility's staffing plan. He stated staffing assessments are reviewed consistently by Operations (Roster Review Team, Security Review Team, etc.) and updates to the Staffing Plan are signed off on by the facility Warden and PREA Coordinator on an annual basis.

115.13 (d): The PAQ indicated that the facility requires that intermediate-level or higher-level staff conduct unannounced rounds to identify and deter staff sexual abuse and sexual harassment. The PAQ further states that the facility documents the unannounced rounds and the rounds cover all shifts. Additionally, the PAQ stated that the facility prohibits staff from alerting other staff of the conduct of such rounds. 01.02.103, page 3 states that the Back-up Duty Administrative Officer (BUDAO) or Duty Administrative Officer (DAO) shall at least every two days, excluding weekends and holidays, inspect activity areas of the facility, housing units, including restrictive housing, kitchens and dining rooms, health care units, recreation areas and educational, vocational, maintenance and industry buildings. Page 4 states that the BUDAO shall conduct unscheduled inspections of random areas within the facility for all major holidays, during back shift, each weekend and at satellite facilities. The policy states that the unscheduled inspection of random areas within the facility on the DOC 0481. The policy further states that staff shall be prohibited from alerting other staff member that supervisory rounds are occurring unless such announcement is related to the legitimate operational function of the facility. Documentation was

	<p>provided for six months during the previous twelve months. Documentation confirmed unannounced rounds were made across all shifts in each housing unit, at minimum, a few times a week. Interviews with the intermediate-level or higher-level staff confirm that they make unannounced rounds and that they document the unannounced rounds in the log books and DAO log book. The staff indicated they ensure staff don't notify one another of their unannounced rounds by not having a sequence or pattern. Staff stated rounds are random and they just show up.</p> <p>Based on a review of the PAQ, 04.01.301, 01.02.103, the facility staffing plan, the staffing plan review, camera listings, documentation of unannounced rounds, deviations from the staffing plan, observations made during the tour and interviews with the PC, PCM, Warden and intermediate-level or higher-level staff, this standard appears to require corrective action.</p> <p>Recommendation</p> <p>The auditor recommends that cameras be installed in the warehouse, maintenance and commissary. Additionally, the auditor recommends that cameras be actively monitored by staff.</p>

2. Interviews with Random Individuals In Custody
3. Interview with Transgender and/or Intersex Individuals In Custody

Site Review Observations:

1. Observations of Privacy Barriers
2. Observation of Cross Gender Announcement

Findings (By Provision):

115.15 (a): The PAQ indicated that the facility does not conduct cross gender strip or cross gender visual body cavity searches of IICs. The PAQ further indicated that areas where strip searches are conducted (visiting room shakedown, gatehouse, sallyport, industries, maintenance and dietary) have gender specific posts to ensure there are no cross gender searches conducted. The PAQ stated zero searches of this kind were conducted at the facility over the past twelve months. 05.01.113, page 2 states that cross-gender strip searches shall be prohibited. A review of the Personal Searches Curriculum confirmed that page 4 discusses the prohibition under 05.01.113.

115.15 (b): The PAQ indicated that the facility does not permit cross-gender pat-down searches of female IICs, absent exigent circumstances and the facility does not restrict female IICs' access to regularly available programming or other out-of-cell opportunities in order to comply with this provision. The PAQ further indicated that Lincoln Correctional Center does not house female IICs and as such this provision does not apply. The Personal Searches Curriculum, page 4 indicates that staff are trained that only female correctional employees, who are properly trained, are authorized to conduct pat down or clothed body searches of female offenders. There were zero cisgender female IICs at the facility. The interview with the one transgender IIC indicated she was not restricted from going somewhere in order to comply with this provision. She stated she was never searched by staff of the opposite gender of her preference. All thirteen staff indicated they do not restrict access to programs and privileges in order to comply with this provision.

115.15 (c): The PAQ indicated that facility policy requires that all cross-gender strip searches and cross gender visual body cavity searches be documented and that all cross-gender pat-down searches of female IICs be documented. The PAQ stated that the facility does not house female IICs and as such that part of the provision does not apply. 01.12.105, page 3 states that notification of serious and significant unusual incidents shall be in accordance with the provisions of this directive. Page 3 states that following initial notification of the respective Deputy Director or Chief, the Chief Administrative Officer shall ensure electronic notification of the incident is provided and the notification includes the date and time, offenders involved, staff involved and narrative of the incident. The Personal Search Manual, page 4 states that in exigent or emergency circumstances, a male correctional employee, who is properly trained, may conduct a search if a properly trained, female correctional employee is not available. An exigent or emergency situation is one in which a reasonable suspicion exists that a weapon, or another item of serious contraband, is present and it presents an immediate danger to the offender(s), facility security, or the public which cannot be safety averted either by securing, escorting or isolating the offender.

115.15 (d): The PAQ stated that the facility has implemented policies and procedures that enable IICs to shower, perform bodily functions and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Additionally, the PAQ stated that policies and procedures require staff of the opposite gender to announce their presence when entering an IIC housing unit. 04.01.301, page 7 indicates that offenders shall be able to shower, perform bodily functions and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks or genitalia, except when such viewing is incidental to routine cell checks. Page 7 further notates that staff of the opposite gender, whether assigned to the unit or not, shall make the following verbal announcement upon their arrival in a housing unit "Male/Female in the housing unit." Additionally, Post Description Correctional Officer Housing Unit Wing 1, page 2 states that the assigned

correctional officer is responsible for announcing any male staff member upon their entrance to the housing unit in accordance with PREA Standard 115.15 (Limits to Cross Gender Viewing) "Knock and Announce" policy. In addition, a general announcement that male staff will be present should occur at the beginning of each shift and at least once more during the shift. During the tour the auditor observed that privacy was provided via saloon doors, raised walls and solid doors. The auditor viewed the strip search areas in visitation, segregated housing and intake and confirmed there were not any cross gender viewing issues. A review of video monitoring technology confirmed there were no cross gender viewing issues. With regard to the opposite gender announcement, the auditor heard the announcement verbally upon entry into most of the housing units. The announcement was loud and appeared to be audible for IICs within the housing units. The agency also has a paging system for the deaf and hard of hearing IICs where the announcement can be sent out to their watches. Staff were observed entering the opposite gender announcement on housing units where deaf and/or hard of hearing IICs lived. Informal conversation with IICs and staff indicated the opposite gender announcement is routinely made and IICs have privacy when showering using the restroom and changing their clothes. All thirteen random staff stated that IICs have privacy when showering, using the restroom and changing clothes. All 30 of the IICs interviewed indicated they have privacy when showering, using the restroom and changing their clothes. 26 of the 30 IICs stated that staff of the opposite gender announce when entering IIC housing units. All thirteen staff stated that opposite gender staff announce their presence when entering IIC housing units.

115.15 (e): The PAQ indicated that the facility has a policy prohibiting staff from searching or physically examining a transgender or intersex IIC for the sole purpose of determining the IIC's genital status and no searches of this nature occurred in the past twelve months. 05.01.113, page 2 states that staff shall not search or physically examine a transgender or intersex offender for the sole purpose of determining the offender's genital status. If the offender's genital status is unknown, it may be determined during conversation with the offender, reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. Interviews with thirteen random staff indicated all thirteen were aware of an agency policy that prohibits strip searching a transgender or intersex IIC for the sole purpose of determining the IICs' genital status. The interview with the transgender IIC confirmed she believed she was not searched for the sole purpose of determining her genital status.

115.15 (f): 05.01.113, page 2 states that the Office of Staff Development and Training shall ensure security staff are trained in conducting searches of offenders in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. Page 11 further states that offenders designated as transgender non-conforming shall be designated as such in Offender 360 and provided an offender identification card specifying the gender of staff that will

	<p>perform strip searches of that offender as determined by the Transgender Administrative Committee in consultation with the offender. If a strip search is to be performed, the transgender or gender non-conforming offender shall be searched by the gender of the staff designated on their offender identification card. 04.03.104, pages 8-9 also outline the same information described in 05.01.113. The Personal Search Curriculum pages 3-4 outline the basic guidelines for conducting searches including being systematic, thorough, objective and consistent. Page 5 states that when conducting searches of a transgender or intersex offender, the searches should be conducted in a professional and respectful manner, consistent with the type of search being conducted, and security needs. Searches should be complete in accordance with applicable Administrative Directives or Institutional Directives based on the gender of the facility, unless otherwise directed by the CAO. The training further states that if an offender has been confirmed and identified in Offender 360 or on their identification badge to be transgender or gender non-conforming, the offender may express preferences to be searched by a male or female staff of their gender identify rather than the gender staff above, that request will be considered and if possible, honored, if staff are available to do so. Staff are also provided training titled Rehabilitation, Safety Management and Care for Transgender People in Correctional Settings. A review of the training confirmed that staff are provided information on definitions and terminology, appropriate language, bias, gender informed professional skills including appropriate language and misgendering, statistics and policy and procedure related to transgender care. Staff are also provided a personal search card that outlines the steps for offender pat-searches and offender strip searches. Additionally, during the PREA cycle training staff view the PREA Resource Center Video, Guidance on Cross-Gender and Transgender Pat Searches. The PAQ indicated that 100% of staff have received this training. Interviews with random staff indicated twelve of the thirteen had received training on conducting cross-gender pat down searches and searches of a transgender and intersex IICs. A review of thirteen staff training records indicated all thirteen had received the search training during day 4 cycle training.</p> <p>Based on a review of the PAQ, 04.01.301, 04.03.104, 05.01.113, Post Description Correctional Officer Housing Unit Wing 1, Rehabilitation, Safety Management and Care for Transgender People in Correctional Settings Curriculum, Personal Searches Curriculum, Guidance on Cross-Gender and Transgender Pat Searches, Personal Search Card, staff training records, observations made during the tour as information from interviews with random staff, random IICs and the transgender IIC, this standard appears to be compliant.</p>

1. Observations of PREA Posters

Findings (By Provision):

115.16 (a): The PAQ stated that the agency has established procedures to provide disabled IICs equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. 04.01.301, pages 7-8 state that the Department shall provide offender

education in formats accessible to all offenders, including those who are limited English proficient, deaf, visually impaired or otherwise disabled, as well as to offender who have limited reading skills. 04.01.111, pages 3-4 indicate that the CAO shall ensure offenders are provide with information regarding ADA disability accommodations and shall establish procedures for offender access to teletypewriter (TTY) and Video Remote Interpreting (VRS) equipment. The policy also indicates that the CAO shall find alternative notification methods for auditory announcements (tactile paging system). 05.07.101, page 2 states that all videos used during orientation shall include closed captioning subtitles and closed captioning utilizing American Sign Language which has been reviewed for accuracy of the interpretation by the Illinois Deaf and Hard of Hearing Commissioner or a qualified interpreter. The policy further states that the department shall reserve the first row of seats during orientation for offenders who are disabled. A review of PREA Poster, PREA Reporting Poster, the Handbook and distributed information confirmed that information can be provided in large font and bright colors and can be read to IICs in terminology that they understand. Additionally, pages 27-28 of the Handbook provide information on Americans with Disabilities (ADA) including requesting accommodations, telecommunication equipment and sign language information. The interview with the Agency Head confirmed that the agency has established procedures to provide IICS with disabilities and IICs who are limited English Proficient equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect and respond to sexual abuse and sexual harassment. She stated they have a policy for ADA and ADA accommodations. She further stated they work to ensure orientation and education are available in English and Spanish. The Agency Head indicated the PREA video is available in English, Spanish and ASL. Further she noted that the agency has a contract with a language service for translation and ASL that they can utilize when needed. The auditor observed PREA information posted in housing units and common areas via the PREA Poster and PREA Reporting Poster. The PREA Posters were on legal size paper in English and Spanish. The PREA Reporting Posters were on yellow letter size paper in English and Spanish. Additionally, the auditor observed that the PREA hotline number was stenciled near the phones in the housing units. With regard to the opposite gender announcement, the auditor heard the announcement verbally upon entry into most of the housing units. The announcement was loud and appeared to be audible for IICs within the housing units. The agency also has a paging system for the deaf and hard of hearing IICs where the announcement can be sent out to their watches. Staff were observed entering the opposite gender announcement on housing units where deaf and/or hard of hearing IICs lived. The auditor did not require accommodations for disabled IIC interviews, however the auditor previously utilized Propio for disabled IIC interviews at prior IDOC audits. The auditor was provided a website that included options for language translation and American Sign Language. The auditor utilized video ASL translation for deaf IICs.

115.16 (b): The PAQ indicates that the agency has established procedures to provide IICs with limited English proficiency equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse

and sexual harassment. 04.01.301, pages 7-8 state that the Department shall provide offender education in formats accessible to all offenders, including those who are limited English proficient, deaf, visually impaired or otherwise disabled, as well as to offender who have limited reading skills. 04.01.105, page 2 states that for a non-English speaking offender, reasonable efforts shall be made for the orientation to be explained to him or her in a language her or she understands. It further states that offenders shall receive written orientation material and/or translation in their own language and when a literacy problem exists, a staff member shall assist the offender in understanding the materials. The facility also has a contract with Propio Language Services, LLC. This company provides the facility a phone number that they can call that connects the staff member with a translator who can will translate information between the staff member and LEP IIC. The company has interpretation services for over 600 languages. A review of PREA Poster, PREA Reporting Poster, the Handbook and distributed information confirmed that information is available in both English and Spanish and can be translated into other languages, as needed. The auditor observed PREA information posted in housing units and common areas via the PREA Poster and PREA Reporting Poster. The PREA Posters were on legal size paper in English and Spanish. The PREA Reporting Posters were on yellow letter size paper in English and Spanish. Additionally, the auditor observed that the PREA hotline number was stenciled near the phones in the housing units. During IIC interviews the auditor utilized Propio for LEP IICs. The auditor was provided a call in number and a code to receive services. The auditor called the number and was able to secure a translator for the LEP interviews. Interviews with five disabled IICs and two LEP IICs indicated six were provided information in a format that they could understand.

115.16 (c): The PAQ indicated that agency policy prohibits use of IIC interpreters, IIC readers, or other type of IIC assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the IIC's safety, the performance of first responder duties, or the investigation of the IIC's allegation. The PAQ further stated the agency/facility documents the limited circumstances and that there were zero instances where an IIC was utilized to interpret, read or provide other types of assistance. 04.01.301, page 9 states staff shall not rely on individuals in custody to act as interpreters when reporting or investigating allegations of sexual abuse or sexual harassment for other individuals in custody who do not speak English, or who may speak very limited English; except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the safety of the individual. Use of such interpreters shall be documented. Interviews with thirteen random staff indicated nine were aware of a policy that prohibits utilizing IIC interpreters, readers or other types of IIC assistants for sexual abuse allegations. Interviews with five disabled IICs and two LEP IICs indicated six were provided information in a format that they could understand. None of the IICs advised that another IIC was utilized to translate, interpret or provide assistance for them.

Based on a review of the PAQ, 04.01.301, 04.01.105, 04.01.111, 05.07.101, the PREA

	<p>Manual, VRS/TTY information, Propio Language Services LLC information, the Handbook, PREA Posters, PREA Reporting Posters, observations made during the tour as well as interviews with the Agency Head, random staff, IICs with disabilities and LEP IICs, that this standard appears to be compliant.</p>

with offenders and: has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility or other institution as defined in 42 U.S.C. 1997; has been convicted of engaging in or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats or force, or coercion, or if the victim did not consent or was unable to consent or refuse; or has been civilly or administratively adjudicated to have engaged in the activity described above. A review of documentation for five staff hired in the previous twelve months confirmed that all five had a criminal background records check completed. All five also completed the DOC 0450, which contains the PREA questions outlined under this standard. A review of documentation for two contractors hired in the previous twelve months confirmed both had a criminal background records check completed prior to enlisting their services.

115.17 (b): The PAQ indicated that the agency considers any incidents of sexual harassment in determining whether to hire or promote any staff or enlist the services of any contractor who may have contact with an IIC. 03.02.100, page 3 states that the Department shall consider any incident of sexual harassment in determining whether to hire or promote anyone, or enlist the services of any contractual employee, who may have contact with offenders. The interview with Human Resource staff indicated that the Background Investigation Unit (BIU) reports any incidents that are uncovered while conducting the background check relating to sexual harassment and include these incidents in an Administrative Review (AR) that is forwarded on to the IDOC Executive Staff for their review. This also includes contractual employees.

115.17 (c): The PAQ indicated that agency policy requires that before it hires any new employees who may have contact with IICs, it conducts criminal background record checks, and consistent with federal, state, and local law, makes its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse. 01.02.107, pages 2-3 state that background investigations shall be completed on person prior to employment or prior to placement in safety sensitive position and on person who provide services for the Department. There shall be two levels of background investigations: a computer criminal history check which includes a check of an individual's criminal history through the Law Enforcement Agencies Data System (LEADS) and a complete background investigation which includes a check of LEADS and nine other database queries. Policy indicates a complete background investigation is required for all applicants prior to employment, employees, contractual employees and interns. The policy also indicates that the DOC 0450 is also required for the background investigation. A review of the DOC 0589 confirms that the PREA Questionnaire for Institutional Employers is sent to all prior institutional employers and contains four questions including if the individual was involved in a substantiated sexual abuse allegation and/or a sexual harassment allegation and/or if the individual resigned during a pending investigation of sexual abuse and/or a pending investigation of sexual harassment. The PAQ indicated that

39 individuals has a criminal background records check completed. The interview with Human Resource staff confirmed that the Background Investigation Unit (BIU) performs a background check on all request for background investigations sent by facilities. In addition, the BIU performs a check of IDOC Intel, work discipline and any PREA related incidents for all employees promoting to Shift Supervisor or a promotion in a Merit Compensation position. The Human Resource staff also stated that they check IDOC Intel and work discipline for employees that have answered "Yes" on the DOC 0450 (PREA self-disclosure). A review of documentation for five staff hired in the previous twelve months confirmed that all five had a criminal background records check completed. None of the five staff had a prior institutional employer listed on the application, however the auditor viewed the agency process during prior IDOC audits.

115.17 (d): The PAQ stated that agency policy requires that a criminal background record check be completed before enlisting the services of any contractor who may have contact with IICs. The PAQ indicated that there have been zero contracts at the facility within the past twelve months where criminal background record checks were conducted on all staff covered under the contract. Further communication with the PCM indicated there have been four contracts in the previous twelve months and all contractors had a criminal background records check completed prior to enlisting their services. 01.02.107, pages 2-3 state that background investigations shall be completed on person prior to employment or prior to placement in safety sensitive position and on person who provide services for the Department. There shall be two levels of background investigations: a computer criminal history check which include a check of an individual's criminal history through the Law Enforcement Agencies Data System (LEADS) and a complete background investigation which includes a check of LEADS and nine other database queries. Policy indicates a complete background investigation is required for all applicants prior to employment, employees, contractual employees and interns. The policy also indicates that the DOC 0450 is also required for the background investigation. The Human Resource staff confirmed that all contractors who have routine access to individuals in custody go through the background process. A review of documentation for two contractors hired in the previous twelve months confirmed both had a criminal background records check completed prior to enlisting their services.

115.17 (e): The PAQ indicated that agency policy requires that either criminal background record checks be conducted at least every five years for current employees and contractors who may have contact with IICs, or that a system is in place for otherwise capturing such information for current employees. 03.02.108, page 2 states that employees are required to verbally report as soon as possible but within five working days a written report and final disposition to the Background Investigations Unit any arrest, indictment or conviction for a felony or misdemeanor, other than minor traffic offenses such as a parking ticket. The memo from the Background Investigations Unit staff indicated that every applicant processed by the

IDOC had fingerprints submitted through the Illinois State Police LEADS/NCIC system. When fingerprints are submitted, a permanent marker is indicated on the entry which enables arrest tracking. If the individual is ever arrested, the nationwide system generates a direct response to the IDOC Background Investigations Unit which is immediately notified of the arrest. The BIU then contacts the CAO of the facility or program site where the employee/contractor is assigned. The facility provided the auditor examples of employee fingerprint submissions and employee arrest notifications, confirming that the IDOC is notified of any arrests. The interview with Human Resource staff indicated that every applicant processed by the Illinois Department of Corrections Background Investigations Unit has, as part of the background investigations process and as a condition of their employment, fingerprints submitted through the Illinois State Police LEADS/NCIC system. When fingerprints are submitted, a permanent marker is indicated on the entry which enables Arrest Tracking. If the individual is ever arrested, the nationwide system generates a direct response to the Illinois Department of Corrections Background Investigations Unit which is immediately notified of the arrest. The notification includes the individual's name, date of birth, and other pertinent identifying information, as well as the Agency which effected the arrest and the charge(s).

115.17 (f): A review of the DOC 0450 Prison Rape Elimination Act Pre-Employment Self-Report confirms that all staff (new applicant and promotion) are required to fill out the form which contains the following questions: have you engaged in sexual abuse in a prison, jail, lockup, community confinement facility, or other correctional facility, a pretrial detention facility, a juvenile facility, a facility for persons who are mentally ill or disabled or have intellectual disabilities or are chronically ill or handicapped, a facility providing skilled nursing intermediate or long-term care custodial or residential care or other institution as defined in the Civil Rights Institutionalized Persons Act (42 U.S.C. 1997)?; have you been convicted of engaging or attempting to engage in sexual activity in the community that was facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse?; and have you been civilly or administratively adjudicated to have engaged in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; and has there ever been any allegation, complaint or finding made against you regarding any incidents of sexual harassment? The Human Resource staff stated that when an individual applies for employment with IDOC they are required to fill out the DOC 0031, Applicant Information Sheet (AIS). There are numerous questions within the AIS that ask about visiting, corresponding with and living with IDOC offenders. Additionally, the applicant is asked about any contact with Law Enforcement. Applicants and promoting employees are also required to complete the DOC 0450 (PREA self-report). The Human Resource staff member confirmed that staff have a continuing affirmative duty to disclose any previous misconduct. The staff indicated that policy of Standards of Conduct require the employee to disclose misconduct. A review of documentation for five staff hired in the previous twelve months confirmed all five completed the DOC 0450, which contains the PREA

	<p>questions outlined under this standard. 115.18	Upgrades to facilities and technologies
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Documents:</p> <ol style="list-style-type: none"> 1. Pre-Audit Questionnaire <p>Interviews:</p> <ol style="list-style-type: none"> 1. Interview with the Agency Head 2. Interview with the Warden <p>Site Review Observations:</p>

1. Observations of Modification to the Physical Plant/New Unit
2. Observations of Video Monitoring Technology

Findings (By Provision):

115.18 (a): The PAQ indicated that the agency/facility has acquired a new facility or made a substantial expansion or modification to existing facilities since August 20, 2012, or since the last PREA audit, whichever is later. During the tour the auditor observed that a housing unit was converted to program area. The physical plant of the structure had minimal changes. Bedding areas were converted to offices and the dayroom was converted into program/classroom space. The interview with the Agency Head indicated when they modify physical plant of existing facilities or they build a new facility they keep PREA in the forefront. She stated they ensure buildings do not have any visual PREA concerns, such as blind spots. Additionally, she stated modifications make things more efficient and effective. The Agency Head advised the goal is to protect IICs and staff. The interview with the Warden indicated that they have renovated housing unit two for programming. She advised they turned the area into classrooms and office, but have kept the same physical plant.

115.18 (b): The PAQ stated that the agency/facility has installed or updated a video monitoring system, electronic surveillance system, or other monitoring technology since August 20, 2012, or since the last PREA audit, whichever is later. Additional cameras were installed in housing unit two to cover additional areas that IICs and staff would interact, due to the conversion from living area to program area. During the tour the auditor observed cameras in housings units and most common areas. The auditor verified that the cameras are not actively monitored but rather are utilized mainly for investigative purposes. Shift Commanders, Internal Affairs (IA) and administrative level staff have access to view the cameras. The interview with the Agency Head confirmed that any use of newly updated or installed monitoring technology would be utilized to assist in enhancing the agency's ability to protect IICs from sexual abuse. She stated the agency has a number of cameras and DVSs and they are continually looking to expand technologies across facilities. The Agency Head noted that they are working with their technology partners to build an infrastructure and the goal is to update to more current technology. The Warden confirmed that when installing or updating video monitoring technology they consider how that technology will protect IICs from sexual abuse. She stated a big part of video monitoring is making sure intel and maintenance work together to keep proper visual and angles. She noted they install cameras in heavy traffic areas and blind spots.

Based on a review of the PAQ, observations made during the tour and information from interviews with the Agency Head and Warden indicates that this standard

	appears to be compliant.

The PAQ indicated that when conducting a sexual abuse investigation, the agency investigators follow a uniform evidence protocol. 04.01.301, page 10 states that all</p>

allegations of sexual abuse or harassment shall be investigated by trained investigators in accordance with 01.12.120. The initial investigative report shall be provided to the Chief Administrative Officer within 24 hours of the onset of the investigation. Policy further states that upon conclusion of the investigation the results shall be forwarded to the Chief of Operations who shall report the incident to the Illinois State Police, where appropriate. 01.12.120, pages 1-2 state that The CAO shall ensure that an internal investigation is conducted by facility staff, or by staff assigned by the Chief of Investigations and Intelligence, on each unusual incident report, if it is determined that further facts are required. The Director or the respective Deputy Director or Chief may request that the Chief of Operations initiate a Department investigation of any other major incident. Department investigations shall be conducted by the Investigations and Intelligence Unit. 01.12.112 pages 1-2 describe the uniform evidence protocol including preservation and collection. Interviews with thirteen random staff indicated eleven were aware of and understood the protocol for obtaining usable physical evidence. Additionally, eleven staff stated they knew who was responsible for conducting sexual abuse investigations.

115.21 (b): The PAQ indicated that the evidence protocol is not developmentally appropriate for youth as the agency does not house youthful IICs. It further stated that the protocol was adapted from or otherwise based on the most recent edition of the DOJ's Office of Violence Against Women publication "A National Protocol for Sexual Assault Medical Forensic Examinations, Adult/Adolescents." Further clarification with the PCM indicated that it was not developed for youth as they do not house youth, however it was developed based on the most recent edition of the DOJ's publication. 01.12.112 indicates that prior to evidence collection the scene shall be secured; evidence shall be collected subsequent of searches, sketches and photographs; evidence shall be handled as little as possible and evidence shall be marked and tagged. The memo from the Chief of Investigations and Intelligence also indicated that all Sexual Assault Evidence Kits will be completed by an outside hospital or outside hospital emergency room with trained medical staff and the hospital completing the kit will be responsible for submitting the kit to the Illinois State Police Division of Forensic Services.

115.21 (c): The PAQ indicated that the facility offers all IICs who experience sexual abuse access to forensic medical examinations at an outside medical facility. The PAQ stated that forensic medical examinations are offered without financial cost to the victim. It further indicated forensic medical examinations are always conducted by SAFE or SANE. The PAQ confirmed that state statute (Illinois Compiled Statutes ILCS) requires forensic medical examination to be performed by SANE/SAFE. 04.01.301, page 9 states that offenders shall not be charged for co-payments for medical treatment, including a forensic medical examination, obtained for alleged sexual abuse. Treatment shall be provided by a certified Sexual Assault Forensic Examiner (SAFE) or a certified Sexual Assault Nurse Examiner (SANE) at a local emergency room as determined by the local facility. The memo from the Chief of Investigations

and Intelligence also indicated that all Sexual Assault Evidence Kits will be completed by an outside hospital or outside hospital emergency room with trained medical staff. The PAQ indicated that during the previous twelve months there were zero forensic medical examinations conducted. A review of investigations indicated there were zero IICs transported to the local hospital for a forensic medical examination. The auditor contacted Lincoln Memorial Hospital related to forensic medical examinations. Hospital staff confirmed that forensic medical examinations are provided by SAFE/SANE.

115.21 (d): The PAQ indicated that the facility attempts to make available to the victim a victim advocate from a rape crisis center and the efforts are documented. The PAQ further indicated that if a rape crisis center is not available a qualified staff member from a community-based organization or a qualified agency staff member, however a rape crisis center advocate is always provided. 04.01.301, page 5 states that the PCM shall identify community agencies, including advocacy and crisis organizations, where reports can be made or that provide assistance or support services to staff or offenders in the prevention or intervention of sexual abuse and harassment. Page 8 further states that all response efforts, including efforts to secure advocacy services from a rape crisis center, shall be documented. The facility has a Memorandum of Understanding with Prairie Center Against Sexual Abuse which was signed on July 16, 2021. The MOU states the purpose and scope of the MOU is to establish a joint effort between IDOC and Prairie CASA to make available to IICs access to an outside entity to provide emotional support services related to sexual abuse, including crisis intervention and sexual assault counseling. The MOU further states that it is understood that face-to-face emotional support will be provided in as confidential a manner as possible or emotional support would be provided through confidential, unmonitored, unrecorded phone calls and shall comply with 735 ILCS 5/8-802.1 "Confidentiality of Statements Made to Rape Crisis Personnel." The interview with the PCM confirmed that as requested by the victim, the victim advocate, qualified agency staff member or qualified community-based organization staff member shall accompany and support the victim through the forensic medical examination process and investigatory interviews. He stated they have information on Prairie CASA and they offer services through Prairie CASA. He noted that IICs are provided information on what advocates will do and they are also given their contact information for services as well. Interviews with IICs who reported sexual abuse indicated neither were afforded the opportunity to contact someone after a report of sexual abuse. It should be noted both IICs reported sexual harassment, rather than sexual abuse. A review the one sexual abuse allegation indicated the IIC was offered a victim advocate but declined the services. It should be noted that the victims in all sexual harassment allegations were also offered access to a victim advocate. All declined the services.

115.21 (e): The PAQ indicated that as requested by the victim, the victim advocate, qualified agency staff member or qualified community-based organization staff

member shall accompany and support the victim through the forensic medical examination process and investigatory interviews. 04.01.301, page 5 states that the PCM shall identify community agencies, including advocacy and crisis organizations, where reports can be made or that provide assistance or support services to staff or offenders in the prevention or intervention of sexual abuse and harassment. Page 8 further states that all response efforts, including efforts to secure advocacy services from a rape crisis center, shall be documented. The facility has a Memorandum of Understanding with Prairie Center Against Sexual Assault which was signed on July 16, 2021. The MOU states IDOC will follow the Sexual Assault Survivors Emergency Treatment Act (SASETA) when a forensic medical examination is determined by IDOC to be medically and evidentiarily appropriate in accordance with 115.21, and the examination will be provided at no cost to the IIC. It is expected that the treatment hospital will contact a local rape crisis center as may be specified within a memorandum of understanding or other agreement between the treatment hospital's local rape crisis center pursuant to SASETA. IDOC will allow an IIC transported to a treatment hospital for medical forensic services to access crisis intervention and medical advocacy while at the treatment hospital. If the PCM is on duty, and as time and circumstances allow, the PCM shall provide notice to the appropriate rape crisis center of an IIC being transported to a treatment hospital for medical forensic services to allow for an advocate to be dispatched earlier than when the hospital calls upon arrival. The MOU further states that after the forensic services is performed, IDOC will inform the IIC how to contact the rape crisis center so that the IIC can independently decide whether to avail himself or herself of additional rape crisis services. The interview with the PCM confirmed that as requested by the victim, the victim advocate, qualified agency staff member or qualified community-based organization staff member shall accompany and support the victim through the forensic medical examination process and investigatory interviews. He stated they have information on Prairie CASA and they offer services through Prairie CASA. He noted that IICs are provided information on what advocates will do and they are also given their contact information for services as well. Interviews with IICs who reported sexual abuse indicated neither were afforded the opportunity to contact someone after a report of sexual abuse. It should be noted both IICs reported sexual harassment, rather than sexual abuse. A review the one sexual abuse allegation indicated the IIC was offered a victim advocate but declined the services. It should be noted that the victims in all sexual harassment allegations were also offered access to a victim advocate. All declined the services.

115.21 (f): The PAQ indicated that the agency/facility is not responsible for investigating administrative or criminal investigations of sexual abuse. The agency/facility does conduct sexual abuse investigations, however there are certain criminal investigations that are conducted by the Illinois State Police. The MOU with the Illinois State Police (signed in 2019) indicates that they conduct investigations related to sexual assault involving staff on staff or staff on IIC. A review of documentation confirmed that the PC has annual correspondence with the Illinois State Police related to the Survey of Sexual Victimization. During that correspondence the Illinois State

Investigative Reports <p>Interviews:</p> <ol style="list-style-type: none"> 1. Interview with the Agency Head 2. Interviews with Investigative Staff

Findings (By Provision):

115.22 (a): The PAQ indicated that the agency ensures an administrative or criminal investigation is completed for all allegations of sexual abuse and sexual harassment. 04.01.301, page 10 states that all allegations of sexual abuse or harassment shall be investigated by trained investigators in accordance with 01.12.120. The initial investigative report shall be provided to the Chief Administrative Officer within 24 hours of the onset of the investigation. Policy further states that upon conclusion of the investigation the results shall be forwarded to the Chief of Operations who shall report the incident to the Illinois State Police, where appropriate. 01.12.120, pages 1-2 state that The CAO shall ensure that an internal investigation is conducted by facility staff, or by staff assigned by the Chief of Investigations and Intelligence, on each unusual incident report, if it is determined that further facts are required. The Director or the respective Deputy Director or Chief may request that the Chief of Operations initiate a Department investigation of any other major incident. Department investigations shall be conducted by the Investigations and Intelligence Unit. The PAQ noted there were sixteen allegations reported within the previous twelve months. Nine resulted in an administrative investigation and zero resulted in a criminal investigation. The auditor reviewed that there were eleven allegations reported during the previous twelve months. The interview with the Agency Head confirmed that the agency ensures an administrative or criminal investigation is completed for all allegations of sexual abuse or sexual harassment. She advised they have an Administrative Directive that outlines the process. The investigative unit will review all evidence and will contact ISP, if needed. Once all information is gathered, the Agency Head indicated that they will utilize a preponderance of the evidence to conclude the investigation. A review of eleven allegations indicated all eleven were forwarded for investigation. All eleven had an administrative investigation completed by facility investigators.

115.22 (b): The PAQ indicated that the agency has a policy that requires that allegations of sexual abuse or sexual harassment be referred for investigation to an agency with the legal authority to conduct criminal investigations, including the agency if it conducts its own investigations, unless the allegation does not involve potentially criminal behavior. The PAQ further stated that the policy is published on the agency's website and all referrals for criminal investigations are documented. 04.01.301, page 10 states that all allegations of sexual abuse or harassment shall be investigated by trained investigators in accordance with 01.12.120. The initial investigative report shall be provided to the Chief Administrative Officer within 24 hours of the onset of the investigation. Policy further states that upon conclusion of the investigation the results shall be forwarded to the Chief of Operations who shall report the incident to the Illinois State Police, where appropriate. Additionally, the MOU with the Illinois State Police (signed in 2019) indicates that they conduct investigations related to sexual assault involving staff on staff or staff on IIC. A review of the agency website indicates that it states that IDOC investigates all allegations of

offender on offender sexual abuse and staff sexual misconduct. It further states that investigations are initiated by the Investigations Unit at IDOC Headquarters. Interviews with the investigators confirmed that all allegations are referred to an investigative agency with the legal authority to conduct criminal investigations. A review of eleven allegations indicated all eleven were forwarded for investigation. None involved an investigation by an outside agency, as the allegations were not criminal in nature.

115.22 (c): The agency/facility has the authority to conduct both administrative and criminal investigations. The Illinois State Police also have the authority to conduct criminal investigations. 04.01.301 states that upon conclusion of the investigation the results shall be forwarded to the Chief of Operations who shall report the incident to the Illinois State Police, where appropriate. Additionally, the MOU with the Illinois State Police (signed in 2019) indicates that they conduct investigations related to sexual assault involving staff on staff or staff on IIC.

115.22 (d): The PAQ stated that if the agency is not responsible for conducting administrative or criminal investigations of alleged sexual abuse, and another state entity has that responsibility, this other entity has a policy governing how such investigations are conducted. The agency/facility has the authority to conduct both administrative and criminal investigations. The Illinois State Police also has the authority to conduct criminal investigations. 04.01.301 states that upon conclusion of the investigation the results shall be forwarded to the Chief of Operations who shall report the incident to the Illinois State Police, where appropriate. Additionally, the MOU with the Illinois State Police (signed in 2019) indicates that they conduct investigations related to sexual assault involving staff on staff or staff on IIC.

115.22 (e): The auditor is not required to audit this provision.

Based on a review of the PAQ, 04.01.301, 01.12.120, the MOU with the Illinois State Police, investigative reports, the agency's website and information obtained via interviews with the Agency Head and the investigators indicate that this standard appears to be compliant.

8. Transgender and Non-Binary Individuals in Custody Setting - A Guide to Rehabilitation, Safety Management and Care
9. Supervising Individuals in Custody in the IDOC Women's Division
10. Staff Training Records

Interviews:

1. Interviews with Random Staff

Findings (By Provision):

115.31 (a): The PAQ indicated that the agency trains all employees who may have contact with IICs on the requirements under this provision. 04.01.301, pages 3-4 state that the PC shall develop or approve standardized modules for training staff. Training shall include, but may not be limited to: the Department's zero tolerance policy; the Department's Sexual Abuse and Harassment Prevention and Intervention Policy; an offender's right to be free from sexual abuse and harassment and to be free from retaliation for reporting sexual abuse and harassment; common signs of sexually abusive or harassing behavior; common signs of being a victim of sexual abuse or harassment; protocol for initial response, including identification and separation of offenders; reporting procedures and preservation of physical evidence of sexual abuse. 03.03.102, page 1 states that the Department shall ensure all new employees receive orientation and pre-service training and all employees receive in-service training on a fiscal year basis. A review of the PREA Pre-Service Orientation Training Curriculum and the PREA -Individual in Custody Sexual Assault Prevention and Intervention Curriculum confirms that both trainings includes information on: the

agency's zero-tolerance policy, how to fulfill their responsibilities under the agency's sexual abuse and sexual harassment policies and procedures, the IICs' right to be free from sexual abuse and sexual harassment, the right of the IIC to be free from retaliation for reporting sexual abuse or sexual harassment, the dynamics of sexual abuse and sexual harassment in a confinement setting, the common reactions of sexual abuse and sexual harassment victims, how to detect and respond to signs of threatened and actual sexual abuse, how to avoid inappropriate relationship with IICs and how to comply with relevant laws related to mandatory reporting. With regard to how to communicate effectively and professionally with lesbian, gay, bisexual, transgender and intersex IICs, staff are required to complete the Transgender and Non-Binary Individuals in Custody Setting – A Guide to Rehabilitation, Safety Management and Care video. Interviews with thirteen random staff confirmed all thirteen had received PREA training and the training included the elements under this provision. A review of eighteen staff training records indicated all eighteen had completed PREA training.

115.31 (b): The PAQ indicated that training is tailored to the gender of IIC at the facility and that employees who are reassigned to facilities with opposite gender are given additional training. 03.03.102, page 4 states that all employees employed at a women's facility shall receive an additional 40 hours of gender responsive and trauma informed training onsite upon hire. Each employee shall then be provided a gender responsive and trauma informed refresher each subsequent year of employment. A review of the Supervising Individuals in Custody in the IDOC Women's Division training curriculum confirms the training includes 83 slides related to trauma informed practices, gender specific programs and services, different level of value of communication for women and health boundaries and professional distance. Additionally, the agency has the Gender Responsibility and Supervising the Female Offender training. Lincoln Correctional Center houses adult male IICs and as such additional training was not required or conducted.

115.31 (c): The PAQ indicated that between trainings the agency provides employees who may have contact with IICs with refresher information about current policies regarding sexual abuse and sexual harassment and that staff are provided training annually. 03.03.102, page 4 states that employees shall receive an additional 40 hours of training each subsequent year of employment. 01.01.101, page 7 states that the Policy and Directives Unit shall provide monthly notice of, and make available via the Department Intranet any new or revised directives, rescission notices, or provide a notice of no change. Additionally, 01.02.101 states that administrative and supervisory staff meeting shall be held at least once a month to ensure that lines of two-way communication are established between all levels of supervision and that the meeting will be used for discussing policy and program changes and topics which are of general interest to the group. A review of eighteen staff training records indicated thirteen had completed PREA training the previous two years. Those without the second year were new hires and had only been employed for a year or less.

115.31 (d): The PAQ indicated that the agency documents that employees who may have contact with IICs understand the training they have received through employee signatures or electronic verification. 03.03.102, page 6 states that certificates or other verification of training received shall be provided to the Training Coordinator. The certificates or verification of training shall include all information required on the DOC 0200. Additionally, all newly hired staff are required to complete the Acknowledgement of Participation which indicates that the staff has read and understood 04.01.301. A review of eighteen staff training records indicated all eighteen signed verification of the completed training via the DOC 0200.

Based on a review of the PAQ, 04.01.301, 03.03.102, 01.01.101, 01.02.101, PREA Pre-Service Orientation Training Curriculum, PREA - Individual in Custody Sexual Assault Prevention and Intervention Curriculum, Transgender and Non-Binary Individuals in Custody Setting - A Guide to Rehabilitation, Safety Management and Care training, Supervising Individuals in Custody in the IDOC Women's Division, staff training records as well as interviews with random staff, this standard appears to be compliant.

PREA - Individual in Custody Sexual Assault Prevention and Intervention Curriculum 8. Contractor and Volunteer Training Records 9. List of Current Contractors and Volunteers

Interviews:

1. Interviews with Volunteers and Contractors who have Contact with Individuals In Custody

Findings (By Provision):

115.32 (a): The PAQ indicated that all volunteers and contractors who have contact with IICs have been trained on their responsibilities under the agency's policies and procedures regarding sexual abuse and sexual harassment prevention, detection and response. 04.01.301, pages 3-4 state that the PC shall develop or approve standardized modules for training staff. Training shall include, but may not be limited to: the Department's zero tolerance policy; the Department's Sexual Abuse and Harassment Prevention and Intervention Policy; an offender's right to be free from sexual abuse and harassment and to be free from retaliation for reporting sexual abuse and harassment; common signs of sexually abusive or harassing behavior; common signs of being a victim of sexual abuse or harassment; protocol for initial response, including identification and separation of offenders; reporting procedures and preservation of physical evidence of sexual abuse. Page 2 states that the term staff for the purpose of this directive shall mean any Department employee, contracted employee, employee of a vendor or volunteer. 04.01.122, page 3 states that the Facility Volunteer Coordinator shall ensure volunteers receive orientation and training appropriate to the type of volunteer assignment at the facility or program site prior to service. Training shall include, but not be limited to, preparation of an incident report, volunteer rules of conduct and the Department's zero tolerance policy toward all forms of sexual abuse and sexual harassment. The PAQ indicated that 50 volunteers and contractors had received PREA training, which is equivalent to less than 100% of the total volunteers and contractors. A review of the PREA Pre-Service Orientation Training Curriculum and the PREA - Individual in Custody Sexual Assault Prevention and Intervention Curriculum confirms that the trainings discuss responsibilities under the agency's sexual abuse and sexual harassment policy. A review of the Volunteer Handbook confirms that it includes information on the zero tolerance, how to report and red flags. Interviews with contractors and a volunteer confirmed that they had received information on the agency's sexual abuse and sexual harassment policies. The contractors advised they received training via PSOT and cycle, while the volunteer advised training was completed in class and through a packet that they had to read and sign. A review of documentation for eleven contractors and six volunteers indicated sixteen had completed PREA training. It should be noted that most volunteer training was completed after the on-site portion of the audit. During the on-site portion of the audit the facility found that volunteer training was not documented appropriately. As such, the facility initiated immediate corrective action and contacted all current volunteers to complete the PREA training. The facility provided a list of current contractors and volunteers and associated PREA

training. The facility was unable to obtain training from a few of the volunteers, however, the facility will ensure the training is completed prior to the volunteers entering the facility.

115.32 (b): The PAQ indicated that the level and type of training provided to volunteers and contractors is based on the services they provide and level of contact they have with IICs. The PAQ stated that all volunteers and contractors with IIC contact are required to complete orientation. Additionally, the PAQ indicates that all volunteers and contractors who have contact with IICs have been notified of the agency's zero-tolerance policy regarding sexual abuse and sexual harassment and informed on how to report such incidents. 04.01.301, pages 3-4 state that the PC shall develop or approve standardized modules for training staff. Training shall include, but may not be limited to: the Department's zero tolerance policy; the Department's Sexual Abuse and Harassment Prevention and Intervention Policy; an offender's right to be free from sexual abuse and harassment and to be free from retaliation for reporting sexual abuse and harassment; common signs of sexually abusive or harassing behavior; common signs of being a victim of sexual abuse or harassment; protocol for initial response, including identification and separation of offenders; reporting procedures and preservation of physical evidence of sexual abuse. Page 2 states that the term staff for the purpose of this directive shall mean any Department employee, contracted employee, employee of a vendor or volunteer. 04.01.122, page 3 states that the Facility Volunteer Coordinator shall ensure volunteers receive orientation and training appropriate to the type of volunteer assignment at the facility or program site prior to service. Training shall include, but not be limited to, preparation of an incident report, volunteer rules of conduct and the Department's zero tolerance policy toward all forms of sexual abuse and sexual harassment. A review of the PREA Pre-Service Orientation Training Curriculum and the PREA - Individual in Custody Sexual Assault Prevention and Intervention Curriculum confirms that the trainings discuss responsibilities under the agency's sexual abuse and sexual harassment policy. A review of the Volunteer Services Handbook confirms it includes information on the zero tolerance, how to report and red flags. Interviews with contractors and the volunteer confirmed that the training went over the zero tolerance policy and who to report information to. A review of documentation for eleven contractors and six volunteers indicated sixteen had completed PREA training. Contractors with routine contact with IICs (such as medical and mental health) complete the same training as staff through pre-service orientation training and the annual cycle training. Volunteers completed the read and sign related to the Volunteer Services Handbook. It should be noted that most volunteer training was completed after the on-site portion of the audit. During the on-site portion of the audit the facility found that volunteer training was not documented appropriately. As such, the facility initiated immediate corrective action and contacted all current volunteers to complete the PREA training. The facility provided a list of current contractors and volunteers and associated PREA training. The facility was unable to obtain training from a few of the volunteers, however, the facility will ensure the training is completed prior to the volunteers entering the facility.

115.32 (c): The PAQ indicated that the agency maintains documentation confirming that volunteers and contractors understand the training they have received. 03.03.102, page 6 states that certificates or other verification of training received shall be provided to the Training Coordinator. The certificates or verification of training shall include all information required on the DOC 0200. Additionally, all newly hired staff are required to complete the Acknowledgement of Participation which indicates that the staff has read and understood 04.01.301. Additionally, 04.01.122, page 3 states that individual volunteer files shall include training documentation including documented orientation and any additional training. Training documentation shall be signed and dated by the volunteer along with the Volunteer Coordinator. A review of documentation confirmed that contractors signed the DOC 0200 and volunteers sign a document confirming they received and understood PREA training.

Based on a review of the PAQ, 04.01.301, 04.01.122, 03.03.102, the Volunteer Services Handbook, PREA Pre-Service Orientation Training Curriculum, PREA - Individual in Custody Sexual Assault Prevention and Intervention Curriculum, a review of contractor training records as well as the interviews with contractors and the volunteer, this standard appears to be complaint.

Site Review Observations:

1. Observations of Intake Area
2. Observations of PREA Posters

Findings (By Provision):

115.33 (a): The PAQ indicated that IICs receive information at the time of intake about the zero-tolerance policy and how to report incidents or suspicions of sexual abuse and sexual harassment. The PAQ indicated that 1322 IICs received information on the zero-tolerance policy and how to report at intake, which is equivalent to 100% of the IICs who arrived in the previous twelve months. 04.01.301, page 7 states that during the admission and orientation process, offenders shall be provided with a presentation regarding the Department's Sexual Abuse and Harassment Prevention and Intervention Program, including reporting procedures and available services and the zero tolerance policy. Offenders shall be informed that victims need not name their attacker to receive medical and mental health services. The policy further states that the offender handbook shall include an explanation of reporting procedures and programs and services available to victims or predators of sexual abuse and harassment. A review of the Handbook confirmed that pages 74-80 include information on PREA. The information includes: zero tolerance, definitions of sexual abuse, how to prevent sexual abuse, ways to report (including the outside reporting entity) and victim advocacy information. The auditor observed the intake process through a demonstration. IICs are provided initial information and comprehensive education at the same time as they have previously been provided education at a prior IDOC facility. All IICs are provided a Handbook (available in English and Spanish) and are given orientation. Orientation is conducted in housing unit two. PREA education is completed via the PREA Resource Center's education video (available in English, Spanish and American Sign Language). The video is shown on a 65 inch tv. The auditor observed that the video included subtitles and the audio was adequate.

At the conclusion of the video, staff read the PREA script, which includes verbally discussing key points of the video, agency reporting mechanisms and information on the local rape crisis center. Staff also point out the posted PREA information and note where it is found throughout the facility. All IICs receive orientation within seven days of arrival at the facility. The staff indicated that if an IIC is LEP they can utilize a staff translator. The interview with the intake staff confirmed IICs are provided information on the zero tolerance policy and reporting mechanism upon intake. Interviews with 30 IICs indicated 29 were provided information on the agency's sexual abuse and sexual harassment policies. A review of documentation for 33 IICs that arrived in the previous twelve months confirmed all 33 had received PREA information at intake.

115.33 (b): 04.01.301, page 7 states that during the admission and orientation process, offenders shall be provided with a presentation regarding the Department's Sexual Abuse and Harassment Prevention and Intervention Program, including reporting procedures and available services and the zero tolerance policy. Offenders shall be informed that victims need not name their attacker to receive medical and mental health services. The policy further states that the offender handbook shall include an explanation of reporting procedures and programs and services available to victims or predators of sexual abuse and harassment. The PAQ indicated that 1122 IICs received comprehensive PREA education within 30 days of intake. This is equivalent 100% of those received in the previous twelve months whose length of stay was for 30 days or more. A review of the PREA Script notes that there are two, one with the video and one without. The PREA Script without the video includes information that is contained in the PREA video. The PREA Script outlines the history or PREA, rights under PREA, the zero tolerance policy, definitions/examples, actions to take if sexually abused or sexually harassed, the facility's response once reported, reporting methods (internal and external) and emotional support information, including contact information for the local rape crisis center. The auditor observed the intake process through a demonstration. IICs are provided initial information and comprehensive education at the same time as they have previously been provided education at a prior IDOC facility. All IICs are provided a Handbook (available in English and Spanish) and are given orientation. Orientation is conducted in housing unit two. PREA education is completed via the PREA Resource Center's education video (available in English, Spanish and American Sign Language). The video is shown on a 65 inch tv. The auditor observed that the video included subtitles and the audio was adequate. At the conclusion of the video, staff read the PREA script, which includes verbally discussing key points of the video, agency reporting mechanisms and information on the local rape crisis center. Staff also point out the posted PREA information and note where it is found throughout the facility. All IICs receive orientation within seven days of arrival at the facility. The staff indicated that if an IIC is LEP they can utilize a staff translator. The interview with intake staff confirmed that IICs are provided information on their right to be free from sexual abuse and sexual harassment, their right to be free from retaliation from reporting such incidents and the facility's response to an allegation of sexual abuse or sexual harassment. Interviews with 30 IICs indicated 27 were provided information on their right to be

free from sexual abuse and sexual harassment, their right to be free from retaliation from reporting such incidents and the agency's policies and procedures after an allegations of sexual abuse or sexual harassment. Most of the IICs stated this was done during orientation when they first arrived. A review of documentation for 33 IICs that arrived in the previous twelve months confirmed all 33 had received PREA education.

115.33 (c): The PAQ indicated that all current IICs at the facility had been educated on PREA within 30 days or were educated by June 30, 2014. Additionally, the PAQ indicated that agency policy requires that IICs who are transferred from one facility to another be educated regarding their rights to be free from both sexual abuse and sexual harassment and retaliation for reporting such incidents and on agency policies and procedures for responding to such incidents, to the extent that the policies and procedures of the new facility differ from those of the previous facility. 04.01.301, page 7 states that during the admission and orientation process, offenders shall be provided with a presentation regarding the Department's Sexual Abuse and Harassment Prevention and Intervention Program, including reporting procedures and available services and the zero tolerance policy. Offenders shall be informed that victims need not name their attacker to receive medical and mental health services. The policy further states that the offender handbook shall include an explanation of reporting procedures and programs and services available to victims or predators of sexual abuse and harassment. The interview with intake staff confirmed that IICs are provided information related to the agency's sexual abuse and sexual harassment policies, including their right to be free from sexual abuse and sexual harassment, their right to be free from retaliation from reporting sexual abuse and the agency's response to an allegation of sexual abuse. The staff advised each IIC goes through orientation where they watch a video and staff verbally read a script. The intake staff advised orientation is completed within seven days of arrival. A review of a total of 38 IIC files indicated all 38 had completed PREA education.

115.33 (d): The PAQ indicated that IIC PREA education is available in formats accessible to all IICs, including those who are disabled or limited English proficient. 04.01.301, pages 7-8 state that the Department shall provide offender education in formats accessible to all offenders, including those who are limited English proficient, deaf, visually impaired or otherwise disabled, as well as to offender who have limited reading skills. 04.01.111, pages 3-4 indicate that the CAO shall ensure offenders are provide with information regarding ADA disability accommodations and shall establish procedures for offender access to teletypewriter (TTY) and Video Remote Interpreting (VRS) equipment. The policy also indicates that the CAO shall find alternative notification methods for auditory announcements (tactile paging system). 05.07.101, page 2 states that all videos used during orientation shall include closed captioning subtitles and closed captioning utilizing American Sign Language which has been reviewed for accuracy of the interpretation by the Illinois Deaf and Hard of Hearing Commissioner or a qualified interpreter. The policy further states that he department

shall reserve the first row of seats during orientation for offenders who are disabled. 04.01.105, page 2 states that for a non-English speaking offender, reasonable efforts shall be made for the orientation to be explained to him or her in a language her or she understands. It further states that offenders shall receive written orientation material and/or translation in their own language and when a literacy problem exists, a staff member shall assist the offender in understanding the materials. The facility also has a contract with Propio Language Services, LLC. This company provides the facility a phone number that they can call that connects the staff member with a translator who can will translate information between the staff member and LEP IIC. The company has interpretation services for over 600 languages. A review of PREA Poster, PREA Reporting Poster, the Handbook and distributed information confirmed that information can be provided in large font, bright colors and can be read to IICs in terminology that they understand. It is also available in English and Spanish. Additionally, pages 27-28 of the Handbook provide information on Americans with Disabilities (ADA) including requesting accommodations, telecommunication equipment and sign language information. The facility also provided three photos of the video interpretation phones located throughout the facility. A review of documentation for eight disabled IICs and three LEP IICs confirmed all eleven had completed PREA education. All three LEP IICs signed a Spanish acknowledgment form.

115.33 (e): The PAQ indicated that the agency maintains documentation of IIC participation in PREA education sessions. 04.01.105, page 2 states that at the conclusion of the orientation program, each offender shall be requested to sign an Offender Orientation Receipt, DOC 0291, indicating he or she has participated in the orientation program and has obtained a copy of the manual. A review of documentation illustrated that all 38 IICs signed a document confirming they received PREA education.

115.33 (f): The PAQ indicated that the agency ensures that key information about the agency's PREA policies is continuously and readily available or visible through posters, IIC handbooks or other written formats. 04.01.301, page 7 states that the offender handbook shall include an explanation of reporting procedures and programs and services available to victims or predators of sexual abuse and harassment. A review of the Handbook, PREA Poster and PREA Reporting Poster confirmed information is accessible to IICs through these avenues. The auditor observed PREA information posted in housing units and common areas via the PREA Poster and PREA Reporting Poster. The PREA Posters were on legal size paper in English and Spanish. The PREA Reporting Posters were on yellow letter size paper in English and Spanish. Additionally, the auditor observed that the PREA hotline number was stenciled near the phones in the housing units. Informal conversation with staff and IICs indicated PREA information has been posted for a while.

	<p>Based on a review of the PAQ, 04.01.301, 04.01.105, 04.01.111, 05.07.101, Propio Language Services, LLC. information, Video Remote Interpreting information, the Handbook, the PREA Poster, the PREA Reporting Poster, IIC education documents, observations made during the tour as well as information obtained during interviews with intake staff and random IICs, this standard appears to be compliant.</p>

Training topics include but are not limited to: investigative techniques, including interviewing sexual abuse victims; crime scene preservation; collection and preservation of evidence, including sexual abuse evidence collection in a confinement setting; proper use of Miranda and Garrity warnings; criteria and evidence required to substantiate a case for administrative action or prosecution referral; and investigative reporting. The agency</p>

utilizes their own training for this standard; PREA for Investigators. Interviews with the investigators confirmed they received specialized training regarding conducting sexual abuse and sexual harassment investigations in a confinement setting. The criminal investigator stated he attended the 40 hour institutional investigator training, which covers the specialized training for PREA. The facility investigator confirmed he received training through the 40 hour investigator training and two NIC courses. A review of documentation indicated four facility staff were documented with the specialized investigations training.

115.34 (b): 01.12.115, page 2 states that the CAO shall ensure that each individual appointed as an investigator be registered for the next available investigator training program within ten days of temporary or permanent assignment as an investigator. Training topics include but are not limited to: investigative techniques, including interviewing sexual abuse victims; crime scene preservation; collection and preservation of evidence, including sexual abuse evidence collection in a confinement setting; proper use of Miranda and Garrity warnings; criteria and evidence required to substantiate a case for administrative action or prosecution referral; and investigative reporting. The agency utilizes their own training for this standard; PREA for Investigators. A review of the training curriculum confirmed slides 67-118 include the following: techniques for interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings and the criteria and evidence required to substantiate an administrative investigation. Interviews with the investigators confirmed that the specialized investigator training included the topics required under this provision: techniques for interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings and the criteria and evidence required to substantiate an administrative case. A review of documentation indicated four facility staff were documented with the specialized investigations training. A review of eleven investigations revealed they were completed by two investigators. Both were documented with the specialized investigator training.

115.34 (c): The PAQ indicated that the agency maintains documentation showing that investigators have completed the required training and that five investigators have completed the specialized training. A review of documentation indicated four facility staff were documented with the specialized investigations training. A review of eleven investigations revealed they were completed by two investigators. Both were documented with the specialized investigator training.

115.34 (d): The auditor is not required to audit this provision.

Based on a review of the PAQ, 04.01.301, 01.12.115, PREA for Investigators Training Curriculum, a review of investigator training records as well as the interview with the

	investigator, indicates that this standard appears to be compliant.

Training shall include: detecting and assessing signs of sexual abuse and sexual harassment; preserving physical evidence of sexual abuse; responding effectively and professionally to victims of sexual abuse and sexual harassment; and how and whom to report allegations or suspicions of sexual abuse and sexual harassment. The training is conducted via the Prison Rape Elimination Act: What</p>

Healthcare and Mental Health Providers Need to Know and the Wexford Health Overview of the 2003 Prison Rape Elimination Act (PREA) and Implementation. A review of the training curriculums confirmed that they include the following topics: how to detect and assess signs of sexual abuse and sexual harassment, how to preserve physical evidence of sexual abuse, how to respond effectively and professionally to victims of sexual abuse and sexual harassment and how and whom to report allegations or suspicion of sexual abuse and sexual harassment. The PAQ indicated that the facility has 34 medical and mental health staff and that 100% of these staff received the specialized training. Interviews with medical and mental health care staff indicated they received specialized training and the training included the elements under this provision. A review of five medical and mental health care staff training records indicated two were documented with the specialized medical and mental health training.

115.35 (b): The PAQ indicated that this provision does not apply as agency medical and mental health care staff do not perform forensic medical examinations. Interviews with medical and mental health staff confirmed that they do not perform forensic medical examinations.

115.35 (c): The PAQ indicated that documentation showing the completion of the training is maintained by the agency. A review of five medical and mental health care staff training records indicated two were documented with the specialized medical and mental health training. This was documented via a certificate and/or via signature on the DOC 0200, annual cycle training.

115.35 (d): 04.01.301, pages 3-4 state that the PC shall develop or approve standardized modules for training staff. Training shall include, but may not be limited to: the Department's zero tolerance policy; the Department's Sexual Abuse and Harassment Prevention and Intervention Policy; an offender's right to be free from sexual abuse and harassment and to be free from retaliation for reporting sexual abuse and harassment; common signs of sexually abusive or harassing behavior; common signs of being a victim of sexual abuse or harassment; protocol for initial response, including identification and separation of offenders; reporting procedures and preservation of physical evidence of sexual abuse. 03.03.102, page 1 states that the Department shall ensure all new employees receive orientation and pre-service training and all employees receive in-service training on a fiscal year basis. A review of the PREA Pre-Service Orientation Training Curriculum and the PREA -Individual in Custody Sexual Assault Prevention and Intervention Curriculum confirm that both trainings includes information on responsibilities in prevention, detection and response as well as the zero tolerance policy and how to report allegations of sexual abuse. A review of five medical and mental health care staff training records confirmed all five had completed training as required under 115.31 or 115.32.

Based on a review of the PAQ, 04.01.301, 03.03.102, Prison Rape Elimination Act: What Healthcare and Mental Health Providers Need to Know training curriculum, the Wexford Health Overview of the 2003 Prison Rape Elimination Act (PREA) and Implementation training curriculum, a review of medical and mental health care staff training records as well as interviews with medical and mental health care staff, this standard appears to require corrective action. A review of five medical and mental health care staff training records indicated two were documented with the specialized medical and mental health training.

Corrective Action

The facility will need to ensure all medical and mental health care staff have completed the specialized medical and mental health care training. The facility will need to provide a list of medical and mental health care staff and associated training, including those originally requested on-site.

Verification of Corrective Action Since the Interim Audit Report

The auditor gathered and analyzed the following additional evidence provided by the facility during the corrective action period relevant to the requirements in this standard.

Additional Documents:

1. Medical and Mental Health Staff Training

The facility provided the originally requested specialized medical and mental health training, all of which were completed during the corrective action period.

The facility provided a list of current medical and mental health care staff. Documentation confirmed that all medical and mental health care staff completed the specialized training.

Based on the documentation provided the facility has corrected this standard and as such appears to be compliant.

4. Interview with the PREA Compliance Manager

Site Review Observations:

1. Observations of Risk Screening Area
2. Observations of Location of Files

Findings (By Provision):

115.41 (a): The PAQ indicated that the agency has a policy that requires screening (upon admission to a facility or transfer to another facility) for risk of sexual abuse victimization or sexual abusiveness toward other IICs. 04.01.302, page 2 states screening and assessment shall be documented on the Screening for Potential Sexual Victimization or Sexual Abuse, DOC 0494, or Offender 360 (O360) equivalent, and

shall occur: within 24 hours of admission or transfer to any facility and by staff, designated by the CAO, who shall screen each individual in custody for sexually abusive behavior or victimization. It further states that within 72 hours of admission or transfer to any facility and require: Clinical Services staff, or other staff designated by the CAO, to supplement the initial screening by considering prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence of sexual abuse by reviewing documents such as, but not limited to, pre-sentence reports, statement of facts, and other material in the master file or O360. Any supplemental findings or concerns will be documented on the DOC 0494 completed in accordance with II.G.1.a. A separate DOC 0494 shall not be required. The auditor was provided a demonstration of the initial risk screening process. The initial risk screening is completed in a classroom in the education building, one-on-one. Mental health staff use the DOC 0494 to complete the risk screening. The staff verbally ask each question on the form. Staff do not conduct a file review and as such the initial risk screening is self-reported information only. Mental health staff noted that a few questions are pre-populated in the system but they are able to make changes, if necessary. If change are made or there are discrepancies, comments are entered. Staff noted if an IIC is LEP they utilize staff translators or Propio. Staff also stated they make accommodations for any disabled IIC as well. The interview with the risk screening staff confirmed that IIC are screened for their risk of victimization and abusiveness upon intake. Prior to the issuance of the report, the facility conducted training with the mental health care staff on the risk assessments process. The training outlined that the initial risk screening is required to have a review of file information, and should not only be self-disclosure. Staff signed confirming they received the training.

115.41 (b): The PAQ indicated that the policy requires that IICs be screened for risk of sexual victimization or risk of sexually abusing other IICs within 72 hours of their intake. 04.01.302, page 2 states screening and assessment shall be documented on the Screening for Potential Sexual Victimization or Sexual Abuse, DOC 0494, or Offender 360 (O360) equivalent, and shall occur: within 24 hours of admission or transfer to any facility and by staff, designated by the CAO, who shall screen each individual in custody for sexually abusive behavior or victimization. It further states that within 72 hours of admission or transfer to any facility and require: clinical Services staff, or other staff designated by the CAO, to supplement the initial screening by considering prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence of sexual abuse by reviewing documents such as, but not limited to, pre-sentence reports, statement of facts, and other material in the master file or O360. Any supplemental findings or concerns will be documented on the DOC 0494 completed in accordance with II.G.1.a. A separate DOC 0494 shall not be required. The PAQ noted that 1294 IICs were screened within 72 hours over the previous twelve months. This indicates that 100% of those whose length of stay was for 72 hours or more received a risk screening within 72 hours. The interview with the staff responsible for the risk screening confirmed that IICs are screened for their risk of victimization and abusiveness within 72 hours. Interviews

with 27 IICs that arrived within the previous twelve months indicated 23 were asked the questions related to risk of victimization and abusiveness when they first arrived at the facility. A review of 33 IIC files of those that arrived within the previous twelve months indicated all 33 had an initial risk screening completed within 72 hours.

115.41 (c): The PAQ indicated that the risk screening is conducted using an objective screening instrument. A review of the Screening for Potential Sexual Victimization or Sexual Abuse (DOC 0494) indicates that IICs are asked about identified or perceived sexual orientation, gender identity and history or sexual victimization. Additionally, the Screening for Potential Sexual Victimization or Sexual Abuse (DOC 0494) indicates that general information such as age, height, weight, number of incarcerations, non-violent or violent criminal history, disabilities, education level, socioeconomic status, immigrant status/language, history or sexual abusive behavior, criminal history of sexual abuse in the community, history of domestic violence, security threat group affiliation and history or institutional assaultive/violent behavior are factored into the risk screening assessment tool. Each question has appropriate responses that correspond to a number. The numbers are added up at the end of the victimization section and predatory section and the total number determines where the IIC falls on the continuum. The continuum ranges from not likely, likely, moderately likely to highly likely for both vulnerable and predatory. The IICs who fall in the highly likely or moderately likely range are then reviewed for the official vulnerable or predatory designation. The DOC 0949 also states that the evaluator may refer an individual in custody on the continuum, but if the individual falls into the likely or not likely range, a rationale for the referral should be documented.

115.41 (d): A review of the Screening for Potential Sexual Victimization or Sexual Abuse (DOC 0494) indicates that the tool has two sections; vulnerability and predatory. The vulnerability section includes general information such as age, height, weight, number of incarcerations, non-violent or violent criminal history, disabilities (developmental, mental illness and physical), prior sexual offenses against a child or adult, education level, socioeconomic status and immigrant status/language. IICs are also asked about identified or perceived sexual orientation, gender identity and history or sexual victimization. The IIC is also asked about his/her own perception of their safety at the time of the screening. Each question has appropriate responses that correspond to a number. The numbers are added up at the end of the victimization section and the total number determines where the IIC falls on the continuum. The continuum ranges from not likely, likely, moderately likely to highly likely for vulnerability. The IICs who fall in the highly likely or moderately likely range are then reviewed for the official vulnerable designation. The staff responsible for the risk screening stated she completes risk assessments through the DOC 0494. She advised she asks all the questions on the form. She confirmed the elements under this provision are included in the risk screening.

115.41 (e): A review of the Screening for Potential Sexual Victimization or Sexual Abuse (DOC 0494) indicates information including, history or sexual abusive behavior, criminal history of sexual abuse in the community, history of domestic violence, security threat group affiliation and history or institutional assaultive/violent behavior are factored into the risk screening assessment tool. Each question has appropriate responses that correspond to a number. The numbers are added up at the end of the predatory section and the total number determines where the IIC falls on the continuum. The continuum ranges from not likely, likely, moderately likely to highly likely for predatory. The IICs who fall in the highly likely or moderately likely range are then reviewed for the official predatory designation. The staff responsible for the risk screening stated she completes risk assessments through the DOC 0494. She advised she asks all the questions on the form. She confirmed the elements under this provision are included in the risk screening.

115.41 (f): The PAQ indicated that the policy requires that the facility reassess each IIC's risk of victimization or abusiveness within a set time period, not to exceed 30 days after the IIC's arrival at the facility, based upon any additional, relevant information received by the facility since the intake screening. 04.01.302, page 2 states screening and assessment shall be documented on the Screening for Potential Sexual Victimization or Sexual Abuse, DOC 0494, or Offender 360 (O360) equivalent, and shall occur no sooner than 15 calendar days, but no later than 30 calendar days of admission or transfer to the facility, each individual in custody, including any individual returned to a Reception and Classification Center as a parole or mandatory supervised release violator, shall be screened again for sexually abusive behavior or victimization based upon any additional, relevant information received by the facility since the initial intake screening. The PAQ noted that 1122 IICs were reassessed within 30 days, which is equivalent to 100% of the IICs who arrived and stayed longer than 30 days. The risk reassessment is completed by clinical staff in a private office or at a table in housing unit two (no IIC housing in this area). Staff typically complete the screening on the paper form and subsequently enter it into Offender 360 program. Paper forms are then destroyed. Staff review the IIC information in Offender 360 prior to meeting with the IIC. Staff then verbally ask the IIC all the questions on the DOC 0494. If any discrepancies are found from the file and the verbal response, staff go off what is in the file. Staff noted if an IIC is LEP they utilize staff translators or Propio. Staff also stated they make accommodations for any disabled IIC as well. The interview with the staff responsible for the risk screening indicated that IICs are reassessed between fifteen and 30 days. Interviews with 27 IICs that arrived within the previous twelve months indicated seventeen had been asked questions related to their risk of victimization and abusiveness more than once. A review of 33 IIC files of those that arrived in the previous twelve months indicated all 33 had a reassessment completed within 30 days of arrival.

115.41 (g): The PAQ indicated that the policy requires that an IIC's risk level be reassessed when warranted due to a referral, request, incident of sexual abuse, or

receipt of additional information that bears on the IIC's risk of sexual victimization or abusiveness. 04.01.302, page 2 states screening and assessment shall be documented on the Screening for Potential Sexual Victimization or Sexual Abuse, DOC 0494, or Offender 360 (O360) equivalent, and shall occur for all alleged victims and alleged perpetrators at the conclusion of any sexual abuse investigation determined to be substantiated or unsubstantiated. Additionally it states screening and assessment shall be documented on the Screening for Potential Sexual Victimization or Sexual Abuse, DOC 0494, or Offender 360 (O360) equivalent, and shall occur when warranted due to a referral, request, or receipt of additional information that bears on the individual in custody's risk of sexual victimization or abusiveness. The interview with the risk screening staff confirmed that IICs are reassessed when warranted due to referral, request, incident of sexual abuse or receipt of additional information. Interviews with 27 IICs that arrived within the previous twelve months indicated seventeen had been asked questions related to their risk of victimization and abusiveness more than once. A review of 33 IIC files of those that arrived in the previous twelve months indicated all 33 had a reassessment completed within 30 days of arrival. A review of investigations indicated one was sexual abuse, however it did not necessitate a reassessment due to incident of sexual abuse.

115.41 (h): The PAQ indicated that policy prohibits disciplining IICs for refusing to answer (or for not disclosing complete information related to) questions regarding: (a) whether or not the IIC has a mental, physical, or developmental disability; (b) whether or not the IIC is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender non-conforming; (c) whether or not the IIC has previously experienced sexual victimization; and (d) the IIC's own perception of vulnerability. The 04.01.302, page 2 states individuals in custody shall not be disciplined for refusing to answer, or not disclosing complete information in response to, questions asked during the screening for potential sexual victimization or sexual abuse. The interview with the staff responsible for risk screening confirmed that IICs are not disciplined for refusing to answer or for not fully disclosing information any of the risk screening questions.

115.41 (i): 04.01.302, page 2 states the CAO shall ensure staff conducting the risk screenings are provided with an area to conduct the risk screenings which provides a reasonable level of confidentiality while considering the safety and security of the staff conducting the screenings. Further policy states access to information related to sexual abuse occurring in a correctional setting shall be treated as confidential and limited to staff directly related to the assessment, treatment, placement or investigation of the individual in custody to the extent possible while ensuring the safety and security of individuals in custody and staff. Risk screening information is maintained in the electronic Offender 360 program. Risk screening information is maintained in the electronic Offender 360 program. Security staff did not have computer access on the units and as such did not have access to the risk screening information in Offender 360. Additionally, the agency restricted access to the risk screening information and any access has to be approved by the agency PREA

	<p>Coordinator. The interview with the PREA Coordinator indicated that the agency has outlined who should have access to an IIC's risk assessment within the facility in order to protect sensitive information from exploitation. He stated screening information is provided on a need-to-know basis to make informed placement decisions as well as predator/vulnerable designations. The PCM confirmed that the agency has outlined who should have access to an IIC's risk assessment within the facility in order to protect sensitive information from exploitation. He stated only certain people have access in Offender 360. The staff responsible for risk screening confirmed that the agency has outlined who should have access to the risk screening information so that sensitive information is not exploited.</p> <p>Based on a review of the PAQ, 04.01.302, the PREA Manual, DOC 0494, a review of IIC files, staff training and information from interviews with the PREA Coordinator, PREA Compliance Manager, staff responsible for conducting the risk screenings and random IICs indicate that this standard appears to be compliant.</p>

Site Review Observations:

1. Shower Area in Housing Units

Findings (By Provision):

115.42 (a): The PAQ indicated that the agency/facility uses information from the risk screening required by §115.41 to inform housing, bed, work, education, and program assignments with the goal of keeping separate those IICs at high risk of being sexually victimized from those at high risk of being sexually abusive. 04.01.302, page 4 states prior to housing an individual in custody identified as a predator with another individual, the proposed housing assignment shall be reviewed and approved by the CAO in consultation with the facility PREA Compliance Manager. Prior to housing an individual in custody identified as vulnerable with another individual, the proposed housing assignment shall be reviewed and approved by the CAO in consultation with the facility PREA Compliance Manager. Housing an individual in custody identified as vulnerable with an individual in custody identified as a predator shall be prohibited. The interview with the PREA Compliance Manager indicated that information from the risk screening is used to determine predator or vulnerable designations. The placement office is then notified of these designations and they use it to keep housing separate. The PCM advised predators are not allowed at the facility and they would have to be moved out. The interview with the staff responsible for the risk screening indicated that information from the risk screening is utilized to determine housing. She stated they would separate individuals on the high and low end and they would place vulnerable individuals near the door or closest to the Correctional Officer. A review of housing assignments for IICs at high risk of victimization and high risk of abusiveness indicated the facility did not house any IICs deemed as predators (high risk abusers). The facility had one vulnerable IIC (high risk victim).

115.42 (b): The PAQ indicated that the agency/facility makes individualized determinations about how to ensure the safety of each IIC. 04.01.302, page 4 states prior to housing an individual in custody identified as a predator with another individual, the proposed housing assignment shall be reviewed and approved by the

CAO in consultation with the facility PREA Compliance Manager. Prior to housing an individual in custody identified as vulnerable with another individual, the proposed housing assignment shall be reviewed and approved by the CAO in consultation with the facility PREA Compliance Manager. Housing an individual in custody identified as vulnerable with an individual in custody identified as a predator shall be prohibited. The interview with the staff responsible for the risk screening indicated that information from the risk screening is utilized to determine housing. She stated they would separate individuals on the high and low end and they would place vulnerable individuals near the door or closest to the Correctional Officer.

115.42 (c): The PAQ indicated that the agency/facility makes housing and program assignments for transgender or intersex IICs in the facility on a case-by-case basis. 04.03.104, page 7 indicates that transgender, intersex and gender incongruent offenders shall not be assigned to gender-specific facilities based solely on their external genital anatomy. The Transgender Administrative Committee (TAC) shall make individualized determinations about how to ensure the safety of each offender including considering transfer from one gender-specific facility to an opposite gender facility and specifically the gender of staff which will perform searches of the offender. The determination shall consider, on a case-by-case basis, whether specific placement ensure the offender's health and safety, and whether the placement would present management or security concerns. The agency as a whole houses approximately 150 transgender IICs. Currently the agency houses nine transgender female IICs at female facilities and zero transgender male IICs at male facilities. A review of meeting minutes for TAC meetings confirmed that housing is reviewed on a case-by-case basis for each IIC. The interview with the PCM indicated that housing and program assignments for transgender and intersex IICs are completed the same as other IICs at the facility. He stated male/female housing determinations are made by Springfield and the committee there makes the decision on housing. He confirmed that housing and programming assignments consider the IICs health and safety as well as whether the placement will present any security or management problems. The interview with the transgender IIC indicated she was asked how she felt about their safety and she did not believe LGBTI IICs are placed in one facility, housing unit or wing.

115.42 (d): 04.03.104, page 7 states that a review of each transgender, intersex and gender incongruent offender's placement and programming assignments shall be conducted by the facility twice annually to review any threats to safety experienced or posed by the offender. The PCM advised that transgender and intersex IICs are reassessed at least twice a year. The staff responsible for the risk screening confirmed transgender and intersex individuals are reassessed biannually. She stated assessments are completed in January and July each year. A review of documentation for two transgender IICs confirmed that both were documented with biannual assessments via the DOC 0700.

115.42 (e): 04.03.104, page 7 states that decisions shall be made by the TAC on a case-by-case basis with serious consideration given to circumstances including, but not limited to, the following: the offender's perception of whether a male or female facility is safest for him or her, as well as the preferred gender of staff to perform searches. Interviews with the PCM and staff responsible for the risk screening confirmed that transgender and intersex IICs' views with respect to their safety are given serious consideration. The interview with the transgender IIC indicated she was asked how she felt about her safety.

115.42 (f): 04.03.104, page 9 states that transgender, intersex and gender incongruent offenders shall be allowed the same frequency of showers in accordance with his or her classification. Showers shall be separated and private from other offenders. During the tour the auditor observed that showers provided privacy through raised saloon doors. The interview with the staff responsible for risk screening confirmed transgender and intersex IICs are given the opportunity to shower separately. The PCM confirmed that transgender and intersex IICs are afforded the opportunity to shower separately. He stated the facility has a separate shower time for transgender and intersex IICS and during this time the dayroom is closed for count for all other IICs. The interview with the transgender IIC indicated she was afforded the opportunity to shower separately.

115.42 (g): 04.03.104, page 7 states that transgender, intersex and gender incongruent offenders shall not be assigned to gender specific facilities based solely on their external genital anatomy. Additionally, the PREA Manual, pages 27-28 indicate that the agency shall not place lesbian, gay, bisexual, transgender, or intersex IICs in dedicated facilities, units, or wings solely on the basis of such identification or status, unless such placement is in a dedicated facility, unit, or wing established in connection with a consent decree, legal settlement, or legal judgment for the purpose of protecting such IICs. The interview with the PC confirmed that the agency is not subject to a consent decree and that there is not a dedicated facility for LGBTI IICs. He further stated placement decisions are made to ensure the safety and security of all individuals in custody. Facility, housing unit and cell assignments are made on a case by case basis and housing individuals strictly by gender identity or sexual orientation is prohibited. The PCM confirmed that the agency does not have a consent decree and that LGBTI IICs are not placed in dedicated facilities, units or wings solely because of their identification or status. Interviews with three LGBTI IICs confirmed none felt the facility places LGBTI IICs in dedicated facilities, units, or wings solely on the basis of such identification or status. A review of housing assignments for LGBTI IICs confirmed that they were housed across numerous different units at the facility.

Based on a review of the PAQ, 04.01.302, 04.03.104, the PREA Manual, IICs at risk of

	<p>sexual abusiveness and sexual victimization housing determinations, transgender or intersex IIC house determinations, transgender or intersex biannual assessments, LGBTI IIC housing assignments, observations made during the tour and information from interviews with the PC, PCM, staff responsible for conducting the risk screening and LGBTI IICs, indicates that this standard appears to be compliant.</p>

abusers. The PAQ noted that there were zero IICs at high risk of victimization that were placed in involuntary segregated housing in the past twelve months. 04.01.301, page 7 states that an offender identified as vulnerable shall not be housed in a segregated status for the sole purpose of providing protective custody unless no other means of separation can be arranged. The placement shall require the approval of the Deputy Director or Agency PREA Coordinator (no designee) and shall only continue until an alternative means of separation can be provided and such placement in segregation shall not ordinarily exceed a period of 30 days. 04.01.302, page 4 states an individual in custody identified as vulnerable shall not be housed in restrictive housing for the sole purpose of providing protective custody unless no other means of separation can be arranged. The placement shall require the approval of the Deputy Director or Agency PREA Coordinator (no designee) and shall only continue until an alternative means of separation can be provided. Such placement in restrictive housing shall not ordinarily exceed a period of 30 days. The basis of such placement shall be documented in writing. The interview with the Warden confirmed that agency policy prohibits placing IICs at high risk of sexual victimization in involuntary segregated housing unless an assessment of all available alternatives has been made and it is determined that there are no alternative means of separation from likely abusers. A review of housing assignments for IICs at high risk of sexual victimization confirmed that the one IICs identified as vulnerable was not housed in the segregated housing unit due to risk of victimization.

115.43 (b): 04.01.302, page 4 states an individual in custody identified as vulnerable shall not be housed in restrictive housing for the sole purpose of providing protective custody unless no other means of separation can be arranged. The placement shall require the approval of the Deputy Director or Agency PREA Coordinator (no designee) and shall only continue until an alternative means of separation can be provided. Such placement in restrictive housing shall not ordinarily exceed a period of 30 days. The basis of such placement shall be documented in writing. During the tour the auditor observed the segregated housing unit. The housing unit is small with only a few cells. Cells are double bunked and the area has one single shower. The housing unit has a small dayroom with a tv. IICs in segregated housing are out of cell five days a week for showers and recreation. Phone access is limited to those that are there 30 days or more. Mail and grievances are collected via a mobile locked box. The auditor observed PREA Posters and PREA Reporting Posters near the showers. During the on-site portion of the audit the facility added additional PREA Posters and PREA Reporting Posters in the dayroom area and near the door to the outdoor recreation area. The interview with the staff who supervise IICs in segregated housing indicated they do not place IIC in involuntary segregated housing due to risk of victimization. He stated if they placed someone in the segregated housing unit they would be there for "isolation" not for restrictive housing. He confirmed that IICs at high risk of sexual victimization who are involuntary segregated would have access to programs, privileges, education and work opportunities to the extent possible. He further confirmed they would document any restrictions. There were no IICs identified to be in segregated housing due to their risk of victimization and as such no interviews

were conducted.

115.43 (c): The PAQ indicated there were zero IICs at risk of sexual victimization who were assigned to involuntary segregated housing due to their risk of sexual victimization. 04.01.301, page 7 states that an offender identified as vulnerable shall not be housed in a segregated status for the sole purpose of providing protective custody unless no other means of separation can be arranged. The placement shall require the approval of the Deputy Director or Agency PREA Coordinator (no designee) and shall only continue until an alternative means of separation can be provided and such placement in segregation shall not ordinarily exceed a period of 30 days. 04.01.302, page 4 states an individual in custody identified as vulnerable shall not be housed in restrictive housing for the sole purpose of providing protective custody unless no other means of separation can be arranged. The placement shall require the approval of the Deputy Director or Agency PREA Coordinator (no designee) and shall only continue until an alternative means of separation can be provided. Such placement in restrictive housing shall not ordinarily exceed a period of 30 days. The basis of such placement shall be documented in writing. The interview with the Warden confirmed that IICs would only be placed in involuntary segregated housing until an alternative means of separation from likely abuser(s) could be arranged. She advised they could find alternative housing within 24 hours. The interview with the staff who supervise IICs in segregated housing indicated that IICs would only be placed in involuntary segregated housing until they could find an alternative means of separation. He advised it would be a very short time as if it was serious they would transfer one of the IICs. He noted they can typically separate IICs through the high and low side of the facility. There were no IICs identified to be in segregated housing due to their risk of victimization and as such no interviews were conducted.

115.43 (d): The PAQ indicated there were zero IICs at risk of sexual victimization who were held in involuntary segregated housing in the past twelve months who had both a statement of the basis for the facility's concern for the IIC's safety and the reason why alternative means of separation could not be arranged. A review of housing assignments for IICs at high risk of sexual victimization confirmed that the one IICs identified as vulnerable was not housed in the segregated housing unit due to risk of victimization.

115.43 (e): The PAQ indicate that if an IIC was placed in segregation due to risk of victimization, they would be reviewed every 30 days to determine if there was a continued need for the IIC to be separated from the general population. 04.01.301, page 7 states that an offender identified as vulnerable shall not be housed in a segregated status for the sole purpose of providing protective custody unless no other means of separation can be arranged. The placement shall require the approval of the Deputy Director or Agency PREA Coordinator (no designee) and shall only

continue until an alternative means of separation can be provided and such placement in segregation shall not ordinarily exceed a period of 30 days. Additionally, 05.15.100, page 6 states that a Restrictive Housing Review Committee (RHRC) shall be established at each facility with restrictive housing. The committee shall review the status of each individual in custody's placement into restrictive housing every seven days for the first 60 days and at least every 30 days thereafter, unless more frequently if clinically indicated. 04.01.302, page 4 states an individual in custody identified as vulnerable shall not be housed in restrictive housing for the sole purpose of providing protective custody unless no other means of separation can be arranged. The placement shall require the approval of the Deputy Director or Agency PREA Coordinator (no designee) and shall only continue until an alternative means of separation can be provided. Such placement in restrictive housing shall not ordinarily exceed a period of 30 days. The basis of such placement shall be documented in writing. The interview with the staff who supervise IICs in segregated housing confirmed that IICs would be reviewed at least every 30 days for their continued need for placement in involuntary segregated housing. There were no IICs identified to be in segregated housing due to their risk of victimization and as such no interviews were conducted.

Based on a review of the PAQ, 04.01.301, 04.01.302, 05.15.100, high risk IIC housing assignments, observations from the facility tour as well as information from the interviews with the Warden and staff who supervise IICs in segregated housing indicates this standard appears to be compliant.

Interviews:

1. Interviews with Random Staff
2. Interviews with Random Individuals In Custody
3. Interview with the PREA Compliance Manager

Site Review Observations:

1. Observation of Posted PREA Reporting Information
2. Testing of Internal Reporting Hotline
3. Testing of the External Reporting Entity

Findings (By Provision):

115.51 (a): The PAQ indicated that the agency has established procedures allowing for multiple internal ways for IICs to report privately to agency officials about: (a) sexual abuse or sexual harassment; (b) retaliation by other IICs or staff for reporting sexual abuse and sexual harassment; and (c) staff neglect or violation of responsibilities that may have contributed to such incidents. The PREA Manual, page 29 states that offenders shall be encouraged to report allegations to staff at all levels. Offenders shall be provided with avenues of internal reporting, including, but not limited to, a telephone hotline maintained by the Investigations and Intelligence Unit, or by mail to an outside entity (e.g. John Howard Association). Offenders shall be provided information on reporting mechanisms as noted in section 115.33. A review of additional documentation to include the Handbook, PREA Poster and PREA Reporting Poster, indicated that they outline methods for reporting. These methods include: telling any staff member; calling the hotline, writing to the PC, to the John Howard Association (outside reporting entity) and/or sending a note, grievance or request slip. The auditor observed PREA information posted in housing units and common areas via the PREA Poster and PREA Reporting Poster. The PREA Posters were on legal size paper in English and Spanish. The PREA Reporting Posters were on yellow letter size paper in English and Spanish. Additionally, the auditor observed that the PREA hotline number was stenciled near the phones in the housing units. The auditor tested the internal reporting mechanism during the tour. The auditor called the internal PREA hotline on October 28, 2024 and left a message to test functionality. IICs are advised to select English or Spanish upon contact with the hotline. Initial phone instructions are provided in English and Spanish, however the hotline instructions/directions are only available in English. The auditor received confirmation from the PC on the same date that the call was received and forwarded to him. IICs

have access to the phones most of the day. The internal PREA hotline is accessible on all phones but does require an IIC pin number. The auditor also tested the internal written reporting process. The auditor had an IIC assist with submitting a grievance on October 28, 2024 via the locked grievance box in the sally port of one of the housing units. On October 30, 2024, the auditor received a copy of the grievance and confirmation that the grievance was received and if the allegation was sexual abuse it would be reported immediately to the Shift Commander. Interviews with 30 IICs confirmed all 30 were aware of at least one method to report sexual abuse and sexual harassment. Most stated they would report to staff, through the hotline or via a grievance. Interviews with thirteen random staff indicate that IICs can report through the hotline, via a request, to any staff member and through their family.

115.51 (b): The PAQ stated that the agency provides at least one way for IICs to report sexual abuse to a public or private entity or office that is not part of the agency. Additionally, the PAQ indicated that the facility does not house IICs solely for civil immigration purposes. The agency has an MOU with the John Howard Association. The MOU states John Howard Association will allow IDOC to identify JHA within IIC orientation materials and prison posting as one way for IICs to report sexual abuse or sexual harassment to an entity that is not part of the agency, and that is able to receive and forward IIC reports of sexual abuse or harassment to Agency official for investigation, allowing the IIC to remain anonymous, upon request. The MOU further provides additional responsibilities for JHA and IDOC. The PREA Manual, page 29 indicates that offenders shall be provided contact information to the John Howard Association to make such reports. This information shall be available in the facility orientation manual. A review of the Handbook and PREA Reporting Poster confirmed that IICs can report externally to the John Howard Association. The Handbook (pages 74 and 77-78) states that IICs can report through an independent outside entity, the John Howard Association of Illinois (JHA). The Handbook indicates that JHA has privileged mail status. It also states that IICs can remain anonymous and provides direction to state in the letter that the IIC does not want his/her name to be included. The PREA Reporting Poster states that IICs can report via privileged mail to the John Howard Association through the PO Box in Chicago, Illinois. The auditor observed PREA information posted in housing units and common areas via the PREA Poster and PREA Reporting Poster. The PREA Posters were on legal size paper in English and Spanish. The PREA Reporting Posters were on yellow letter size paper in English and Spanish. During the tour the auditor observed that IICs are able to place outgoing mail in any of the locked boxes around the facility, including in the housing unit sally ports. None of the drop boxes were specific to sexual abuse or sexual harassment allegations or information. The interview with the mailroom staff indicated that outgoing regular mail is unsealed and is reviewed prior to being sent out. Outgoing legal mail comes sealed and is not read or inspected. The mailroom staff stated that incoming mail is sorted by regular and privileged/legal. Regular mail is opened and reviewed. Incoming legal mail is provided to the control room staff who distribute it to third shift staff to handle. Third shift staff call pass the IICs to the vocational building, where legal mail is opened in front of them. The mailroom staff

stated that mail to and from JHA is privileged mail. The auditor also tested the outside reporting mechanism via a letter to the John Howard Association. The process is the same across all facilities, and as such the auditor utilized the test completed at a prior IDOC facility. The auditor obtained a free (yellow) envelope from commissary. All IICs are provided a certain number of free envelopes. A test letter was sent via the US mail from Dixon Correctional Center on February 27, 2024. The auditor addressed the mail to JHA and noted "privileged mail" on the envelope. The auditor did not have an IIC number and as such a return address stamp was utilized by the facility. While a return name and number is required by IICs, the mail staff do not open this mail and as such IICs are able to remain anonymous within the letter. The John Howard Association is utilized for numerous services and they are not just an organization to report sexual abuse. The auditor received confirmation on March 6, 2024 (via the JHA Director) that the letter was received and that IICs can remain anonymous when reporting. The interview with the PCM indicated that JHA serves as the external reporting entity and IICs are provided this information in the Handbook. He stated JHA information is also posted in the housing units. The PCM noted that if an allegation is reported to JHA, they would provide the information back to the facility and it would be investigated. It should be noted that JHA contacts the PC who in turn provides the information to the facility for investigation. Interviews with 30 IICs indicated ten were aware of an outside reporting entity and 22 knew they could anonymously report. While only ten IICs advised they were unaware of the outside reporting entity, the information on JHA is clearly posted around the facility and is contained in the Handbook.

115.51 (c): The PAQ indicated that the agency has a policy mandating that staff accept reports of sexual abuse and sexual harassment made verbally, in writing, anonymously, and from third parties. It further indicated that staff are required to document verbal reports immediately. 04.01.301, page 10 states that any alleged sexual abuse or harassment shall be reported through chain of command as an unusual incident in accordance with 01.12.105. The PREA Manual, page 29 further states that staff shall accept reports made verbally, in writing, anonymously, and from third parties and shall promptly document any verbal reports. During the tour, the auditor asked staff to demonstrate how to document a verbal report of sexual abuse. Staff indicated if they received a verbal report they would complete an incident report. Staff stated an incident report can be completed via paper and the forms are available in the housing units. Staff noted they fill out the information and then turn it into the shift office (Major or Lieutenant). Interviews with 30 IICs indicated 29 knew they could report verbally and/or in writing to staff and 21 knew they could report through a third party. Interviews with random staff indicated that IICs can report verbally, in writing, anonymously and through a third party. The staff stated verbal reports would be documented via a 434 (incident report) as soon as possible. A review eleven investigations indicated four were reported verbally. All four included an incident report authored by the staff receiving the verbal report.

	<p>115.51 (d): The PAQ indicates the agency has established procedures for staff to privately report sexual abuse and sexual harassment of IICs. It further states that staff can report through any of the reporting mechanisms offered to individuals in custody. The PAQ indicated that staff are informed of this method through PREA refresher trainings and postings around the facility. The PREA Manual, page 29 states that the agency shall provide a method for staff to privately report sexual abuse and sexual harassment of IICs. Interviews with thirteen staff indicated all thirteen were aware that they could privately report sexual abuse of an IIC.</p> <p>Based on a review of the PAQ, PREA Manual, memo related to John Howard Association, TRUST Act memo, the Handbook, the PREA Poster, the PREA Reporting Poster, observations during the tour, information from interviews with the PCM, random IICs and random staff, and the documentation provided related to the auditors test of the outside entity reporting and the internal reporting line, this standard appears to be compliant.</p>

indicated that the agency is not exempt from this standard.

115.52 (b): The PAQ indicated that agency policy or procedure allows an IIC to submit a grievance regarding an allegation of sexual abuse at any time, regardless of when the incident is alleged to have occurred. The PAQ further indicated that IICs are not required to use an informal grievance process, or otherwise to attempt to resolve with staff, an alleged incident of sexual abuse. 04.01.114, page 2 states that offender grievances related to allegations of sexual abuse shall not be subject to any filing time frame. Policy further states that offender grievances involving alleged incidents of sexual abuse shall be exempt from any informal grievance process.

115.52 (c): The PAQ stated that agency policy and procedure allow an IIC to submit a grievance alleging sexual abuse without submitting it to the staff member who is the subject of the complaint. It further stated that agency policy and procedure requires that an IIC grievance alleging sexual abuse not be referred to the staff member who is the subject of the complaint. 04.01.114, page 6 indicates an offender may submit the grievance without submitting it to any staff member who is the subject of the complaint. Policy further states that no grievance shall be referred to any staff member who is the subject of the complaint.

115.52 (d): The PAQ stated that agency policy and procedure requires that a decision on the merits of any grievance or portion of a grievance alleging sexual abuse be made within 90 days of the filing of the grievance. The PAQ indicated that there were five sexual abuse grievances filed in the previous twelve months and all five were responded to within 90 days. The PAQ further indicates that the agency always notifies an IIC in writing when the agency files for an extension, including notice of the date by which a decision will be made. 04.01.114, page 6 states that the Department shall issue a final decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance. Computation of the 90 day time period shall not include time consumed by the offender in preparing any administrative appeal. Policy further states that the Department may claim an extension of time to respond, of up to 70 days, if the normal time period for response is insufficient to make an appropriate decision. The offender shall be notified, in writing, of such extension and provided with a date by which a decision will be made. Page 6 also states that at any level of the grievance process, if the offender does not receive a response within the time allotted for reply, including any properly noticed extension, the offender may consider the absence of a response to be a denial at that level. Interviews with IICs who reported sexual abuse indicated both were aware they were to be advised of the outcome of the investigation. One stated the allegation was reported via a grievance and a grievance response was provided two months after the grievance was filed. A review of documentation indicated there were eight grievances filed as "PREA." Seven of the eight grievances did not meet the definition of sexual abuse or sexual harassment (four were related

to official duties/searches, two were sexual harassment not repeated and one was related to an allegation previously investigated). One grievance reported staff sexual harassment and was referred for investigation. All eight grievances had a response within 90 days.

115.52 (e): The PAQ indicated that agency policy and procedure permits third parties, including fellow IICs, staff members, family members, attorneys, and outside advocates, to assist IICs in filing requests for administrative remedies relating to allegations of sexual abuse and to file such requests on behalf of IICs. The PAQ further indicated that agency policy and procedure requires that if an IIC declines to have third-party assistance in filing a grievance alleging sexual abuse, the agency documents the IIC's decision to decline. 04.01.114, page 6 states that third parties, including other offenders, staff members, family members, attorneys, etc., shall be permitted to assist offenders in filing grievances relating to allegations of sexual abuse, and shall also be permitted to file such requests on behalf of the offender. Policy further states that the Department shall require, as a condition of processing the grievance, the alleged victim to agree to have the grievance filed on his or her behalf. If the alleged victim declines, the decision shall be documented. The PAQ stated that there were two grievances alleging sexual abuse by IICs in the past twelve months in which the IIC declined third-party assistance and which contained documentation of the IIC's decision to decline. A review of documentation indicated there were eight grievances filed as "PREA." Seven of the eight grievances did not meet the definition of sexual abuse or sexual harassment (four were related to official duties/searches, two were sexual harassment not repeated and one was related to an allegation previously investigated). One grievance reported staff sexual harassment and was referred for investigation. All eight grievances had a response within 90 days. None of the grievances were filed by a third party, however two of the grievances that did not meet the definition of sexual abuse were rescinded by the author who advised she (transgender) did not wish to proceed with the grievance.

115.52 (f): The PAQ indicated that the agency has a policy and established procedures for filing an emergency grievance alleging that an IIC is subject to a substantial risk of imminent sexual abuse. It further indicated that the agency's policy and procedure for emergency grievances alleging substantial risk of imminent sexual abuse requires an initial response within 48 hours. The PAQ also indicated that the agency's policy and procedure for emergency grievances alleging substantial risk of imminent sexual abuse requires that a final agency decision be issued within five days. 04.01.114, page 7 states that for emergency grievances alleging an offender is subject to a substantial risk of imminent sexual abuse, the Department shall provide an initial response within 48 hours, and shall have a final decision provided within five calendar days. The initial response and the final decision shall document the Department's determination whether the offender is in substantial risk of imminent sexual abuse and the action taken in response to the emergency grievance. The PAQ stated there were three emergency grievances alleging substantial risk of imminent

	<p>sexual abuse in the previous twelve months. A review of documentation indicated there were eight grievances filed as "PREA." Seven of the eight grievances did not meet the definition of sexual abuse or sexual harassment (four were related to official duties/searches, two were sexual harassment not repeated and one was related to an allegation previously investigated). One grievance reported staff sexual harassment and was referred for investigation. All eight grievances had a response within 90 days. None of the grievances alleged imminent risk of sexual abuse.</p> <p>115.52 (g): The PAQ indicated that the agency has a written policy that limits its ability to discipline an IIC for filing a grievance alleging sexual abuse to occasions where the agency demonstrates that the IIC filed the grievance in bad faith. 04.01.114, page 2 stats that staff shall be prohibited from imposing discipline due to use of the grievance process. The PAQ indicated that zero IICs have been disciplined for filing a grievance in bad faith in the previous twelve months.</p> <p>Based on a review of the PAQ, 04.01.114, the Handbook, sexual abuse grievances, the grievance log, and information form the IICs who reported sexual abuse indicates that this standard appears to be compliant.</p>

PREA Reporting Poster

Interviews:

1. Interviews with Random Individuals in Custody
2. Interviews with Individuals In Custody who Reported Sexual Abuse

Site Review Observations:

1. Observation of Victim Advocacy Information

Findings (By Provision):

115.53 (a): The PAQ indicated that the facility provides IICs with access to outside victim advocates for emotional support services related to sexual abuse. It further stated that the facility provides IICs with access to such services by giving IICs mailing addresses and telephone numbers for local, state or national victim advocacy or rape crisis organizations and that the facility provides IICs with access to such services by enabling reasonable communication between IICs and these organizations in a confidential a manner as possible. The PAQ stated that IDOC does not hold individuals strictly for immigration purposes. 04.01.301, page 5 states that the PCM shall identify community agencies, including advocacy and crisis organizations, where reports can be made or that provide assistance or support services to staff or offenders in the prevention or intervention of sexual abuse and harassment. Contact information such as mailing addresses shall be provided via offender handbook, bulletins, etc. The MOU with Prairie CASA indicates that the purpose and scope of the MOU is to establish a joint effort between IDOC and Prairie CASA to make available to IICs access to an outside entity to provide emotional support services related to sexual abuse, including crisis intervention and sexual assault counseling, to aid IDOC in fulfilling compliance with 115.53 while IICs are incarcerated at Lincoln Correctional Center and within the IDOC prison. The MOU further states that it understood face-to-face emotional support provided in a confidential a manner as possible or emotional support through confidential unmonitored, unrecorded phone call(s) shall comply with 735 ILCS 5/8-802.1 "Confidentiality of Statements Made to Rape Crisis Personnel." A review of the Handbook and PREA Reporting Poster confirmed that IICs are provided the mailing address and telephone number (999 speed dial) to Prairie CASA. The documents state that individuals in custody may contact victim advocates for emotional support services related to sexual abuse. The documents state that calls made from IIC phones, excluding the 999 hotline, may be monitored and recorded. They also state that allegations provided to victim advocates may be forwarded to authority in accordance with mandatory reporting laws. Further the documents note that advocacy can be provided either by phone or in-person and will be provided in as confidential a manner as possible, consistent with legal calls/visits. The auditor observed PREA information posted in housing units and common areas via the PREA

Poster and PREA Reporting Poster. The PREA Posters were on legal size paper in English and Spanish. The PREA Reporting Posters were on yellow letter size paper in English and Spanish. The auditor tested the victim advocacy hotline during the on-site portion of the audit. An IIC assisted with the call and dialed 1, 2, 999 and then entered his pin number. The call connected to an answering services that advised they would connect the call to the rape crisis center staff. The auditor was connected to a staff member from the local rape crisis center. She confirmed the hotline is accessible 24 hours a day and that an advocate would talk with the IIC and provide services over the phone. The auditor confirmed that calls to the hotline are free, unmonitored and unrecorded. A pin number is required but it is not tracked. In addition to the hotline, IICs are also able to set up a legal call or visit with the organization through medical, mental health or their counselor. Interviews with 30 IICs, including those who reported sexual abuse, indicated nine were aware of outside victim advocacy services and ten were provided a phone number and mailing address to a local rape crisis center. While IICs indicated they were not provided the information, it was clearly posted around the facility and is contained in the Handbook.

115.53 (b): The PAQ indicated that the facility informs IICs, prior to giving them access to outside support services, the extent to which such communications will be monitored. It further stated that the facility informs IICs, prior to giving them access to outside support services, of the mandatory reporting rules governing privacy, confidentiality, and/or privilege that apply to disclosures of sexual abuse made to outside victim advocates, including any limits to confidentiality under relevant federal, state, or local law. The MOU with Prairie CASA indicates that the purpose and scope of the MOU is to establish a joint effort between IDOC and Prairie CASA to make available to IICs access to an outside entity to provide emotional support services related to sexual abuse, including crisis intervention and sexual assault counseling, to aid IDOC in fulfilling compliance with 115.53 while IICs are incarcerated at Lincoln Correctional Center and within the IDOC prison. The MOU further states that it understood face-to-face emotional support provided in a confidential a manner as possible or emotional support through confidential unmonitored, unrecorded phone call(s) shall comply with 735 ILCS 5/8-802.1 "Confidentiality of Statements Made to Rape Crisis Personnel." A review of the Handbook and PREA Reporting Poster confirmed that IICs are provided the mailing address and telephone number (999 speed dial) to Prairie CASA. The documents state that individuals in custody may contact victim advocates for emotional support services related to sexual abuse. The documents state that calls made from IIC phones, excluding the 999 hotline, may be monitored and recorded. They also state that allegations provided to victim advocates may be forwarded to authority in accordance with mandatory reporting laws. Further the documents note that advocacy can be provided either by phone or in-person and will be provided in as confidential a manner as possible, consistent with legal calls/visits. The auditor observed PREA information posted in housing units and common areas via the PREA Poster and PREA Reporting Poster. The PREA Posters were on legal size paper in English and Spanish. The PREA Reporting Posters were on

yellow letter size paper in English and Spanish. During the tour the auditor observed that IICs are able to place outgoing mail in any of the locked boxes around the facility, including in the housing unit sally ports. None of the drop boxes were specific to sexual abuse or sexual harassment allegations or information. The interview with the mailroom staff indicated that outgoing regular mail is unsealed and is reviewed prior to being sent out. Outgoing legal mail comes sealed and is not read or inspected. The mailroom staff stated that incoming mail is sorted by regular and privileged/legal. Regular mail is opened and reviewed. Incoming legal mail is provided to the control room staff who distribute it to third shift staff to handle. Third shift staff call pass the IICs to the vocational building, where legal mail is opened in front of them. The mailroom staff stated mail to and from the local rape crisis center is legal/privileged mail. Interviews with 30 IICs, including those who reported sexual abuse, indicated nine were aware of outside victim advocacy services and ten were provided a phone number and mailing address to a local rape crisis center. While IICs indicated they were not provided the information, it was clearly posted around the facility and is contained in the Handbook.

115.53 (c): The PAQ indicated that the facility maintains a memorandum of understanding or other agreement with a community service provider that is able to provide IICs with emotional support services related to sexual abuse. The PAQ also indicated that the facility maintains copies of the agreement. A review of documentation confirms that the facility has an MOU with Prairie CASA. The MOU was signed July 16, 2021 and the facility maintains a copy of the MOU.

Based on a review of the PAQ, 04.01.301, the MOU with Prairie CASA, the Handbook, the PREA Reporting Poster and interviews with random IICs and IICs who reported sexual abuse, this standard appears to be compliant.

The PREA Manual, page 32 states that the Department shall post publicly, and maintain, the third-party reporting avenue on its public website. A review of the agency’s website confirms that there is information on how to report sexual abuse and/or staff sexual misconduct. Individuals can call the IDOC Headquarters number (217-558-4013) and leave a message. Additionally, the PREA Posters state that individuals can write to the IDOC PREA Coordinator and/or to the John Howard Association. Third party reporting information was observed in visitation and the front entrance via the PREA Poster and/or the PREA Reporting Poster. The PREA Poster was observed in English and Spanish on legal size paper. The PREA Reporting Poster was observed on yellow letter size paper in English and Spanish. The auditor tested the third party reporting mechanism on numerous occasions. The auditor called the PREA hotline as outlined on the agency website. The hotline is the same hotline utilized for the IIC population. The auditor received confirmation from the PREA Coordinator that the message was received and forwarded to him to handle. He indicated he would provide the information to the facility for investigation if it was a report of sexual abuse or sexual harassment.</p> <p>Based on a review of the PAQ, the PREA Manual, the PREA Poster, the PREA Reporting Poster and the agency’s website this standard appears to be compliant.</p>

5. Investigative Reports

Interviews:

1. Interviews with Random Staff

2. Interviews with Medical and Mental Health Staff

3. Interview with the Warden

4. Interview with the PREA Coordinator

Findings (By Provision):

115.61 (a): The PAQ indicated that the agency requires all staff to report immediately and according to agency policy any knowledge, suspicion, or information they receive regarding an incident of sexual abuse or sexual harassment that occurred in a facility, whether or not it is part of the agency; any retaliation against IICs or staff who reported such an incident; and/or any staff neglect or violation of responsibilities that may have contributed to an incident or retaliation. 04.01.301, page 8 states that any verbal report or observance of sexual activity shall be treated as possible sexual abuse. Any report or observance of sexual abuse or harassment shall be documented on an Incident Report, DOC 0434, and reported to the facility PCM in accordance with Paragraph II.G.6. All reports shall be investigated accordingly. Page 10 (Paragraph II.G.6) states that any alleged sexual abuse or harassment shall be reported through chain of command as an unusual incident in accordance with 01.12.105. All staff who observe the alleged abuse or harassment or to whom the initial report was made shall complete a DOC 0434 and may be required to be interviewed by an investigator or other staff designated by the Chief Administrative Officer prior to leaving the facility at the end of their shift. Interviews with thirteen staff confirmed that policy requires that they report any knowledge, suspicion or information regarding an incident of sexual abuse and sexual harassment, any retaliation related to reporting sexual abuse and/or information related to any staff neglect or violation of responsibilities that contributed to the sexual abuse or retaliation.

115.61 (b): The PAQ indicated that apart from reporting to designated supervisors or officials and designated state or local services agencies, agency policy prohibits staff from revealing any information related to a sexual abuse report to anyone other than to the extent necessary to make treatment, investigation, and other security and management decisions. 04.01.301, page 8 states that any verbal report or

observance of sexual activity shall be treated as possible sexual abuse. Any report or observance of sexual abuse or harassment shall be documented on an Incident Report, DOC 0434, and reported to the facility PCM in accordance with Paragraph II.G.6. All reports shall be investigated accordingly. Page 10 (Paragraph II.G.6) states that any alleged sexual abuse or harassment shall be reported through chain of command as an unusual incident in accordance with 01.12.105. All staff who observe the alleged abuse or harassment or to whom the initial report was made shall complete a DOC 0434 and may be required to be interviewed by an investigator or other staff designated by the Chief Administrative Officer prior to leaving the facility at the end of their shift. The PREA Manual, page 32 further states that the information concerning the identity of the alleged offender victim and the specific facts of the case shall be limited to staff who need to know because of their involvement with the victim's welfare and the investigation of the incident. This is important to not only preserve the victim's privacy but to preserve maximum flexibility to investigate the allegation. Interviews with thirteen staff confirmed that policy requires that they report any knowledge, suspicion or information regarding an incident of sexual abuse and sexual harassment, any retaliation related to reporting sexual abuse and/or information related to any staff neglect or violation of responsibilities that contributed to the sexual abuse or retaliation. Staff stated they would report the information to their supervisor.

115.61 (c): Interviews with medical and mental health care staff confirmed that at the initiation of services with an IIC they disclose limitations of confidentiality and their duty to report. Both staff stated they are required to report any knowledge, suspicion or information related an incident of sexual abuse or sexual harassment. Both staff members stated that they had become aware of such incidents and reported the information to security. A review of investigations indicated none were reported to medical or mental health care staff.

115.61 (d): The interview with the PREA Coordinator indicated that while State law (730 ILCS 5/5-8-6) specifically prohibits anyone under the age of eighteen to be confined to the Illinois Department of Corrections; if an allegation was made regarding a youth (such as a minor child visiting an individual in custody housed at the facility), the Illinois State Police and/or the Department of Children & Family Services, as appropriate, would be contacted to notify the agency of the allegation so they may properly investigate. For allegations made by a vulnerable adult in custody, the agency would ensure access to mental health is available for immediate assessment (per our PREA protocol) as well as long-term services. Additionally, access to community confidential support services would be available and offered. The Warden stated that any allegation reported by a vulnerable adult would be handled the same as any other allegation. She advised it would be investigated and the IIC would be assessed.

115.61 (e): 04.01.301, page 8 states that any verbal report or observance of sexual activity shall be treated as possible sexual abuse. Any report or observance of sexual abuse or harassment shall be documented on an Incident Report, DOC 0434, and reported to the facility PCM in accordance with Paragraph II.G.6. All reports shall be investigated accordingly. Page 10 (Paragraph II.G.6) states that any alleged sexual abuse or harassment shall be reported through chain of command as an unusual incident in accordance with 01.12.105. All staff who observe the alleged abuse or harassment or to whom the initial report was made shall complete a DOC 0434 and may be required to be interviewed by an investigator or other staff designated by the Chief Administrative Officer prior to leaving the facility at the end of their shift. The interview with the Warden confirmed that all allegations are reported to the designated facility investigators. A review eleven investigation indicated four were reported verbally, three were reported in writing and four were reported via the hotline. All eleven allegations were forwarded to the facility investigator.

Based on a review of the PAQ, 04.01.301, 01.12.105, the PREA Manual, investigative reports and information from interviews with random staff, medical and mental health care staff, the PREA Coordinator and the Warden indicates that this standard appears to be compliant.

Findings (By Provision):

115.62 (a): The PAQ indicated that when the agency or facility learns that an IIC is subject to a substantial risk of imminent sexual abuse, it takes immediate action to protect the IIC (i.e., it takes some action to assess and implement appropriate protective measures without unreasonable delay). 04.01.301, page 8 states that any offender who alleges to be a victim of sexual abuse shall be immediately provided protection from the alleged abuser and the incident shall be investigated. The PREA Manual, page 33 states that in cases where the alleged perpetrator is another offender, the Shift Supervisor shall be notified immediately. The Shift Supervisor shall ensure appropriate and immediate safeguards to protect the offender are taken. Depending on the severity, safeguards may include monitoring the situation, changing housing assignments, changing work assignments, placing the alleged victim and perpetrator in Special Housing, etc. The PREA Manual further states that if the alleged perpetrator is a staff member, all options for safeguarding the offender shall be considered as described above. Options may include reassignment to another unit or post, or other measures that will effectively separate the staff member from the offender. The PAQ stated that there were zero determinations made in the past twelve months that an IIC was at substantial risk of imminent sexual abuse. The Agency Head stated that when an IIC is deemed at imminent risk of sexual abuse they investigate the allegation and they make sure the IIC is in a safe space. She advised they can move the person to a new housing unit or can transfer to another facility. She further stated they also ensure that the individual receives medical and mental health services. The interview with the Warden indicated if an IIC was deemed at risk of imminent risk of sexual abuse they would follow the PREA checklist. She stated they would remove the individual in order to be assessed and ensure they are separated from the potential perpetrator. She also advised they would have mental health staff follow up with the IIC. Interviews with random staff indicated they would take action if an IIC was deemed at imminent risk including contacting the supervisor, notifying placement and changing IIC housing. A review of documentation indicated there were no IICs deemed at imminent risk, however there were ten sexual harassment allegations reported. In all ten instances, staff took immediate action related to the allegation, including reporting the information for investigation and changing housing, when necessary.

Based on a review of the PAQ, 04.01.301, PREA Manual, investigative reports and information from interviews with the Agency Head, Warden and random staff indicates that this standard appears to be compliant.

Interviews:

1. Interview with the Agency Head
2. Interview with the Warden

Findings (By Provision):

115.63 (a): The PAQ indicated that the agency has a policy requiring that, upon receiving an allegation that an IIC was sexually abused while confined at another facility, the head of the facility must notify the head of the facility or appropriate office of the agency or facility where sexual abuse is alleged to have occurred. 04.01.301, page 9 states that reports of sexual abuse or sexual harassment occurring while an offender was housed within a different jurisdiction, such as a municipal lockup, county jail, or correctional center in another state, shall be documented on a DOC 0434 and reported to the Chief Administrative Officer of the facility that received the allegation the allegation to the Chief Administrative Officer of the agency where the alleged abuse occurred within 72 hours. The PAQ stated there were zero allegations received that an IIC was abused while confined at another facility. A review of documentation indicated there were zero allegations reported during the previous twelve months that required a notification.

115.63 (b): The PAQ indicated that agency policy requires that the facility head provide such notification as soon as possible, but no later than 72 hours after receiving the allegation. 04.01.301, page 9 states that reports of sexual abuse or sexual harassment occurring while an offender was housed within a different jurisdiction, such as a municipal lockup, county jail, or correctional center in another

state, shall be documented on a DOC 0434 and reported to the Chief Administrative Officer of the facility that received the allegation the allegation to the Chief Administrative Officer of the agency where the alleged abuse occurred within 72 hours.

115.63 (c): The PAQ indicated that the agency or facility documents that it has provided such notification within 72 hours of receiving the allegation. 04.01.301, page 9 states that reports of sexual abuse or sexual harassment occurring while an offender was housed within a different jurisdiction, such as a municipal lockup, county jail, or correctional center in another state, shall be documented on a DOC 0434 and reported to the Chief Administrative Officer of the facility that received the allegation the allegation to the Chief Administrative Officer of the agency where the alleged abuse occurred within 72 hours.

115.63 (d): The PAQ indicated that the agency or facility policy requires that allegations received from other facilities and agencies are investigated in accordance with the PREA standards. 04.01.301, page 9 states reports of sexual abuse or harassment occurring while an individual in custody was housed at a different facility shall be reported to the CAO of the facility where the incident occurred as soon as possible, but not later than 72 hours after the initial report was received. The CAO that receives such notification shall ensure the allegation is investigated in accordance with the procedures herein. The PREA Manual, pages 33-34 state that in cases where there is an allegation that sexual abuse occurred at another Department facility, the Chief Administrative Officer of the victim's current facility shall report the allegation to the Chief Administrative of the identified facility. In cases alleging sexual abuse by staff at another facility, the Chief Administrative Officer of the offender's current facility shall refer the matter directly to Internal Affairs. The PAQ stated there were zero allegations reported to the facility from another facility in the previous twelve months. The Agency Head stated that when notified by another agency of an allegation within an IDOC facility, the point of contact is the Warden of the facility where the allegation occurred. She advised they would forward the information to the appropriate staff (IA) for investigation. The Agency Head advised they have had examples and all were investigated. The interview with the Warden indicated that if an allegation was received by another agency/facility it would be reported to the IA Lieutenant for investigation. She advised she believed they received an allegation from Stateville Correctional Center, which was provided to IA for investigation. A review of investigation noted that none were reported via a Warden to Warden notification.

Based on a review of the PAQ, 04.01.301, the PREA Manual, investigative reports and interviews with the Agency Head and Warden, this standard appears to be compliant.

It further states that the policy requires that, upon learning of an allegation that an IIC was sexually abused, the first security staff member to respond to the report to preserve and protect any crime scene until appropriate steps can be taken to collect any evidence and if the abuse occurred within a time period that still allows for the collection of physical evidence, the first security staff member to respond to the report request that the alleged victim and ensure that the alleged perpetrator not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating. 04.01.301, page 8 states that any offender who alleges to be a victim of sexual abuse shall be immediately provided protection from the alleged abuser and the incident shall be investigated. The PREA Checklist includes the required first responder duties. The PAQ stated there was one allegation of sexual abuse in the previous twelve months and it involved the immediate separation of the alleged victim and abuser. The allegation did not involve the collection of physical evidence by securing of the crime scene or requesting the victim and ensuring the abuser not take any action to destroy any evidence. The security staff first responder stated that he would separate the individuals, protect the victim, protect the crime scene, take the victim to medical, notify the appropriate chain of command and write a report. The non-security first responder advised she would make sure the IIC was safe and if not she would take the IIC to healthcare. She advised she would report the information to security. Interviews with IICs who reported sexual abuse indicated none involved any immediate first responder duties. One reported via a grievance and had someone come talk to him weeks later, while the second reported via the hotline and someone came to talk to him a few days after. Both advised they remained in the same housing unit. A review of eleven investigations indicated one was sexual abuse. The incident did not involve first responder duties.

115.64 (b): The PAQ indicated that agency policy requires that if the first staff responder is not a security staff member, that responder shall be required to request that the alleged victim not take any actions that could destroy physical evidence. It further indicated that agency policy requires that if the first staff responder is not a security staff member, that responder shall be required to notify security staff. 04.01.301, page 8 states that a member of the security staff shall be promptly notified if the staff responding is other than security staff. The PREA Checklist also provides staff with a checklist of duties to ensure is completed post sexual abuse allegation. The PREA Checklist includes the required first responder duties. The PAQ stated there were zero allegations of sexual abuse that involved a non-security staff first responder and non-security first responder duties. The security staff first responder stated that he would separate the individuals, protect the victim, protect the crime scene, take the victim to medical, notify the appropriate chain of command and write a report. The non-security first responder advised she would make sure the IIC was safe and if not she would take the IIC to healthcare. She advised she would report the information to security. Interviews with random staff confirmed staff are aware of first responder duties. A review of eleven investigations indicated none involved a non-security first responder.

Based on a review of the PAQ, 04.01.301, investigative reports, the PREA Checklist and interviews with random staff and first responders, this standard appears to be compliant.

2. Interview with the Warden
3. Interview with Designated Staff Member Charged with Monitoring Retaliation
4. Interviews with Individuals In Custody who Reported Sexual Abuse

Findings (By Provision):

115.67 (a): The PAQ indicated that the agency has a policy to protect all IICs and staff who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations from retaliation by other IICs or staff. 04.01.301, pages 11-12 state that for a minimum of 90 days following the initial report of sexual abuse or harassment, the Department shall monitor the conduct and treatment of offenders or staff who reported the sexual abuse and of offenders who were reported to have suffered sexual abuse to observe if there are changes that may suggest possible retaliation by offenders or staff. Policy further states that the Department shall act promptly to remedy any such retaliation. The PAQ indicated that the agency designates staff members charged with monitoring for retaliation.

115.67 (b): 04.01.301, pages 11-12 state that for a minimum of 90 days following the initial report of sexual abuse or harassment, the Department shall monitor the conduct and treatment of offenders or staff who reported the sexual abuse and of offenders who were reported to have suffered sexual abuse to observe if there are

changes that may suggest possible retaliation by offenders or staff. Offender conduct and treatment shall be documented on the PREA Retaliation Monitor - Offender, DOC 0498. The review shall include, but not be limited to, disciplinary reports, housing or programming changes and facility transfers and include periodic status checks to ensure he or she displays no changes that may suggest retaliation. Staff conduct and treatment shall be documented on the PREA Retaliation Monitor - Staff, DOC 0499. The review shall include, but not be limited to, negative performance reviews and reassignments. A review of investigative reports and monitoring documents indicated there was not reported retaliation nor any reported fear of retaliation. Interviews with the Agency Head, Warden and staff responsible for monitoring retaliation all indicated that protective measures would be taken if an IIC or staff member expressed fear of retaliation. The Agency Head stated that the agency has a variety of things they can do to protect an individual from retaliation, including changing housing units, transferring to another facility and transferring staff to a different post. Additionally, she indicated they ensure the IIC has access to mental health professional as well as JHA as these provide internal and external ways to report retaliation. The Warden stated that the retaliation monitoring staff meets with the IIC in order to see if there is any retaliation. She advised the IIC can always report information to them. The Warden confirmed they can take protective measures to prevent retaliation including: housing changes, facility transfers, removal of staff, and offering of emotional support services. The interview with the staff who monitors for retaliation indicated his role is to have a conversation with the person and research to see if they are suffering any retaliation. He advised he would talk to them about tickets, housing, job and programming and he would also review this information. The staff advised they can remove staff from contact with the IIC, they can separate IICs through housing changes and they can look at an IIC transfer in order to prevent retaliation. He confirmed they would also offer mental health services. Interviews with IICs who reported sexual abuse indicated one felt protected against retaliation and both felt safe at the facility.

115.67 (c): The PAQ indicated that the agency/facility monitors the conduct or treatment of IICs or staff who reported sexual abuse and of IICs who were reported to have suffered sexual abuse to see if there are any changes that may suggest possible retaliation by IICs or staff. The PAQ stated that monitoring is completed for a minimum of 90 days. The PAQ further stated that the agency/facility acts promptly to remedy any relation and that the agency/facility continues such monitoring beyond 90 days if the initial monitoring indicates a continuing need. 04.01.301, pages 11-12 state that for a minimum of 90 days following the initial report of sexual abuse or harassment, the Department shall monitor the conduct and treatment of offenders or staff who reported the sexual abuse and of offenders who were reported to have suffered sexual abuse to observe if there are changes that may suggest possible retaliation by offenders or staff. Offender conduct and treatment shall be documented on the PREA Retaliation Monitor - Offender, DOC 0498. The review shall include, but not be limited to, disciplinary reports, housing or programming changes and facility transfers and include periodic status checks to ensure he or she displays no changes

that may suggest retaliation. Policy further states that the Department shall act promptly to remedy any such retaliation. The PAQ noted there were zero incidents of retaliation reported in the previous twelve months. The interview with the Warden indicated that if retaliation is suspected or reported it would be investigated by IA. She noted the staff may need to be transferred to a different facility or the IIC may need to be moved to another facility. She noted discipline would ensue if retaliation was determined to have occurred. The interview with the staff member responsible for monitoring retaliation indicated that he monitors for 90 days and that if he suspects retaliation he would extend monitoring another 90 days. The staff advised he reviews tickets, housing, jobs and programming to determine if any retaliation is occurring. A review of eleven investigations indicated one was sexual abuse. The sexual abuse incident included monitoring for retaliation for 90 days of the victim. Monitoring included three in-person status checks and a review of discipline, housing, job and program changes. Additionally, the facility conducted monitoring for retaliation with nine of the IICs who reported sexual harassment.

115.67 (d): 04.01.301, pages 11-12 state that for a minimum of 90 days following the initial report of sexual abuse or harassment, the Department shall monitor the conduct and treatment of offenders or staff who reported the sexual abuse and of offenders who were reported to have suffered sexual abuse to observe if there are changes that may suggest possible retaliation by offenders or staff. Offender conduct and treatment shall be documented on the PREA Retaliation Monitor - Offender, DOC 0498. The review shall include, but not be limited to, disciplinary reports, housing or programming changes and facility transfers and include periodic status checks to ensure he or she displays no changes that may suggest retaliation. The staff responsible for monitoring stated that he conducts periodic in-person status checks at least every 30 days. A review of eleven investigations indicated one was sexual abuse. The sexual abuse incident included monitoring for retaliation for 90 days of the victim. Monitoring included three in-person status checks and a review of discipline, housing, job and program changes. Additionally, the facility conducted monitoring for retaliation with nine of the IICs who reported sexual harassment.

115.67 (e): 04.01.301, page 12 states that if any other individual who cooperates with an investigation expresses a fear of retaliation, the Department shall take appropriate measures to protect the individuals against retaliation. The Agency Head stated that the same protective measures outlined in provision (b) would be offered to those who cooperate with an investigation or express fear for retaliation. The Warden stated that the retaliation monitoring staff meets with the IIC in order to see if there is any retaliation. She advised the IIC can always report information to them. The Warden confirmed they can take protective measures to prevent retaliation including: housing changes, facility transfers, removal of staff, and offering of emotional support services. The Warden indicated that if retaliation is suspected or reported it would be investigated by IA. She noted the staff may need to be transferred to a different facility or the IIC may need to be moved to another facility.

of IICs who allege to have suffered sexual abuse in involuntary segregated housing unless an assessment of all available alternatives has been made and a determination has been made that there is no available alternative means of separation from likely abusers. The PAQ further indicated that if an involuntary segregated housing assignment is made, the facility affords each such IIC a review every 30 days to determine whether there is a continuing need for separation from the general population. The PAQ noted there were zero IICs who alleged sexual abuse were involuntarily segregated for zero to 24 hours or longer than 30 day. 04.01.301, page 7 states that an offender identified as vulnerable shall not be housed in a segregated status for the sole purpose of providing protective custody unless no other means of separation can be arranged. The placement shall require the approval of the Deputy Director or Agency PREA Coordinator (no designee) and shall only continue until an alternative means of separation can be provided and such placement in segregation shall not ordinarily exceed a period of 30 days. Page 9 further states that any offender who alleges sexual abuse shall have their housing needs reviewed to determine appropriate placement. If the offender is transferred to another facility, the PCM of the sending facility shall promptly notify the PCM of the receiving facility of the alleged sexual abuse or harassment to ensure the offender receives proper follow-up services. Additionally, 05.15.100, page 6 states that a Restrictive Housing Review Committee (RHRC) shall be established at each facility with restrictive housing. The committee shall review the status of each individual in custody's placement into restrictive housing every seven days for the first 60 days and at least every 30 days thereafter, unless more frequently if clinically indicated. During the tour the auditor observed the segregated housing unit. The housing unit is small with only a few cells. Cells are double bunked and the area has one single shower. The housing unit has a small dayroom area with a tv. IICs in segregated housing are out of cell five days a week for showers and recreation. Phone access is limited to those that are there 30 days or more. Mail and grievances are collected via a mobile locked box. The auditor observed PREA Posters and PREA Reporting Posters near the showers. During the on-site portion of the audit the facility added additional PREA Posters and PREA Reporting Posters in the dayroom area and near the door to the outdoor recreation area. The interview with the Warden confirmed that agency policy prohibits placing IICs who report sexual abuse in involuntary segregated housing unless an assessment of all available alternatives has been made and it is determined that there are no alternative means of separation from likely abusers. The Warden confirmed that IICs would only be placed in involuntary segregated housing until an alternative means of separation from likely abuser(s) could be arranged. She stated they could find alternative housing within 24 hours. The Warden advised that they have not had to involuntarily segregate an IIC victim after an allegation of sexual abuse in the previous twelve months. The interview with the staff who supervise IICs in segregated housing indicated they do not place IIC in involuntary segregated after an allegation of sexual abuse. He stated if they placed someone in the segregated housing unit they would be there for "isolation" not for restrictive housing. He confirmed that IICs at high risk of sexual victimization who are involuntarily segregated would have access to programs, privileges, education and work opportunities to the extent possible. He further confirmed they would document any restrictions. The interview with the staff who supervise IICs in segregated housing indicated that IICs

	<p>would only be placed in involuntary segregated housing until they could find an alternative means of separation. He advised it would be a very short time as if it was serious they would transfer one of the IICs. He noted they can typically separate IICs through the high and low side of the facility. He further confirmed that IICs in involuntary segregated housing would be reviewed at least every 30 days to review if there was a continued need for the IIC to remain in segregated housing. There were no IICs identified to be in segregated housing due to an allegation of sexual abuse and as such no interviews were conducted. A review of eleven investigations indicated one was sexual abuse. The victim remained in the same housing status (general population). Additionally, a review of documentation for the ten IICs who reported sexual harassment confirmed they all remained in the same housing status (general population).</p> <p>Based on a review of the PAQ, 04.01.301, 05.15.100, housing documentation for IICs who reported sexual abuse and the interview with the Warden and staff who supervise IICs in segregated housing, this standard appears to be compliant.</p>

Interviews:

1. Interviews with Investigative Staff
2. Interview with the Warden
3. Interview with the PREA Coordinator
4. Interview with the PREA Compliance Manager
5. Interviews with Individuals In Custody who Reported Sexual Abuse

Findings (By Provision):

115.71 (a): The PAQ indicated that the agency/facility has a policy related to criminal and administrative agency investigations. 04.01.301, page 10 states that all allegations of sexual abuse or harassment shall be investigated by trained investigators in accordance with 01.12.120. The initial investigative report shall be provided to the Chief Administrative Officer within 24 hours of the onset of the investigation. Policy further states that upon conclusion of the investigation the results shall be forwarded to the Chief of Operations who shall report the incident to the Illinois State Police, where appropriate. 01.12.120, page 1 states the CAO shall ensure that an internal investigation is conducted by facility staff, or by staff assigned by the Chief of Investigations and Intelligence, on each unusual incident reported, if it is determined that further facts are required. Page 2 states that the facility investigation shall include, but not be limited to: obtaining statements from all involved individuals; obtaining statements from all known and any possible witnesses; securing and preserving all weapons; securing and preserving any other evidence; determining if all policies and procedures were followed; determining the quality of offender and staff supervision; conferring with local State Attorney to determine if criminal prosecution is warranted and referring individuals to the prosecuting authority for criminal prosecution, when warranted. 01.12.101, 01.12.105, 01.12.115, 01.12.112 and 01.12.125 all outline different elements to the investigative process for the agency. The interview with the facility investigator indicated that an investigation is initiated immediately once the allegation is determined to meet the definition of sexual abuse or sexual harassment. The criminal investigator stated that investigations are initiated immediately after the allegation is received. The investigators confirmed that third party and anonymous reports are investigated the same as first person reports. A review of eleven investigations indicated all eleven were timely and objective. Ten of the eleven were thorough. The one investigation that was not thorough was the oldest investigation. The auditor confirmed the more recent investigations completed by the same investigator were thorough.

115.71 (b): 01.12.115, page 2 states that the CAO shall ensure that each individual appointed as an investigator be registered for the next available investigator training program within ten days of temporary or permanent assignment as an investigator. Training topics include but are not limited to: investigative techniques, including interviewing sexual abuse victims; crime scene preservation; collection and preservation of evidence, including sexual abuse evidence collection in a confinement setting; proper use of Miranda and Garrity warnings; criteria and evidence required to substantiate a case for administrative action or prosecution referral; and investigative reporting. The agency utilizes their own training for this standard; PREA for Investigators. A review of the training curriculum confirmed slides 67-118 include the following: techniques for interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings and the criteria and evidence required to substantiate an administrative investigation. A review of eleven investigations revealed they were completed by two investigators. Both were documented with the specialized investigator training.

115.71 (c): 04.01.301, page 10 states that for reports of sexual abuse, the crime scene shall always be protected and investigators shall collect and tag evidence from the scene in accordance with established procedures. Evidence collected shall be submitted to the State Police within ten business days of receipt. 01.12.120, page 1 states the CAO shall ensure that an internal investigation is conducted by facility staff, or by staff assigned by the Chief of Investigations and Intelligence, on each unusual incident reported, if it is determined that further facts are required. Page 2 states that the facility investigation shall include, but not be limited to: obtaining statements from all involved individuals; obtaining statements from all known and any possible witnesses; securing and preserving all weapons; securing and preserving any other evidence; determining if all policies and procedures were followed; determining the quality of offender and staff supervision; conferring with local State Attorney to determine if criminal prosecution is warranted and referring individuals to the prosecuting authority for criminal prosecution, when warranted. 01.12.101, 01.12.105, 01.12.115, 01.12.112 and 01.12.125 all outline different elements to the investigative process for the agency. The facility investigator indicated that the first step of the investigation includes interviewing the victim. He advised he would then review video and any other evidence, interview any possible witnesses, interview the perpetrator, conduct a credibility assessment and then put all the information together to determine if it meets a preponderance of the evidence. The facility investigator stated he collects evidence such as statements, interviews, video, movement sheets, physical evidence and credibility assessments. The criminal investigator stated the initial investigative step would be to gather and preserve any evidence. He further stated he would remain objective during the investigation and base credibility on a case-by-case basis. He stated he would conduct a complete and thorough investigation. This is done through gathering and preserving direct and circumstantial evidence, including physical. DNA and any available video monitoring data. He confirmed he would interview the alleged victims, suspected perpetrators and any witnesses and he would review prior complaints and reports of sexual abuse

involving the perpetrator. A review of the eleven investigations indicated all eleven included interviews and three involved evidence collection. Eight of the eleven had a review of prior complaints. The three without a review or prior complaints were those that were completed prior to training conducted by the agency PREA Coordinator. The auditor confirmed all investigations completed after the training included the necessary element.

115.71 (d): The interview with the facility investigator indicated they are aware of what is required and they do not have to consult with prosecutors. The criminal investigator confirmed that before they conduct any compelled interviews they would consult with prosecutors. A review of investigative reports confirmed none of the investigations involved compelled interviews.

115.71 (e): 04.01.301, page 10 states that alleged victims of sexual abuse shall not be required to submit to truth telling verification examinations such as voice stress analysis or polygraph exam as part of or as a condition of the investigation. Interviews with the administrative and criminal investigators confirmed that the agency does not require IIC victims of sexual abuse to submit to a polygraph tests or any other truth-telling devices. Further the facility investigator stated that credibility is based on the credibility assessments and things that make sense based on what was found during the investigations. The criminal investigator stated that credibility is assessed on an individual basis and is not determined by an person's status. Interviews with IICs who reported sexual abuse confirmed none were required to take a polygraph test or truth telling device test.

115.71 (f): 01.12.120, page 3 states that the supervisor of the internal investigation team shall submit an initial report, verbal or written, to the CAO within 48 hours of the incident and shall submit a final written report utilizing the Report of Investigation, DOC 0262, within ten working day from the conclusion of the investigation. The facility investigator confirmed that all administrative investigations are documented in a written report and include: information on those interviewed, an introduction on the allegation, interviews, any attachments, any evidence, the credibility assessments, the PREA checklist and conclusion and findings. He stated during the investigation he reviews to ensure staff followed policy to determine if their actions or failure to act contributed to the sexual abuse. The criminal investigator further confirmed that they would review logbooks, video and interview all parties to determine if staff actions or failure to act contributed to the abuse. A review of eleven investigations confirmed all were documented in a written report and included information related to the initial allegation, a description of statements/interviews with the alleged victim, perpetrator(s) and/or witnesses, if applicable, whether video was reviewed and investigatory facts and findings.

115.71 (g): 01.12.120, page 3 states that the supervisor of the internal investigation team shall submit an initial report, verbal or written, to the CAO within 48 hours of the incident and shall submit a final written report utilizing the Report of Investigation, DOC 0262, within ten working day from the conclusion of the investigation. The interview with the criminal investigator confirmed that the criminal investigation would be documented on the DOC 0262 (Report of Investigation). The report would contain a thorough description of physical, interview and documentary evidence. He stated it would also include all attachments such as: statements, video, audio, physical, etc. There were zero criminal investigations completed during the previous twelve months.

115.71 (h): The PAQ indicated that substantiated allegations of conduct that appear to be criminal are referred for prosecution. 04.01.301, page 11 states that upon conclusion of the investigation, if applicable, the case shall be reviewed with the appropriate State's Attorney for possible referral for prosecution. The PAQ noted there were zero allegations referred for prosecution since the last PREA audit. The interview with the investigators confirmed that criminal investigations are typically referred for prosecution, especially those that are substantiated. The facility investigator stated all allegations that involve a crime are referred to the State Attorney for review. A review of documentation confirmed there were zero investigations referred for prosecution.

115.71 (i): The PAQ indicated that the agency retains all written reports pertaining to the administrative or criminal investigation of alleged sexual abuse or sexual harassment for as long as the alleged abuser is incarcerated or employed by the agency, plus five years. A review of a sample of historic investigations confirmed retention is being met.

115.71 (j): The interview with the criminal investigator confirmed that an individual in custody being released or an employee separating from the agency has no bearing on the investigation and it would proceed accordingly. The facility investigator stated the departures of the staff or IIC would not change the fact that an investigation would need to be completed.

115.71 (k): The auditor is not required to audit this standard.

115.71 (l): 04.01.301 states that upon conclusion of the investigation the results shall be forwarded to the Chief of Operations who shall report the incident to the Illinois

	<p>State Police, where appropriate. Additionally, the MOU with the Illinois State Police (signed in 2019) indicates that they conduct investigations related to sexual assault involving staff on staff or staff on IIC. The PREA Coordinator stated that cases which are referred to the Illinois State Police are assigned an external investigator from IDOC's Office of Investigations & Intelligence. The IDOC external investigator would ensure updates are provided to the facility and PREA Coordinator, as appropriate. The Warden stated that they would remained informed of the progress of outside investigations through the IA Lieutenant. The PCM stated that IA and the external investigators have built a relationship with outside law enforcement and they would remained informed of the progress through them. The facility investigators indicated if an outside agency conducts an investigation he serves in a support role. The criminal investigator stated that he fully cooperates with the outside investigator and stays informed of the progress of their investigation.</p> <p>Based on a review of the PAQ, 04.01.310, 01.12.101, 01.12.112, 01.12.115, 01.12.120, 01.12.125, the MOU with the State Police, investigative reports, investigative training records and information from interviews with the Warden, PREA Coordinator, PREA Compliance Manager, investigator and IIC who reported sexual abuse, indicate that this standard appears to be complaint.</p>

115.72 (a): The PAQ stated that the agency imposes a standard of a preponderance of the evidence or a lower standard of proof when determining whether allegations of sexual abuse or sexual harassment are substantiated. 04.01.301, page 10 states that the Department shall impose no standard higher than a preponderance of the evidence in determining whether allegations of sexual abuse or sexual harassment are substantiated. Additionally, the PREA for Investigators Training Curriculum includes information on the elements to substantiate an investigation (preponderance of evidence). Interviews with investigators confirmed that the standard of evidence to substantiate an administrative investigation is a preponderance of evidence. A review of eleven investigative reports indicated two were unsubstantiated but should have been substantiated due to a preponderance of the evidence. One was substantiated and appeared to utilize a preponderance of the evidence.

Based on a review of the PAQ, 04.01.301, PREA Investigators Training Curriculum, investigative reports and information from the interview with the investigator, it is determined that this standard appears to be require corrective action. A review of eleven investigative reports indicated two were unsubstantiated but should have been substantiated due to a preponderance of the evidence. One was substantiated and appeared to utilize a preponderance of the evidence.

Corrective Action

The facility will need to provide additional training with investigators on investigative outcomes and a preponderance of the evidence. A copy of the training will need to be provided.

Verification of Corrective Action Since the Interim Audit Report

The auditor gathered and analyzed the following additional evidence provided by the facility during the corrective action period relevant to the requirements in this standard.

Additional Documents:

1. Investigator Training

	<p>Training was conducted with the facility investigators related to investigative outcomes and what constitutes a preponderance of the evidence. Training was completed by a regional PREA Investigator. Interviews with Individuals In Custody who Reported Sexual Abuse <p>Findings (By Provision):</p> <p>115.73 (a): The PAQ indicated that the agency has a policy requiring that any IIC who makes an allegation that he or she suffered sexual abuse in an agency facility is</p>

informed, verbally or in writing, as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded following an investigation by the agency. 04.01.301, page 10 states that the alleged victim will be notified, in writing, of the outcome of the investigation. The PAQ stated there was one completed sexual abuse investigations in the previous twelve months and it had a verbal or written victim notification. Interviews with the Warden and the investigators confirm that IICs are informed of the outcome of the investigation into their allegation. Interviews with IICs who reported sexual abuse indicated both were aware they were to be notified of the outcome of the investigation. Both advised they were notified verbally and in writing of the outcome. A review of one sexual abuse investigation confirmed it included a written notification of the investigative outcome to the victim. Further the ten sexual harassment investigation also included victim notifications.

115.73 (b): The PAQ indicate that if an outside entity conducts such investigations, the agency requests the relevant information from the investigative entity in order to inform the IIC of the outcome of the investigation. The PAQ stated there were zero investigations completed by an outside agency in the previous twelve months. 04.01.301, page 10 states that the alleged victim will be notified, in writing, of the outcome of the investigation. A review of investigations confirmed that none were completed by an outside agency and as such no notifications under this provision were required.

115.73 (c): The PAQ indicated following an IIC's allegation that a staff member has committed sexual abuse against the IIC, the agency/facility subsequently informs the IIC (unless the agency has determined that the allegation is unfounded) whenever: the staff member is no longer posted within the IIC's unit; the staff member is no longer employed at the facility; the agency learns that the staff member has been indicted on a charge related to sexual abuse within the facility; or the agency learns that the staff member has been convicted on a charge related to sexual abuse within the facility. Additionally, the PAQ indicated that there has been a substantiated or unsubstantiated complaint (i.e., not unfounded) of sexual abuse committed by a staff member against an IIC in an agency facility in the past 12 months. The PAQ stated that in each case the agency subsequently informed the IIC whenever: the staff member was no longer posted within the IIC's unit; the staff member was no longer employed at the facility; the agency learned that the staff member has been indicted on a charge related to sexual abuse within the facility; or the agency learned that the staff member has been convicted on a charge related to sexual abuse within the facility. The PREA Manual, page 40 states that following an IIC's allegation that a staff member has committed sexual abuse against the IIC, the agency shall subsequently inform the IIC (unless the agency has determined that the allegation is unfounded) whenever: the staff member is no longer posted within the IIC's unit; the staff member is no longer employed at the facility; the agency learns that the staff member has been indicted on a charge related to sexual abuse within the facility; or the agency learns that the staff member has been convicted on a charge related to

sexual abuse within the facility. The PREA Manual further states that an assessment shall be completed to determine if actions described above are warranted in accordance with section 115.65. The actions may not be appropriate in all cases. Offenders shall be notified only if there is a link between the listed actions in this section and an incident of sexual abuse. The timing of such notifications shall not interfere with any pending criminal or administrative investigations. Interviews with IICs who reported sexual abuse indicated one was against a staff member, but the IIC did not receive any notifications under this provision. A review of the one sexual abuse investigation indicated it was a staff-on-IIC allegation, however it did not require any notification under this provision.

115.73 (d): The PAQ indicated following an IIC's allegation that he or she has been sexually abused by another IIC in an agency facility, the agency subsequently informs the alleged victim whenever: the agency learns that the alleged abuser has been indicted on a charge related to sexual abuse within the facility; or the agency learns that the alleged abuser has been convicted on a charge related to sexual abuse within the facility. The PREA Manual, page 40 states that following an IIC's allegation that he or she has been sexually abused by another IIC, the agency shall subsequently inform the alleged victim whenever: the agency learns that the alleged abuser has been indicted on a charge related to sexual abuse within the facility; or the agency learns that the alleged abuser has been convicted on a charge related to sexual abuse within the facility. Interviews with IICs who reported sexual abuse indicated one was an IIC-on-IIC allegation, but no notifications under this provision were provided. A review of one sexual abuse investigation indicated it was not against another IIC. As such there were zero notifications under this provision required.

115.73 (e): The PAQ indicated the agency has a policy that all notifications to IICs described under this standard are documented. 04.01.301, page 10 states that the alleged victim will be notified, in writing, of the outcome of the investigation. The PAQ stated there was one notification made pursuant to this standard. A review of one sexual abuse investigation confirmed it included a written notification of the investigative outcome to the victim. Further the ten sexual harassment investigation also included victim notifications.

115.73 (f): This provision is not required to be audited.

Based on a review of the PAQ, 04.01.301, the PREA Manual, investigative reports, victim notification memos and information from interviews with the Warden, investigators and IICs who reported sexual abuse indicate that this standard appears to be compliant.

The PAQ indicated there were zero staff that were disciplined short of termination for violating the sexual abuse or sexual harassment policies. The PREA Manual, page 41 states that disciplinary sanctions for violations of agency policy relating to sexual abuse or sexual harassment shall be commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories. 03.01.120 further describes the employee disciplinary review process. A review of investigative reports indicated there were zero substantiated sexual abuse and/or sexual harassment allegation against a staff member.

115.76 (d): The PAQ indicated that all terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, are reported to law enforcement agencies (unless the activity was clearly not criminal) and to any relevant licensing bodies. 04.01.301, page 11 states that all terminations for violating the agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, shall be reported to law enforcement agencies, unless the activity was clearly not criminal, and to any relevant licensing bodies. The PAQ indicated there were zero staff members who were reported to law enforcement or licensing boards following their termination (or resignation prior to termination) for violating agency sexual or sexual harassment policies. A review of investigative reports indicated there were zero substantiated sexual abuse and/or sexual harassment allegation against a staff member.

Based on a review of the PAQ, 04.01.301, 03.01.120, the PREA Manual and investigative reports, this standard appears to be compliant.

	Auditor Discussion
	Documents: 1. Pre-Audit Questionnaire

2. Administrative Directive 04.01.301 Sexual Abuse and Harassment Prevention and Intervention Program

3. Investigative Reports

Interviews:

1. Interview with the Warden

Findings (By Provision):

115.77 (a): The PAQ indicated that agency policy requires that any contractor or volunteer who engages in sexual abuse be reported to law enforcement agencies (unless the activity was clearly not criminal) and to relevant licensing bodies and that any contractor or volunteer who engages in sexual abuse be prohibited from contact with IICs. 04.01.301, page 11 states that any contractor or volunteer who engages in sexual abuse shall be prohibited from contact with offenders and shall be reported to law enforcement agencies unless the activity was clearly not criminal, and to relevant licensing bodies. The PAQ indicated that there have been no contractors or volunteers who violated the sexual abuse or sexual harassment policies within the previous twelve months and as such none were reported to law enforcement or relevant licensing bodies. A review of investigative reports confirmed there were zero contractors or volunteers who violated the agency's sexual abuse or sexual harassment policies.

115.77 (b): The PAQ indicated that the facility takes appropriate remedial measures and considers whether to prohibit further contact with IICs in the case of any other violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer. 04.01.301, page 11 states that any contractor or volunteer who engages in sexual abuse shall be prohibited from contact with offenders and shall be reported to law enforcement agencies unless the activity was clearly not criminal, and to relevant licensing bodies. The interview with the Warden indicated that if a volunteer or contractor violated the sexual abuse and/or the sexual harassment policies it would get reported to the Deputy and IA. She stated they would then decide whether to stop the volunteer or contractor from coming into the facility.

Based on a review of the PAQ, 04.01.301, investigative reports and information from the interview with the Warden, this standard appears to be compliant.

The PAQ stated there were zero administrative finding of IIC-on-IIC sexual abuse and zero criminal findings of IIC-on-IIC sexual abuse. A review of investigative reports noted there were zero substantiated IIC-on-IIC sexual abuse allegations. There was one substantiated IIC-on-IIC sexual harassment investigation. among other matters, mitigating or aggravating factors including; the offenders age, medical and mental health state, if the offender was determined to be mentally ill, the extent and degree of participation in the commission of the offense and the offender's prior disciplinary record. The Warden advised that if an IIC perpetrator is found to have violated the sexual abuse or sexual harassment policies he/she could be subject to institutional discipline and possibly new charges. The Warden confirmed that sanctions are consistent in the disciplinary process and that sanctions would be commensurate with the nature and circumstances of the abuse committed, the IIC's disciplinary history, and the sanctions imposed for comparable offenses by other IICs with similar histories.

115.78 (c): 20.507, pages 2-3 stated that in determining the appropriate sanctions, the Adjustment Committee or Program Unit, the CAO and the Director shall consider, among other matters, mitigating or aggravating factors including; the offenders age, medical and mental health state, if the offender was determined to be mentally ill, the extent and degree of participation in the commission of the offense and the offender's prior disciplinary record. The interview with the Warden confirmed that the disciplinary process considers whether the IIC's mental disabilities or mental illness contributed to his or her behavior when determining what type of sanction, if any, should be imposed.

115.78 (d): The PAQ indicated the facility does not offer therapy, counseling, or other interventions designed to address and correct the underlying reasons or motivations for abuse. Further communication with the PC indicated that sex offender treatment is only offered at Big Muddy River Correctional Center and Taylorville Correctional Center. Interviews with medical and mental health staff indicated they offer regular mental health services to perpetrating IICs, however they do not have sex offender treatment at the facility. Both staff advised they do not require IICs to participate in services in order to gain access to any other programs or benefits.

115.78 (e): The PAQ indicated that the agency disciplines IICs for sexual conduct with staff only upon finding that the staff member did not consent to such contact. A review of investigative reports indicated there were zero substantiated staff-on-IIC sexual abuse allegations. Additionally, there was no documentation of discipline of any IIC related to staff-on-IIC allegations.

115.78 (f): The PAQ indicated that the agency prohibits disciplinary action for a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred, even if an investigation does not establish evidence sufficient to substantiate the allegation. The PREA Manual, page 42 states that the maintenance of an effective sexual abuse prevention policy, and general secure and orderly

Allegations of false reports shall be considered by staff in accordance with the procedures and standards founds within Illinois Administrative Code 507, Administration of Discipline.</p> <p>115.78 (g): The PAQ indicated that the agency prohibits all sexual activity between IICs. It further indicated that if the agency prohibits all sexual activity between IICs and disciplines IICs for such activity, the agency deems such activity to constitute sexual abuse only if it determines that the activity is coerced.</p> <p>Based on a review of the PAQ, 04.01.301, 20.507, the PREA Manual, investigative reports and information from interviews with the Warden and medical and mental health care staff, this standard appears to be compliant.</p>

Interviews with Individuals In Custody who Disclosed Sexual Victimization During the Risk Screening

Site Review Observations:

1. Observations of Risk Screening Area
2. Observation of Medical and Classification Files

Findings (By Provision):

115.81 (a): The PAQ indicated that all IICs at this facility who have disclosed any prior sexual victimization during a screening pursuant to §115.41 are offered a follow-up meeting with a medical or mental health practitioner and the follow-up meeting was offered within fourteen days. The PAQ further indicated that medical and mental health staff maintain secondary materials (e.g., form, log) documenting compliance with the above required services. 04.01.302, page 3 states if the screening indicates the individual in custody has experienced prior sexual victimization or previously perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, staff conducting the screening shall ensure the individual is offered a follow-up meeting with a mental health practitioner. The offer shall be documented on the DOC 0494 or the O360 equivalent. If the offer of a follow-up meeting with a mental health practitioner is accepted, a Mental Health Services Referral, DOC 0387, shall be completed, and the follow-up meeting shall occur within 14 days of the screening in accordance with 04.04.101. Individuals in custody who had been offered mental health follow-up and accepted the follow-up on the initial screening outlined in II.G.1.b., do not need to be offered mental health follow-up on subsequent screenings. The PAQ noted that 100% of those IICs who reported prior victimization were seen within fourteen days by medical or mental health. The interview with the staff responsible for the risk screening indicated that IICs are offered a follow-up with medical or mental health care staff within fourteen days. Interviews with three IICs who disclosed sexual victimization during the risk screening indicated two were offered a follow-up with medical or mental health care staff. A review of documentation for eight IICs who disclosed prior sexual victimization during the risk screening indicated all eight were offered a follow-up with mental health. Six of the eight declined services. One that accepted services was seen by mental health within fourteen days. The second did not have any documentation related to a mental health follow-up.

115.81 (b): The PAQ indicated that all prison IICs who have previously perpetrated sexual abuse, as indicated during the screening pursuant to § 115.41, are offered a follow-up meeting with a mental health practitioner and the follow-up meeting was offered within fourteen days. The PAQ further indicated that medical and mental health staff maintain secondary materials (e.g., form, log) documenting compliance

with the above required services. 04.01.302, page 3 states if the screening indicates the individual in custody has experienced prior sexual victimization or previously perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, staff conducting the screening shall ensure the individual is offered a follow-up meeting with a mental health practitioner. The offer shall be documented on the DOC 0494 or the O360 equivalent. If the offer of a follow-up meeting with a mental health practitioner is accepted, a Mental Health Services Referral, DOC 0387, shall be completed, and the follow-up meeting shall occur within 14 days of the screening in accordance with 04.04.101. Individuals in custody who had been offered mental health follow-up and accepted the follow-up on the initial screening outlined in II.G.1.b., do not need to be offered mental health follow-up on subsequent screenings. The PAQ noted that 100% of those IICs who reported prior perpetration were seen within fourteen days by medical or mental health. The interview with the staff responsible for the risk screening indicated that IICs identified during the risk screening with prior sexual abusiveness would be offered a follow-up with mental health within fourteen days. During documentation review the auditor identified one IIC with prior sexual abusiveness during the risk screening. The IIC was offered a follow-up with mental health, but declined the services. It should be noted this IIC had both victimization and abusiveness and is documented in provision (a) as well.

115.81 (c): The facility is not a jail and as such this provision is not applicable.

115.81 (d): The PAQ indicated that information related to sexual victimization or abusiveness that occurred in an institutional setting is not strictly limited to medical and mental health practitioners, however it stated that the information is only shared with staff to assist with security and management decisions. 04.01.302, page 2 states access to information related to sexual abuse occurring in a correctional setting shall be treated as confidential and limited to staff directly related to the assessment, treatment, placement or investigation of the individual in custody to the extent possible while ensuring the safety and security of individuals in custody and staff.

Medical and mental health records are all paper. The records area is staffed 8am-4pm Monday through Friday. The records door is locked when not staffed. Records staff advised that medical and mental health care staff have access to medical records after hours as well as the Warden and the Major. Risk screening information is maintained in the electronic Offender 360 program. Security staff did not have computer access on the units and as such did not have access to the risk screening information in Offender 360. Additionally, the agency restricted access to the risk screening information and any access has to be approved by the agency PREA Coordinator. Investigative files are paper and electronic. Only Internal Affairs staff have access to the investigations in the electronic database. Paper files are also maintained in IA's locked office.

15.81 (e): The PAQ indicated that medical and mental health practitioners obtain

informed consent from IICs before reporting information about prior sexual victimization that did not occur in an institutional setting, unless the IIC is under the age of eighteen. 04.01.302, page 3 states staff shall obtain informed consent from individuals in custody before reporting information about prior victimization which did not occur in an institutional setting. Consent shall be documented on the Confidentiality Disclosure and Consent for Mental Health Treatment, DOC 0537. The SOP Manual for Mental Health, page 46 clinicians should clearly specify any limits of confidentiality. Offender disclosures are considered to be confidential and privileged with the following exceptions: threats to physically harm self-and/or others, threats to escape or otherwise disrupt or breach the security of the institution and information about an identifiable minor child or elderly/disabled person who has been the victim of physical or sexual abuse. Interviews with medical and mental health staff indicate that mental health obtains consent prior to reporting any sexual abuse that did not occur in an institutional setting. Medical staff advised they do not obtain informed consent. Both staff stated the facility does not house anyone under eighteen so they don't deal with reporting of that population.

Based on a review of the PAQ, 04.01.302, SOP Manual for Mental Health, DOC 0494, medical and mental health documents, information from interviews with staff who perform the risk screening, medical and mental health care staff and IICs who disclosed victimization during the risk screening indicate that this standard requires corrective action. A review of documentation for eight IICs who disclosed prior sexual victimization during the risk screening indicated all eight were offered a follow-up with mental health. Six of the eight declined services. One that accepted services was seen by mental health within fourteen days. The second did not have any documentation related to a mental health follow-up. Interviews with medical and mental health staff indicate that mental health obtains consent prior to reporting any sexual abuse that did not occur in an institutional setting. Medical staff advised they do not obtain informed consent.

Corrective Action

The facility will need to ensure all IICs who disclose prior sexual victimization or are identified with prior sexual abusiveness are afforded a follow-up with mental health staff. The facility will need to provide a list of IICs that arrived during the corrective action period who disclosed prior victimization or are identified with prior sexual abusiveness, their risk assessments and mental health documentation, if applicable (if accepted). Additionally, the facility will need to conduct a training with medical and mental health care staff on the informed consent process under provision (e). Confirmation of the training will need to be provided.

115.82	Access to emergency medical and mental health services
	Auditor Overall Determination: Meets Standard
	Auditor Discussion

Documents:

1. Pre-Audit Questionnaire
2. Administrative Directive 04.01.301 Sexual Abuse and Harassment Prevention and Intervention Program
3. Medical and Mental Health Documents

Interviews:

1. Interviews with Medical and Mental Health Staff
2. Interviews with First Responders
3. Interviews with Individuals In Custody who Reported Sexual Abuse

Site Review Observations:

1. Observations of Medical and Mental Health Areas

Findings (By Provision):

115.82 (a): The PAQ indicated that IIC victims of sexual abuse receive timely, unimpeded access to emergency medical treatment and crisis intervention services and that the nature of scope of services are determined by medical and mental health practitioners according to their professional judgment. The PAQ further indicates that medical and mental health staff maintain secondary materials (e.g., form, log) documenting the timeliness of emergency medical treatment and crisis intervention services that were provided; the appropriate response by non-health staff in the event health staff are not present at the time the incident is reported; and the provision of appropriate and timely information and services concerning contraception and sexually transmitted infection prophylaxis. 04.01.301, page 8 states that any offender who alleges to be a victim of sexual abuse shall be referred to health services for examination, treatment and evidence collection in accordance with Paragraph II.G.5 and shall be evaluated by mental health services or a crisis intervention team member within 24 hours to assess the need for counseling services. During the tour, the auditor observed the health services area. It included a small waiting space with benches, exam rooms, treatment rooms, mental health offices and two observation rooms. Exam and treatment rooms had a door with a window. During the on-site portion of the audit the facility added removable curtain barriers for the exam/treatment room windows to afford adequate privacy/confidentiality, when needed. Interviews with medical and mental health care staff

confirmed that IICs receive timely and unimpeded access to emergency medical treatment and crisis intervention service. The staff stated they provide services immediately. Both staff confirmed that services would be based on their professional judgment. Interviews with IICs who reported sexual abuse indicated both were offered/provided medical and/or mental health services. A review of documentation indicated the one IIC victim of sexual abuse was provided medical and mental health services. Additionally, all ten IIC victims of sexual harassment were provided medical and/or mental health services.

115.82 (b): 04.01.301, page 8 states that any offender who alleges to be a victim of sexual abuse shall be referred to health services for examination, treatment and evidence collection in accordance with Paragraph II.G.5 and shall be evaluated by mental health services or a crisis intervention team member within 24 hours to assess the need for counseling services. Page 9 (Paragraph II.G.5) further states that treatment shall be provided by a certified SAFE or SANE at a local emergency room and that the medical examination provided by Department facilities shall include a general physical examination for recent sexual abuse. The security staff first responder stated that he would separate the individuals, protect the victim, protect the crime scene, take the victim to medical, notify the appropriate chain of command and write a report. The non-security first responder advised she would make sure the IIC was safe and if not she would take the IIC to healthcare. She advised she would report the information to security. A review of documentation indicated the one IIC victim of sexual abuse was provided medical and mental health services. Additionally, all ten IIC victims of sexual harassment were provided medical and/or mental health services.

115.82 (c): The PAQ indicated that IIC victims of sexual abuse while incarcerated are offered timely information about and timely access to emergency contraception and sexually transmitted infections prophylaxis, in accordance with professionally accepted standards of care, where medically appropriate. 04.01.301, page 9 states that a general physical examination for recent sexual abuse shall include, but not be limited to: a blood test (RPR for Syphilis); culture smears for seminal fluid, Gonorrhea, Chlamydia and other Sexually Transmitted Diseases (STD) as appropriate; Hepatitis C antibody test and Hepatitis B surface antigen and antibody blood test and an HIV test and counseling shall be offered. Interviews with medical and mental health care staff confirmed that IICs receive timely information and access to emergency contraception and sexually transmitted infection prophylaxis. Interviews with IICs who reported sexual abuse indicated none involved penetration or touching that would require information and access to sexually transmitted infection prophylaxis. A review of the one sexual abuse investigation confirmed the IIC victim was provided medical and/or mental health services. The allegation did not involve a need for sexually transmitted infection prophylaxis.

	<p>115.82 (d): The PAQ indicated that treatment services are provided to every victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident. 04.01.301, page 9 states that offenders shall not be charged a co-payment for medical treatment, including forensic medical examinations, obtained for alleged sexual abuse.</p> <p>Based on a review of the PAQ, 04.01.301, medical and mental health documents and information from interviews with medical and mental health care staff, first responders and IICs who reported sexual abuse, this standard appears to be compliant.</p>

115.83 (a): The PAQ indicated the facility offers medical and mental health evaluation and, as appropriate, treatment to all IICs who have been victimized by sexual abuse in any prison, jail, lockup, or juvenile facility. 04.01.301, page 8 states that any offender who alleges to be a victim of sexual abuse shall be referred to health services for examination, treatment and evidence collection in accordance with Paragraph II.G.5 and shall be evaluated by mental health services or a crisis intervention team member within 24 hours to assess the need for counseling services. Additionally, 04.01.301, page 6 states that if it is determined that the offender was previously a victim of sexual abuse, the facility PCM shall notify medical and mental health staff within fourteen days of the screening. During the tour, the auditor observed the health services area. It included a small waiting space with benches, exam rooms, treatment rooms, mental health offices and two observation rooms. Exam and treatment rooms had a door with a window. During the on-site portion of the audit the facility added removable curtain barriers for the exam/treatment room windows to afford adequate privacy/confidentiality, when needed. A review of documentation indicated the one IIC victim of sexual abuse was provided medical and mental health services. Additionally, all ten IIC victims of sexual harassment were provided medical and/or mental health services. A review of documentation for eight IICs who disclosed prior sexual victimization during the risk screening indicated all eight were offered a follow-up with mental health. Six of the eight declined services. One that accepted services was seen by mental health within fourteen days. The second did not have any documentation related to a mental health follow-up.

115.83 (b): 04.01.301, page 8 states that any offender who alleges to be a victim of sexual abuse shall be referred to health services for examination, treatment and evidence collection in accordance with Paragraph II.G.5 and shall be evaluated by mental health services or a crisis intervention team member within 24 hours to assess the need for counseling services. Interviews with medical and mental health care staff confirmed that they provide on-going and follow-up services to IIC victims of sexual abuse. Interviews with IICs who reported sexual abuse indicated one was provided follow-up services with medical and/or mental health. A review of documentation indicated the one IIC victim of sexual abuse was provided medical and mental health services. Additionally, all ten IIC victims of sexual harassment were provided medical and/or mental health services.

115.83 (c): The facility provides access to medical and mental health staff on-site and also transports IICs to the local hospital for treatment that is not available at the facility. All medical and mental health care staff are required to have the appropriate licensure and credentials. Interviews with medical and mental health care staff confirmed that the services they provide are consistent with the community level of care. A review of documentation indicated the one IIC victim of sexual abuse was

provided medical and mental health services. Additionally, all ten IIC victims of sexual harassment were provided medical and/or mental health services.

115.83 (d): The PAQ indicated that female victims of sexual abusive vaginal penetration while incarcerated are offered pregnancy tests. Further communication with the PC indicated that this provision does not apply as the facility does not house female IICs. 04.10.301, page 10 states female victims of sexual abusive vaginal penetration while incarcerated shall be offered pregnancy tests. If pregnancy results from the sexual abuse, such victims shall receive timely and comprehensive information about and timely access to all lawfully pregnancy-related medical services. The facility does not house female IICs and as such this provision does not apply.

115.83 (e): The PAQ indicated that if pregnancy results from sexual abuse while incarcerated, victims receive timely and comprehensive information about, and timely access to, all lawful pregnancy-related medical services. Further communication with the PC indicated that this provision does not apply as the facility does not house female IICs. 04.10.301, page 10 states female victims of sexual abusive vaginal penetration while incarcerated shall be offered pregnancy tests. If pregnancy results from the sexual abuse, such victims shall receive timely and comprehensive information about and timely access to all lawfully pregnancy-related medical services. The PREA Manual, page 45 states that if pregnancy results from the conduct described in paragraph (d) of this section (sexually abusive vaginal penetration), such victims shall receive timely and comprehensive information about and timely access to all lawful pregnancy-related medical services. It further states that Department healthcare providers shall deliver comprehensive prenatal counseling and care for pregnant female offenders. The facility does not house female IICs and as such this provision does not apply.

115.83 (f): The PAQ indicated that IIC victims of sexual abuse while incarcerated are offered tests for sexually transmitted infections as medically appropriate. 04.01.301, page 9 states that a general physical examination for recent sexual abuse shall include, but not be limited to: a blood test (RPR for Syphilis); culture smears for seminal fluid, Gonorrhea, Chlamydia and other Sexually Transmitted Diseases (STD) as appropriate; Hepatitis C antibody test and Hepatitis B surface antigen and antibody blood test and an HIV test and counseling shall be offered. Interviews with IICs who reported sexual abuse indicated none involved an allegation with penetration and as such services under this provision were not applicable. A review of the one sexual abuse investigation confirmed the IIC victim was provided medical and/or mental health services. The allegation did not involve a need for tests for sexually transmitted infections.

115.83 (g): The PAQ indicated that treatment services are provided to every victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident. 04.01.301, page 9 states that offenders shall not be charged a co-payment for medical treatment, including forensic medical examinations, obtained for alleged sexual abuse. Interviews with IICs who reported sexual abuse indicated none were required to pay for their medical and mental health services.

115.83 (h): The PAQ indicated that the facility attempts to conduct a mental health evaluation of all known IIC-on-IIC abusers within 60 days of learning of such abuse history and offers treatment when deemed appropriate by mental health practitioners. The PREA Manual, page 46 states that all prisons shall attempt to conduct a mental health evaluation of all known IIC-on-IIC abusers within 60 days of learning of such abuse history and offer treatment when deemed appropriate by mental health practitioners. Interviews with medical and mental health staff indicated that IIC perpetrators are provided mental health services as soon as they are made aware and that perpetrators are initially offered services when the allegation is reported as well. There were zero IIC-on-IIC sexual abuse allegations that were deemed substantiated and as such there were no confirmed IIC-on-IIC abusers who required an evaluation under this provision.

Based on a review of the PAQ, 04.01.301, the PREA Manual, medical and mental health documents, observations made during the tour and information from interviews with medical and mental health care staff and IIC who reported sexual abuse, this standard appears to require corrective action. A review of documentation for eight IICs who disclosed prior sexual victimization during the risk screening indicated all eight were offered a follow-up with mental health. Six of the eight declined services. One that accepted services was seen by mental health within fourteen days. The second did not have any documentation related to a mental health follow-up.

Corrective Action

The facility will need to ensure all IICs who disclose prior sexual victimization or are identified with prior sexual abusiveness are afforded a follow-up with mental health staff. The facility will need to provide a list of IICs that arrived during the corrective action period who disclosed prior victimization or are identified with prior sexual abusiveness, their risk assessments and mental health documentation, if applicable (if accepted).

Interviews:

1. Interview with the Warden

2. Interview with the PREA Compliance Manager

3. Interview with Incident Review Team

Findings (By Provision):

115.86 (a): The PAQ indicated that the facility conducts a sexual abuse incident review at the conclusion of every criminal or administrative sexual abuse investigation, unless the allegation has been determined to be unfounded. 04.01.301, page 11 states that the facility shall conduct a sexual abuse incident review at the conclusion of every sexual abuse investigation, unless the allegation was determined to be unfounded. Such reviews shall ordinarily occur within 30 days of the conclusion of the investigation. The PAQ stated there was one criminal and/or administrative investigation of alleged sexual abuse completed at the facility excluding only unfounded incidents. A review of eleven investigations indicated one was sexual abuse and required a sexual abuse incident review. The facility provided the sexual abuse incident review, which was completed within 30 days of the conclusion of the investigation.

115.86 (b): The PAQ indicated that the facility ordinarily conducts a sexual abuse incident review within 30 days of the conclusion of the criminal or administrative sexual abuse investigation. The PAQ further stated that in the past twelve months, there was one sexual abuse incident review completed within 30 days. 04.01.301, page 11 states that the facility shall conduct a sexual abuse incident review at the conclusion of every sexual abuse investigation, unless the allegation was determined to be unfounded. Such reviews shall ordinarily occur within 30 days of the conclusion of the investigation. A review of eleven investigations indicated one was sexual abuse and required a sexual abuse incident review. The facility provided the sexual abuse incident review, which was completed within 30 days of the conclusion of the investigation.

115.86 (c): The PAQ indicated that the sexual abuse incident review team includes upper-level management officials and allows for input from line supervisors,

investigators, and medical or mental health practitioners. 04.01.301, page 11 states that the review team, at minimum, shall include: Assistant Chief Administrative Officer; Shift Commander or Lieutenant; a representative from Internal Affairs; the PCM, a representative from medical and a representative from mental health. The interview with the Warden confirmed that the facility has a sexual abuse incident review team and the team includes upper level management offices, line supervisor, investigators and medical and mental health practitioners. A review of eleven investigations indicated one was sexual abuse and required a sexual abuse incident review. The facility provided the sexual abuse incident review, which included the staff under this provision.

115.86 (d): The PAQ indicated that the facility prepares a report of its findings from sexual abuse incident reviews including, but not necessarily limited to, determinations made pursuant to paragraphs (d)(1)-(d)(5) of this section and any recommendations for improvement, and submits such report to the facility head and PREA Compliance Manager. 04.01.301, page 11 states that the review, including any reports of findings or any recommendation for improvement, shall be documented on the DOC 0593, Sexual Abuse Incident Review. The Warden stated that information from the sexual abuse incident reviews is utilized to determine if additional security measures are needed, such as cameras or staff. The PCM stated he is part of the sexual abuse incident review team and he reviews the reports. He advised he has not noticed any trends. Further, he stated that once the report is submitted he if there were any actions that warranted change, he would make sure they are completed. The sexual abuse incident review team member advised he had never actually completed a sexual abuse incident review so he was unsure of the process. A review of eleven investigations indicated one was sexual abuse and required a sexual abuse incident review. The facility provided the sexual abuse incident review, which included the elements under this provision. The auditor noted that the sexual abuse incident review lacked narrative and was more a checklist. During the interim report period the facility conducted a training with the sexual abuse incident review team members. The training outlined the process and form for the sexual abuse incident review and also noted that the sexual abuse incident review needs to include incident specific narrative for each element. Staff signatures were provided confirming receipt of the training.

115.86 (e): The PAQ indicated that the facility implements the recommendations for improvement or documents its reasons for not doing so. 04.01.301, page 11 states that the DOC 0593 shall be forwarded to the Chief Administrative Officer so recommendations for improvement may be considered. Any recommendation not implemented shall be documented on the DOC 0593 including justification for not doing so. A review of eleven investigations indicated one was sexual abuse and required a sexual abuse incident review. The facility provided the sexual abuse incident review, but it did not include any recommendations.

	Based on a review of the PAQ, 04.01.301, investigative report, sexual abuse incident reviews (DOC 0593), staff training and information from interviews with the Warden, the PCM and a member of the sexual abuse incident review team, this standard appears to be compliant.

The report should at minimum include: a review of each incident of sexual abuse or harassment that occurred during the reporting period; program and procedural changes implemented based on recommendations of the review team; training needs to ensure future safety and security; record of referrals to outside community resources; record of referrals for post-release service and statistical data. Policy further states that upon receipt of the reports from each facility, the agency PC shall assess the overall effectiveness of the Department's Sexual Abuse and Harassment Prevention and Intervention Program and submit a written report to the Director that has at minimum: statistical data and corrective action by facility; aggregated incident based</p>

sexual abuse or harassment data for the Department; perceived areas of concern and recommended or implemented improvements; a comparison of the current year's statistical data and corrective action with those of previous reporting periods; and an assessment of the Department's progress in addressing sexual abuse or harassment overall. A review of investigative reports and the PREA Checklist confirm that information/data related to each sexual abuse and sexual harassment allegation is reported and documented. The PREA Checklist is then forwarded to the PC to assist with compiling statistical data to identify trends.

115.87 (b): The PAQ indicated that the agency aggregates the incident-based sexual abuse data at least annually. 04.01.301, pages 12-13 state that upon receipt of the reports from each facility, the agency PC shall assess the overall effectiveness of the Department's Sexual Abuse and Harassment Prevention and Intervention Program and submit a written report to the Director that has at minimum: statistical data and corrective action by facility; aggregated incident based sexual abuse or harassment data for the Department; perceived areas of concern and recommended or implemented improvements; a comparison of the current year's statistical data and corrective action with those of previous reporting periods; and an assessment of the Department's progress in addressing sexual abuse or harassment overall. A review of the Annual PREA Report indicates that it includes agency accomplishments, facilities audited during the year, statistical data and corrective actions. The report compares data from 2014 through the current year.

115.87 (c): The PAQ indicated that the standardized instrument includes, at a minimum, the data necessary to answer all questions from the most recent version of the Survey of Sexual Violence (SSV) conducted by the Department of Justice. A review of the agency's most recent Survey of Sexual Victimization (formerly known as Survey of Sexual Violence) confirms that the agency collects appropriate information using a standardized instrument and reports the appropriate information via the SSV.

115.87 (d): The PAQ indicated that the agency maintains, reviews, and collects data as needed from all available incident-based documents, including reports, investigation files, and sexual abuse incident reviews. 04.01.301, pages 12-13 state that the Chief Administrative Officer and the facility PCM shall conduct an annual evaluation of the Sexual Abuse and Harassment Prevention and Intervention Program at their respective facility and submit to the PC a written report of the findings. The report should at minimum include: a review of each incident of sexual abuse or harassment that occurred during the reporting period; program and procedural changes implemented based on recommendations of the review team; training needs to ensure future safety and security; record of referrals to outside community resources; record of referrals for post-release service and statistical data. The interview with the Agency Head indicated that data is collected and that the consistent review allows for improvement of policies and procedures. She advised they also use it to create and work through corrective action plans, such as retraining staff. The Agency Head confirmed that they take corrective action on an ongoing basis. She advised the PC is really big on corrective action and being in the facilities to review and make sure issues are identified and corrective action is implemented. The PC confirmed that the agency reviews data that is collected in order to assess and improve the effectiveness of the sexual abuse prevention, detection and response policies. He stated the Agency Head approves the report and that the information is published on the agency website. He further stated that trends are analyzed and appropriate corrective action is taken based off of this information. The interview with the PCM indicated that the facility data is utilized to identify any contributing factors. He stated it is used to determine if certain things played a part in the sexual abuse and how they can stop it in the future.

115.88 (b): The PAQ indicated that the annual report includes a comparison of the current year's data and corrective actions with those from prior years and that the annual report provides an assessment of the agency's progress in addressing sexual abuse. 04.01.301, pages 12-13 state that the Chief Administrative Officer and the facility PCM shall conduct an annual evaluation of the Sexual Abuse and Harassment Prevention and Intervention Program at their respective facility and submit to the PC a written report of the findings. Findings (By Provision):

115.89 (a): The PAQ indicated that the agency ensures that incident-based and aggregate data are securely retained. The PREA Manual, page 50 states that the agency shall ensure that data collected pursuant to 115.87 are securely retained. The interview with the PREA Coordinator indicated that all identifying information regarding PREA allegations is treated as confidential and maintained in secure databases and secured drives. Any hard-copy documents are maintained via double-locked storage.

115.89 (b): The PAQ indicated that agency policy requires that aggregated sexual abuse data from facilities under its direct control and private facilities with which it contracts be made readily available to the public at least annually through its website. 04.01.301, page 14 states the annual report shall be made available on the Department's website no later than June 30th of the year subsequent that of the reporting period. A review of the website confirmed that the current annual report, which includes aggregated data, as well as prior annual reports are available for review.

115.89 (c): The PAQ indicated that before making aggregated sexual abuse data publicly available, the agency removes all personal identifiers. 04.01.301, page 13 states that the final report shall not contain any personal identifiers. A review of the Annual PREA Report confirmed there was no personal identifying information included nor any security related information. The report did not contain any redacted information.

115.89 (d): The PAQ indicated that the agency maintains sexual abuse data collected pursuant to Standard 115.87 for at least ten years after the date of initial collection, unless federal, state or local law requires otherwise. 04.01.301, page 13 states that all reports and statistical data shall be retained for a period of no less than ten years.
