DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</p> | 6  |

## Audit Findings

### Audit Narrative

*The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, and observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.*

Prior to the on-site visit, Agency PREA coordinator conducted an on-site "pre-audit" of the facility to assist with PREA audit preparation. Prior to the on-site visit, the PREA Coordinator and facility staff forwarded agency and institution policies and supporting documentation, including the completed Pre-Audit Questionnaire, administrative reports, contracts, incident reports, memorandums, brochures, staff rosters, staffing plans, training information, and other reference materials for examination. Policies and documentation are in the form of agency directives and policies. Institution Supplements (IS) are provided in the form of Facility Directives. Updates of the Pre audit questionnaire, investigations and Institutional Supplements were also discussed prior to the beginning of the audit.

The Agency developed and implemented an Illinois Department of Corrections PREA Sexual Abuse and Harassment Prevention and Intervention Program Manual in 2016 that provides agency personnel, facility administration, volunteer, contractor and other stake holders of roles and responsibility for the implementation of PREA laws, and related standards. The manual is extremely informative on agency's implementation plans.

The on-site visit for the Prison Rape Elimination Act (PREA) audit of the Hill Correctional Center was conducted by certified auditor Robert Manville from 3-10 through 03-12, 2021. Notices of the upcoming audit and the Auditor's contact information were posted throughout the institution on January 26, 2021. This is the third PREA audit for this facility. Upon arrival at the facility, an in-briefing meeting was held with the Warden, several department heads and support staff, facility PREA compliance manager and agency PREA coordinator. The standards used for this audit became effective August 20, 2012.

The tour of the Hill Correctional Center included the intake processing areas, all housing units, the Special Housing Unit, the Health Services Department, Recreation, Food Service, facility support areas, education, visiting rooms, industry shops and programming areas. During the tours, it was noted that there was sufficient staffing to ensure a safe environment for inmates and staff. Signs were posted (in English and Spanish) that indicated employees of the opposite gender were present in the housing units. Inmates can shower, dress, and use the toilet without exposing themselves to employees of the opposite gender. Postings, regarding PREA violation reporting and the agency's zero-tolerance policy toward sexual abuse and sexual harassment were prominently displayed in all housing units, meeting areas and throughout the facility. Audit notice postings with the PREA auditor's contact information were in the same areas. These notices were posted on January 26, 2021. The auditor did not receive correspondences from inmates or staff until two weeks after the audit. The inmate that sent the correspondence had been interviewed as a targeted offender.

A total of thirty three (33) randomly selected correctional staff members were interviewed. Correctional officers and Lieutenants from all shifts were included in the interview process. All were aware of the agency's zero-tolerance policy and their responsibilities to protect inmates from sexual abuse/sexual harassment and could explain their new employee and annual PREA training and their duties as first responders as part of a coordinated response. The Agency Director, Agency PREA Coordinator and Agency Contract Administrator had been

previously interviewed (the auditor is in receipt of the completed interview questionnaires). Specialized staff members were also interviewed. This included the Warden, IPCM, two (2) Investigator, two Unit Managers, Human Resource Specialist, Intake staff, administrative segregation lieutenant, , Mental Health Director, case manager supervisor, case manager, chaplain (volunteer supervisor) Medical Administrator and Unity Point Methodist Hospital and a victim advocate from Western Regional Council. Staff and contractors demonstrated an understanding of the PREA and their responsibilities under this program, relative to their position or roles with the organization and employment status.

A total of forty three inmates were selected to be interviewed. The interviewed inmates were of various ages, nationalities, and ethnic backgrounds. Inmate random interviewed inmates included inmates in each facility and further housed in every dormitory in each facility. The target populations interviewed were twenty three (23).

There were no inmates in Protective Custody for any PREA related issue. The facility does not place alleged victims or those considered high risk in the Segregation. Overall, all inmates interviewed demonstrated a good understanding of the PREA compliance program, the intake screening process, the prevention and protection process and reporting mechanisms.

Located in each dormitory are posting that include staff of the other gender are assigned to work in this dormitory, zero tolerance posters, PREA "Report Line" telephone number which may be called to report sexual abuse or sexual harassment, Victim advocate posters, and the John Howard Association which is a private entity (would be a third-party reporter) and is not associated or otherwise connected to the IDOC. These posters are located throughout the facility. The housing units are utilized to house specialized programming, job assignments, initial orientation, and general population. Within each of the four housing units are mental health staff, classification staff, unit manager staff and case managers offices.

The Receiving/Discharge area has partitions for inmates to use restrooms in privacy. There is also an area for strip searches and for inmates to change clothes in privacy. The agency PREA coordinator has developed a compliance manager who to document to assist PREA compliance managers in carrying out their duties. The Hill Correctional Center Warden issued a memorandum to establish a PREA compliance manager and an assistant with responsibility to coordinate with the Agency PREA coordinator to oversee the implementation and management of with the Prison Rape Elimination Act of 2003. Both the agency PREA Coordinator and Facility Compliance Manager advised they have sufficient time and authority to coordinate efforts to comply with PREA standards. Hill

Correctional Center's PREA compliance manager was extremely knowledgeable about PREA and has set a high bar for all staff to comply with PREA standards on a local level.

The agency policies outline a zero-tolerance policy for all forms of sexual abuse and sexual harassment. Inmates are informed orally about the zero-tolerance policy and the PREA program during in-processing and additional admission and orientation presentations. The orientation is offered in English and in Spanish. Additional program information is contained in the Offender manual, and postings distributed throughout the facility (observed during the tour). All written documents are available in English and Spanish. Additional interpretive services are available for inmates who do not speak or read English. Both institution staff and inmates are provided with a wealth of opportunities to become aware of PREA policies and procedures. All employees receive initial training and annual training, as well as updates throughout the year. The institution meets the standards with all the programs they have implemented to ensure the inmates and staff understand its position on zero-tolerance. Compliance was determined by review of orientation power point presentations, posters. Offender manual and interviews with staff, contractors, and inmates further provided compliance with this standard.

115.12 (a) 1-4 - Safer Foundation Contract for Confinement of Inmates 01-11-14

The agency and facility meet the mandates of this standard. A review of the documentation submitted substantiates that the agency and facility require the entities which they contract for the confinement of inmates (privatized prisons or residential reentry centers or "halfway houses") to adopt and comply with the PREA standards. All agency contractual agreements were modified effective January 14, 2014 to incorporate the language requiring contractors to adopt and comply with PREA standards.

Agency policy requires each facility to review the staffing plans on an annual basis. Interviews with the Warden and executive staff revealed compliance with the PREA, and that other safety and security issues are always a primary focus when they consider and reviewing their respective staffing plans. The facility has a Staffing Report that is developed for each pay period. The Prison provides the bimonthly reports that includes mandatory post and hold over staffing to meet the mandatory posts. This report also includes the number of positions authorized, the number filled, the number vacant, recruitment efforts and any staffing concerns during the pay period. The Warden meets weekly with her executive staff, including the Major, Lieutenant and the Human Resource Manager (HRM) to address staffing issues as they relate to the PREA. The operations assistant warden reviews staffing on a daily basis to include use of overtime and whole overs.

The institution has been provided with all necessary resources to support the programs and procedures to ensure compliance with the PREA standards. The audit included an examination of all video monitoring systems; staff interviews; and rosters. Supervisory and Administrative staff members routinely make unannounced rounds covering all shifts and these rounds are documented. PREA rounds are documented in operations lieutenants' computerized logs and at the officer's stations logs for housing units.

There have been no judicial findings of inadequacy from federal investigative agencies or findings of inadequacy from internal or external oversight bodies relevant to this standard. All

essential posts are filled each shift and no essential posts are kept open for salary savings. When programs are offered, staffing is increased to provide additional supervision.

AD policy 01.02.102 and ID policy 01.02.102 Duty Administrative Officer & Back-up Duty Administrative Officer provide for minimum expectations for Duty Officers to conduct random tours of all areas of the facility on all shift and all days including night and weekends. The review of Institution Duty Officer (IDO) unannounced PREA rounds logs confirmed that intermediate-level or higher-level supervisors, including shift supervisors and department heads, conduct and document such visits throughout the institution, during the day, at night and on the weekends. Additionally, the IDO was interviewed. IDO visits areas of the facility during days, evenings, and weekend. The IDO document the visits on logbooks and a IDO file located in the Warden's office. Staff members are prohibited from alerting other employees regarding unannounced rounds. Interviews with inmates and housing unit officers also confirmed that random, unannounced rounds are conducted by Institution Duty Officers daily, including nights and weekends. PREA rounds are documented in operations lieutenants' computerized logs and at the officer's stations logs for housing units. An examination of policy and supporting documentation and all interviews confirms compliance with this standard. Compliance was determined by staff interviews conducted during the tour of all areas of the facility, to include the Operations Lieutenants on all three shifts, Majors, Human Resource Manager, and correctional staff; reviews of documented staffing rosters, daily supervisory checks, and facility workforce quarterly meeting records; pay period staffing reports and the examination of the video monitoring system. A comprehensive tour of the facilities was conducted during the audit that included looking for blind spots, reviewing cameras coverage and available staff in areas that inmates are assigned. Subsequently, areas of each facility was also reviewed while going throughout the facilities to meet with staff on the first, second and third shift and to interview inmates.

The above policies, memos and directives meet the mandates of this standard. Cross-gender strip or cross-gender body cavity searches are prohibited, except in emergency situations or when performed and documented by a medical practitioner. Officers would be required to document all cross-gender strip searches and cross-gender visual body cavity searches. Interviews with staff confirmed that they were aware of the prohibition of visual body cavity or strip searches of the inmates of the opposite sex except in exigent circumstances. Staff interviews also confirmed that female officers had been trained to conduct cross-gender pat searches. Staff interviews indicated they received cross-gender pat search training during initial and annual training. The auditor observed that each unit has individual shower curtains for privacy. The facility has implemented a policy that all opposite gender staff working the units will announce themselves prior to walking the range to allow inmates the opportunity to prepare themselves from a privacy perspective. Inmates interviewed acknowledged they were allowed to shower, dress and use the toilet without being viewed by staff of the opposite gender.

Based on interviews with staff and inmates a corrective action plan was required to maintain privacy curtains in operational order. The facility administrator has added checking shower curtain on daily facility inspections. The investigative unit will be notified of missing curtains and will investigate by reviewing video cameras. Staff or inmates that purposely remove curtains will receive appropriate discipline and/or counseling. Inmate discipline will follow IDOC policy including mental health evaluations and staff will follow appropriate action as allowed by

differing union contractual agreements. All shower curtains will be replaced immediately by maintenance staff.

Staff and most of inmates interviewed indicated employees of the opposite gender announce their presence before entering a housing unit. Unit staff also announce the possibility of opposite gender staff entering the housing units at the beginning of each shift. Additionally, the auditor observed written notifications which clearly stated the possibility of opposite gender staff routinely entering the units posted in the unit common areas. The postings were written in both English and Spanish. Staff members were aware of the policy prohibiting the search of a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. During the past 12 months, there were no exigent circumstances that required cross-gender viewing of an inmate by a staff member at HCC. The living areas have showers with curtains that provides for inmate privacy while showering. Toilet areas have partitions with door to allow inmates to use the restroom without being viewed by staff. Based on the review of corrective action plan, policies, and notices regarding the presence of female staff in the units, observation of the showering/dressing areas and interviews with staff and inmates it has been determined that Hill Correctional Center is in compliance with this standard.

ADA Accommodations 04.01.111 ADA Accommodations mandates that the Department shall not discriminate against offenders with known disabilities and shall provide reasonable accommodations to ensure access to programs, activities, and services in accordance with the Americans with Disabilities Act and the provisions established in this Directive.

AD 04.01.105 Facility Orientation establishes local facility to respond to needs of inmates with Disabilities or Limited English Proficiency: The institution has established a contract with an organization in the local community to coordinate American Sign Language services for inmates who are deaf or hard of hearing and interpretive services for inmates with limited English proficiencies. Upon identification of an inmate with a disability which prevents them from reading or understanding inmate PREA educational materials, staff conducting initial intake screenings coordinate with other staff as needed to obtain appropriate accommodations addressing the inmate's disability (i.e. referral to medical as appropriate).

Through policy and practice, the facility staff ensures that inmates with all disabilities listed in 115.16a have an equal opportunity to participate in and benefit from all aspects of the Agency's efforts to prevent, detect and respond to sexual abuse and sexual harassment. The disabled inmates interviewed stated they were instructed about PREA compliance and felt safe from sexual abuse. All PREA related information (written information), including postings, brochures and handouts are available in English, and Spanish. The facility has appointed a staff member to service as the facility's ADA coordinator. The facility has access to translation services for written access in other languages. Staff also may read information to inmates when necessary. The facility does not rely on inmate interpreters, inmate readers or other types of inmate assistants in the performance of first responder duties or during the

investigation of an inmate's sexual abuse/sexual harassment allegations. Interviews with first responders, medical, mental health and investigative staff confirmed their awareness of the prohibition of using inmate interpreters for PREA compliance functions. Interviews with three non-English proficient inmates confirmed the availability and use of the staff interpreters and telephonic interpretive services. Interviews with staff and inmates and an examination of policy/supporting documentation also confirm compliance with this standard. The facility also employs staff members who are bi-lingual in languages other than English. Compliance of this standard was confirmed by review of Agency Policy, Institutional supplement, contracting services for language interpretation services and interviews with local ADA coordinator staff, LEP and disabled inmates.

AD 01.02.107, Background Investigations; 03.02.100, Administrative Review of Personnel and Service Issues; IDOC memos and corresponding local policy/documentation address the requirements of this standard. All employees, contractors and volunteers have had criminal background checks completed. The facility does not hire or promote anyone who may have contact with inmates, and does not enlist the services of any contractor or volunteer that may have contact with inmates, who has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution; has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force or coercion, or if the victim did not consent or was unable to consent or refuse, or if the person has been civilly or administratively adjudicated to have engaged in the activity. Incidents of sexual harassment are considered in determining whether to hire or promote anyone or to enlist the services of any contractor or volunteer who may have contact with inmates. AD 01.02.107 Background Investigation was reissued and updated in an administrative directive on February 2, 2018.

A tracking system is in place that ensures the agency and facility are informed of any employee arrests. Employees have a duty to disclose such misconduct. Material omissions regarding this type of misconduct would be grounds for termination. The submission of false information by any applicant is grounds for not hiring the applicant. The human resource manager confirmed that the agency attempts to contact prior employers for information on substantiated allegations of sexual abuse or resignations which occurred during a pending investigation of sexual abuse. Interviews with staff and a review of documentation (PREA

Screening Form) confirm compliance with this standard. Ten new staff member and ten promoted staff personnel files were reviewed and found to have completed prior to employment or promotion. A review of email chains for NCIC and Illinois State criminal tracking system confirmed that the facility complies with this standard. Compliance was further confirmed by review of policy, background checks and interviews with agency background check supervisor and facility human resources staff.

115.18 Camera List

115.18 IDOC Camera Plan 3-2-16

In 2016 the Illinois Department of Corrections developed a State-Wide Security Camera contract for the agency to procure from. This plan was developed to assist the Department's continued efforts to prevent rule violations and misconduct to include the prevention of sexual abuse throughout the entire Department. Hill Correctional Center camera plan included installation of video surveillance equipment in housing units, offender dining, offender recreation areas, and any other area indicated by PREA requirements. Interviews with PREA coordinator of Warden verified that the agency has developed a camera mapping plan and has completed part of this three phase project. In the meantime the facility has placed additional mirrors and made modifications for blind spots and privacy concerns. During the last several years the agency has modified facilities including upgrades of the facilities camera systems. In each modification and upgrade the PREA coordinator is included in upgrade and modifications reviews. Compliance was determined by review of the agency mapping plan and interviews with PREA coordinator, warden and major.

AD 01.12.125, Uniform Investigative Reporting System; AD 04.01.301, Sexual Abuse and Harassment Prevention and Intervention Program, ID 04.01.301, Offender Sexual Assaults-Prevention, and Intervention; National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents, and Illinois State Police/IDOC Memorandum of Understanding (MOU) meet the mandates of this standard. HCC investigators conduct administrative investigations and the Illinois State Police (ISP) conduct criminal investigations.

The agency follows a uniform evidence protocol as described in the U.S. Department of Justice's Office on Violence Against Women publication, "A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents". Victims of sexual assault are referred to health services for initial examination and treatment. Such treatment would be for life preservation only and the victim would be transported to a local hospital for examination, treatment and forensic evidence gathering by a SANE nurse. All sexual abuse advocacy, examinations, treatment, testing, and follow-up care are provided without cost to the victim. The facility has access to a Victim Advocates with Counseling and Information for Sexual Assault/Abuse a local rape crisis center organization to provide victim advocacy services. Follow up mental health services are provided by the facility mental health staff. Post SANE testing and treatment is provided by facility medical and mental health care personnel when

indicated. Inmates that claim past history of victimization prior to and during incarcerations are interviewed and offered services from facility mental health staff and the victim advocate services staff. The facility mental health staff advised that several of the inmates have asked for and received services from mental health staff and the victim advocate.

A review of training records confirmed that internal investigative unit staff have received appropriate investigator training on the investigation of sexual abuse and harassment in a confinement setting. Interviews with staff, local SANE nurse, local rape crisis center advocate and an examination of documentation confirmed compliance with this standard. Correctional and medical staff members were interviewed concerning this standard and all were knowledgeable of the procedures required to secure and obtain usable physical evidence when sexual abuse is alleged. Staff members were also aware that the PREA investigations relative to sexual abuse/harassment allegations. Staff carry of First Responder card to provide reminders and expected responses to sexual abuse.

All forensic medical examinations are conducted by United Methodist Hospital, (SAFE/SANE) staff. Currently, HCC has one staff designated and qualified to serve as victim advocates. The staff is a license social worker and has received training on providing victim advocacy services. An interview with the SAFE/SANE representative verified that the Hospitals have access to trained staff to conduct forensic examinations. The facility also has a MOU with Wester Illinois Regional Council to provide advocacy services. The hospital representative indicated in our telephone interview that the hospital works with a victim advocacy group that is part of the Illinois coalition of sexual assault/abuse at the hospitals. The determination of which hospital to utilize is determined by SANE staff on duty at time of the assault. There were two (2) forensic examinations conducted during the past 12 months. Both examinations were conducted by SANE staff. Both forensic examinations were negative.

The representative from Wester Illinois Regional Council stated that all staff have been trained in providing advocacy services and completed background checks to provide services in the prison.

Compliance was determined by review of memo of direction from Wexford State medical administrator and interview with HCC nurses and Hill PREA compliance manager. Additional compliance was determined by staff from hospital and advocacy programs interviews.

Inmates receive information during the intake process that includes a PREA handout and Offender manual, printed in both English and Spanish. There are PREA posters throughout the facility and in each housing unit, and a PREA "Report Line" telephone number which may be called to report sexual abuse or sexual harassment, is posted on the unit bulletin boards. The IDOC mailing address is posted in each housing unit for inmates to send correspondence concerning any sexual abuse or sexual harassment allegation. There is an interpretive language service available for limited English proficient inmates. A review of A&O manual verified that inmates received Sexual Assault/Sexual Abuse Prevention & Intervention education and relevant written materials. All inmates are required to acknowledge in writing they have received PREA education. A staff member conducts an additional education program regarding the PREA for all inmates within 30 days of their arrival at the facility. If an inmate is transferred to another facility, policy requires that this training process be repeated at the new institution, as confirmed through interviews with newly arrived inmates. The program includes definitions of sexually abusive behavior and sexual harassment, prevention strategies and reporting modalities.

The auditor reviewed 15 random sampling of A&O Checklists/Signature Sheets to verify that inmates, admitted during the auditing period, received the PREA education and relevant written materials. All inmates are required to acknowledge completion of PREA education. During the interview process randomly selected inmates indicated they received information about the facility's rules against sexual abuse/sexual harassment, when they arrived at the facility. They further indicated they were advised about their right not to be sexually abused/sexually harassed, how to report sexual abuse/sexual harassment and their right not be punished for reporting sexual abuse/sexual harassment. Inmates were aware of available services outside of the facility for dealing with sexual abuse. Compliance was determined by review of inmate documented training, training curriculum, observation of training and interviews with case managers and inmates.

AD 01.12.115, Institutional Investigative Assignments and the Academy Investigator Training meet the mandates of this standard. The agency Administrative Directive Internal Investigations mandates that the Chief of Investigations and Intelligent shall appoint a minimum of two staff from all correctional facilities to conduct investigations. One of the staff appointed to this task shall be the rank of Lieutenants. The Investigators will report to the Chief of Investigations. The chief of investigation will provide all required training and certifications for the appointed staff members. This includes investigations of Sexual Abuse or Sexual harassment. The auditor reviewed specialized training documentation to include the Investigator Training Instructor Guide and the course completion list for Investigating Sexual Abuse in a Confinement Setting training and the PREA Criminal Investigator Certification Training List. Administrative investigations are normally conducted by a trained investigator who is a full-time employee at the facility. When criminal investigations are indicated, they are conducted by the Illinois State Patrol. Interviews with staff, the sex abuse/harassment investigators, and an examination of policy, documentation and the investigative files confirm compliance with this standard.

AD 04.01.301, Sexual Abuse and Harassment Prevention and Intervention Program; AD 05.07.101, Reception and Orientation-Adult Process; ID 04.01.301, Offender Sexual Assaults-Prevention, and Intervention; DOC 0372, Mental Health Screening Form and DOC 0379, Evaluation of Suicide Potential Form, are the policies and procedures governing this standard. All offenders are assessed during the intake screening process for their risk of being sexually abused by other inmates or being sexually abusive toward other inmates. The Screening instrument is a two part screening. The first screening is to determine risk of vulnerability and the second instrument is the risk of being a predator or sexual assaultive offender. The screening is conducted by a case manager. The screening normally occurs within twenty-four hours, but no more than seventy-two hours, after the inmate's arrival. Policies and procedures require the use of a screening instrument (reviewed by auditor) to determine proper housing, bed assignment, work assignment, education, and other program assignments, with the goal of keeping inmates at high risk of being sexually abused/sexually harassed separate from those inmates who are at high risk of being sexually abusive. A medical staff conducts an initial medical screening including questions of prior sexual abuse. Additional screening is conducted by a member of the Psychology Services Department utilizing a mental health screening instrument. Agency Directives require within the first 30 days of arriving at the facility, an inmate's risk level is reassessed within thirty days or when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate's risk of sexual victimization or abusiveness. The facility staff have developed a system that includes medical, mental health, and case managers in the initial screening and housing of inmates. Based on a systematic victim assessment, suicide potential screening and impressions by staff medical, case manager and mental health reviews and determine the initial assessment and housing plan for inmates. Controls are in place to ensure that information received during the screening is only available to staff on a need-to-know basis. The facility is using a screening tool that addresses all issues required for this standard. Agency policy prohibits inmates from being disciplined for refusing to answer or for not disclosing complete information in response to questions regarding their mental/physical health, developmental disability, sexual preferences, sexual victimization history and perception of vulnerability. Housing and program assignments are made on a case-by-case basis and inmates are not placed in housing units based solely on their sexual identification or status. The facility case managers completes rescreening after inmates are housed at the facility for approximately thirty (30) days. All screening that results in a referral to mental health staff for follow up if the offender claims history of sexual victimization, history of predator sexual actions or if inmate self admits to being transgender. A review of 15 screening and 15 rescreening revealed that all inmates were

screened and rescreened as required by standards. Interviews with Case Managers Supervisor, Mental Health Staff and PREA Compliance Officer, Case Manager, and offenders including target population offenders support the findings of this review.

Administrative Directive 04.03.104 Evaluation, Treatment and Correctional Management of Transgender Offender 4/1/2021

AD 04.01.301, Sexual Abuse and Harassment Prevention and Intervention Program; AD 04.03.104, Evaluations of Offenders with Gender Identity Disorders; ID 04.01.301, Offender Sexual Assaults-Prevention and Intervention and DR 420 meet the mandates of this standard. Risk screening information is used to determine housing, bed, work, and education and program assignments, with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive. Determinations for these assignments are made on a case-by-case basis. Staff members assigned to conduct intake screening have been provided additional training and resource materials to complete this task. The Agency (through a committee) decides whether to assign a transgender or intersex inmate to a facility for male or female inmates. Illinois Department of Corrections has no dedicated facilities for transgender or intersex inmates.

The facility determines other housing and programming assignments for transgender or intersex inmates on a case-by-case basis, to include whether a placement would ensure the inmate's health and safety and whether the placement would present management or security problems. Placement and programming assignments for each transgender or intersex inmate are reassessed at least once every six months. Policy states that a transgender or intersex inmate's own view with respect to his own safety should be given serious consideration when making these assignments. Transgender and intersex inmates are given the opportunity to shower, dress and use the toilet facilities separately from other inmates. A review of the housing plan for six (6) transgender inmates and interviews with 6 transgender inmates confirmed that the inmates were able to shower privately.

The offenders stated they had not received a six month review. The auditor asked for copy of the six month reviews as noted in "Evaluation of Transgender Offenders". The facility was not able to provide the documentation. Based on interviews with the transgender inmates and lack of six month review documentation it was determined that the facility would need to conduct a corrective action plan to meet this standard. The agency provided documented review plans for several transgender offenders that were within the six month requirement. However in order to be proactive the agency had all transgender reviewed and rescreened by a mental health staff member including meeting individually with each offender and discuss their feelings of

safety, programming, program access and medical concerns. On March 25, 2021, the agency sent six month review on each of the transgender housed at the facility the date of the audit. The agency has developed a central office data base to be reviewed monthly to assure that six month reviews are completed on the local level and forwarded to the agency transgender committee. IDOC has also developed and is implementing Administrative Directive 04.03.104 Evaluation, Treatment and Correctional Management of Transgender Offender on 4/1/2021. This administrative director provides all requirement of PREA standards of transgender and Intersex offenders.

Case manager supervisor, medical and mental health personnel meet on a weekly basis to assess the status of any inmate thought to be at risk for abuse or who may be exhibiting adjustment problems. The interview with the Agency's PREA Coordinator confirmed that a transgender inmate's genital status is not the sole criteria for placement in a specific facility. Interviews with staff and inmates, to include six (6) transgender inmates (the facility had no intersex inmates), observations of housing assignments and unit activities, as well as an examination of documentation/policy, and corrective action plan confirm that the facility is in compliance with this standard.

AD 04.01.301, Sexual Abuse and Harassment Prevention and Intervention Program; ID 04.01.301, Offender Sexual Assaults-Prevention and Intervention and Title 20 Illinois Administrative Code Subpart D- Protective Custody meets the mandates of this standard. The Administrative Segregation Unit houses both administrative (protective custody) and disciplinary cases. Policy states inmates at high risk for sexual victimization shall not be placed in involuntary status unless an assessment of all available alternatives has been made and there is no available means of separating the victim from the abuser. No inmates were placed in this status within the last year. In practice, victims would almost never be placed in involuntary protective custody. If necessary, placement would only be for a very short time for protection only and only to determine the facts of the incident. If protection is necessary for an inmate, they may be transferred to another housing area or facility. All inmates are reassessed by a committee every 7 days after entering the Administrative Segregation Unit. Interviews with Administrative Segregation Unit officers and Administrative Segregation Unit Lieutenant confirm that to the extent possible, access to programs, privileges, education, and work opportunities are not limited to inmates placed in the Administrative Segregation Unit for the purpose of PREA protective custody, except when there is a safety or security concern. The facility would document the reasons for restricting access and the length of time the restriction would last. Mental health and case managers meet with each inmate in Administrative Segregation Unit status at least once each week. Interviews with staff (including Administrative Segregation Unit assigned staff) and Administrative Segregation Unit Lieutenant and examination of administrative segregation unit operations and an examination of policy/documentation confirm compliance with this standard.

The John Howard Association is a private entity (would be a third-party reporter) and is not associated or otherwise connected to the IDOC. A review of supportive documentation and staff/inmate interviews indicated that there are multiple ways (verbally, in writing, anonymously, privately, and from a third party) for inmates to report sexual abuse/sexual harassment. The facility has procedures in place for staff to document all allegations. Throughout the facility, there are posters and other documents on display which also explain reporting methods. Poster highlight How to Report and includes the following information.

Illinois Department of Corrections offers multiple ways to report sexual abuse and sexual harassment. Reports can be made anonymously. The PREA reporting poster provide the following information to offenders, staff, volunteers, and visitors and is al located on DOC website:

- Report to any staff, volunteer, contractor, or medical or mental health staff.
- Send a note, request slip, or file a grievance and place into the facility mail.
- Report the incident to the PREA Hotline at (217) 558-4013. This number is accessible from offender phones. Simply enter your pin number and dial this number. This call is free.
- Tell a family member, friend, legal counsel, or anyone else outside the facility. They can report on your behalf by calling (217) 558-4013.
- You also can submit a report on someone's behalf, or someone at the facility can report for you using the ways listed here.
- Write to either of the addresses below, providing a description of the event and the people involved.

Staff members promptly accept and document all verbal, written, anonymous, private, and third-party reports of alleged abuse/sexual harassment.

The PREA hotline was contacted and verified that it is operational. All interviewed inmates confirmed awareness of the multiple methods of reporting sexual abuse/sexual harassment allegations. Inmates at the facility are not detained solely for civil immigration purposes. Interviews with staff and inmates, the observation of posters addressing reporting methods and an examination of policy/documentation confirm the facility's compliance with this standard.

Title 20 Illinois Administrative Code; AD 04.01.301; Local Offender Grievance Procedure and DOC 0046, Offender Grievance Form (English and Spanish), addresses the mandates of this standard. All allegations of sexual abuse/sexual harassment, when received by staff, will immediately be referred for investigation. Inmates are not required to use an informal grievance process and procedures also allow an inmate to submit a grievance alleging sexual abuse/sexual harassment without submitting it to the staff member who is the subject of the complaint. Additionally, policy also prohibits the investigation of the allegation by either staff

alleged to be involved in the incident or any staff who may be under their supervision. Policy states that there is no time frame for filing a grievance relating to sexual abuse/sexual harassment. Policy also addresses the filing of emergency administrative remedy requests. If an inmate files the emergency grievance with the institution and believes he is under a substantial risk of imminent sexual abuse, an expedited response. There is no prohibition that limits third parties, including fellow inmates, staff members, family members, attorneys, and outside victim advocates in assisting inmates in filing requests for grievances relating to allegations of sexual abuse or filing such requests on behalf of inmates. There was no grievances filed involving PREA related issues during the past 12 months. There were no grievances alleging sexual abuse that involved an extension due to the final decision not being reached within 90 days. Additionally, there were no grievances alleging sexual abuse filed by inmates in which the inmate declined third-party assistance. Inmates are held accountable for manipulative behavior and false allegations. Disciplinary action would generally be taken if a grievance was filed in bad faith. Compliance was determined by review of policy and grievance logs, grievance as well as an interview with the PREA compliance officer and inmate who had filed grievance.

D 04.01.301, Sexual Abuse and Harassment Prevention and Intervention Program; ID 04.01.301, Offender Sexual Assaults-Prevention and Intervention, MOU between IDOC and John Howard Association; the PREA Report Line and the Offender Handbook (English and Spanish) meet the mandates of this standard. The facility does not house inmates who have immigration detainers. The facility has successfully entered into an agreement with Vermilion County Rape Crisis Center a local advocacy group to provide emotional support services related to sexual abuse (confirmed through a telephone interview with a victim advocate from the agency). Inmates are informed as part of their orientation process that all telephone calls (except properly placed legal calls) are subject to monitoring and recording and that all mail, except for legal mail, is subject to monitoring as well. PREA pamphlet issued upon the inmate's arrival and the Offender manual cover reporting procedures and provides how to receive the address and phone numbers of the advocacy group and outlines the steps on how inmates may report PREA violations and who and where to report, along with the PREA report line number. The inmate handbook provides information to inmate on limits of confidentiality. Interviews with Mental Health staff and Advocacy representative confirmed that prior to providing services inmates are advised of limits of confidentiality. The Warden provided a memo to all offenders and staff on 9/17/2017 that outlines how offenders can contact the Illinois Coalition against Sexual Assault, the National Sexual Assault Hotline, and the Rape, Abuse, and Incest National Network (RAINN). The handbook and poster also provide information on how to contact the John Howard Association who acts as an anonymous

reporting conduit between inmates and the IDOC. The facility enables reasonable communication between inmates and these organizations and agencies in as confidential a manner as possible. Interviews with staff and inmates, auditor observation of postings in the housing unit, interviews with the local victim advocates and an examination of policy/documentation confirm compliance with this standard.

AD 04.01.301, Sexual Abuse and Harassment Prevention and Intervention Program and ID 04.01.301, Offender Sexual Assaults-Prevention, and Intervention, meet the mandates of this standard. Staff, contractors, and volunteers must report and respond to allegations of sexually abusive behavior, regardless of the source of the report. Interviewed staff members were aware of their duty to immediately report all allegations of sexual abuse, sexual harassment, and retaliation relevant to the PREA standards. The reporting is ordinarily made to the zone Sergeant to the operations Lieutenant but could be made privately or to a third party. Policy requires the information concerning the identity of the alleged inmate victim and the specific facts of the case be shared with staff on a need-to-know basis, because of their involvement with the victim's welfare and/or the investigation of the incident. The facility does not house inmates under the age of 18. Medical and Mental Health staff interviews confirmed that unless otherwise precluded by Federal, State, or local law, medical and mental health practitioners shall be required to report sexual abuse pursuant to paragraph (a) of this section and to inform inmates of the practitioner's duty to report, and the limitations of confidentiality, at the initiation of services. A review of established policy and interviews with staff members support the finding that the facility is in compliance with this standard.

D 04.01.301, Sexual Abuse and Harassment Prevention and Intervention Program and ID 04.01.301, Offender Sexual Assaults-Prevention and Intervention addresses the mandate of this standard. Interviewed staff members were aware of their duties and responsibilities when they become aware or suspect an inmate is being or has been sexually abused or sexually harassed. All staff indicated they would act immediately to protect the victim, to include separating the victim/predator, securing the scene to protect possible evidence, preventing the destruction of potential evidence, and contacting the lieutenant and medical staff. In the past 12 months, there was no instance in which institution staff members determined that an inmate was subject to a substantial risk of imminent sexual abuse. A review of the investigations and interviews with the inmate and staff confirm that, according to the requirements of the standard, facility staff protect the inmate victim and separate victim from the alleged predator.

AD 04.01.301, Sexual Abuse and Harassment Prevention and Intervention Program; AD 01.12.120, Investigation of Unusual Incidents; local policy and the PREA Investigations Finding Notifications Memo address the mandates of this standard. The agency has a policy requiring any inmate who makes an allegation that he suffered sexual abuse at an IDOC facility be informed, in writing, whether the allegation has been determined to be unsubstantiated, substantiated or unfounded, at the conclusion of the investigation. When an allegation involves staff, the inmate would be informed if the staff member is no longer posted within their housing unit, is no longer employed at the facility, if the staff member was indicted on a charge related to sexual abuse within the facility or the Agency learned that the staff member was convicted on a charge related to sexual abuse. These findings would also be communicated to the inmate if the investigation was completed by an outside agency (Illinois State Police). When an inmate's allegation that he or she suffered sexual abuse in an agency facility, the agency will inform the inmate as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded. When the agency did not conduct the investigation into an inmate's allegation of sexual abuse in an agency facility, the agency request the relevant information from the investigative agency in order to inform the inmate. When an inmate's allegation that he or she has been sexually abused by another inmate, the agency subsequently informs the alleged victim whenever the agency learns that the alleged abuser has been indicted on a charge related to sexual abuse within the facility. When an inmate's allegation that he or she has been sexually abused by another inmate, the agency subsequently informs the alleged victim whenever the agency learns that the alleged abuser has been convicted on a charge related to sexual abuse within the facility. When the allegation involves staff, the inmate would be informed if the staff member is no longer posted within their housing unit, is no longer employed at the facility, if the staff member was indicted on a charge related to sexual abuse within the facility or the Agency learned that the staff member was convicted on a charge related to sexual abuse. During this auditing period, there were 17 administrative investigations of alleged sexual abuse or sexual harassment that required notification in accordance with this standard. The inmate was provided notifications of the required investigative outcome of all investigations. The documentation of the notifications and inmate interviews support the finding that the facility is in compliance with this standard.

Compliance with this standard was further determined by a review of policy, staff interviews and inmates and copy of inmate notifications.

Title 20 Illinois Administrative Code—Administration of Discipline for Offenders Identified as Seriously Mentally Ill; AD 04.01.301, Sexual Abuse and Harassment Prevention and Intervention Program; ID 04.01.301, Offender Sexual Assaults-Prevention and Intervention and the Offender Handbook address the mandates of this standard. Information on inmate disciplinary sanctions is provided as part of the orientation process upon entry into the facility. Inmates interviewed indicated a good understanding of their freedom to make allegations without consequences for making good faith allegations. The Inmate Discipline Program defines sexual assault of any person, involving non-consensual touching by force or threat of force, as the greatest severity level prohibited act. The program identifies inmates engaging in sexual acts and making sexual proposals or threats to another as a high severity level prohibited act. Consensual sex or sexual harassment of any nature is prohibited and will result in discipline. Consensual sex between inmates does not constitute sexual abuse. Sanctions are commensurate with the nature and circumstances of the abuse committed, along with the inmate’s disciplinary history and the sanctions imposed for comparable offenses by other inmates with similar histories.

Inmates are subject to disciplinary sanctions pursuant to the formal disciplinary process defined in the Inmate Discipline Program. There was no cases in which there was a substantiated allegation of inmate on inmate sexual abuse. The disciplinary process considers whether an inmate’s mental disabilities or mental illness contributed to the inmate’s behavior when determining what type of sanction, if any, should be imposed. Prior to disciplinary hearing mental health staff complete an agency forms to access the above information. The facility considers the offer of therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse. The institution does not discipline inmates who make an allegation in good faith, even if an investigation does not establish evidence sufficient to substantiate the allegation. There were no disciplinary actions regarding PREA violations. Compliance with this standard was determined by a review of policy/documentation and the inmate discipline process, as well as staff and inmate interviews.

AD 04.01.301, Sexual Abuse and Harassment Prevention and Intervention Program; ID 04.01.301, Offender Sexual Assaults-Prevention and Intervention; DOC 0372, Mental Health Screening Form; PREA Checklist and Authorization for Release of Offender Mental Health or Substance Abuse Treatment Information Form address the requirements of this standard. Interviews with medical and specialized staff confirm the institution has a very thorough system for collecting medical and mental health information and has the capacity to provide continued re-assessment and follow-up services. Inmates who disclosed prior victimization during screening were offered a follow-up meeting with a medical or mental health practitioner. Additionally, inmates who have previously perpetrated sexual abuse, as indicated during the screening, were offered a follow-up meeting with a mental health practitioner. Treatment services are offered without financial cost to the inmate. This was confirmed by observation and a review of intake screening documents. Screening for prior sexual victimization in any setting is conducted by medical, mental health and case management staff during in-processing procedures. In-processing procedures also screen for previous sexually assaultive behavior in an institutional setting or in the community. During the intake process a mental health staff member and a medical provider separately interview the incoming inmate. During this process mental health staff offer follow-up meetings with inmate that have history of sexual abuse or are identified as a sexual predator. Staff members ensure that the inmate is offered a follow-up meeting with a mental health practitioner within 14 days of the intake screening. Information related to sexual victimization or abusiveness is limited to medical and mental health practitioners and other staff with a need-to-know for treatment plans, security, housing, work, program assignments and management decisions. Mental Health and Medical Staff notify offenders of their duty to report allegation of sexual abuse prior to their initial screening and medical reviews. Signed and dated informed consents are obtained from inmates before reporting prior sexual victimization which did not occur in an institutional setting.

The institution does not house inmates under the age of 18. All screenings are recorded in the Medical and Mental Health inmate records. All information is handled confidentially and interviews with intake screening staff support a finding that the facility is in compliance with this standard. Compliance was confirmed by a review of policies and intake screening documents, as well as interviews with three inmates who self-identified as having experienced prior victimization during intake. Compliance was determined by review of the screening instrument, interviews with inmates, medical and mental health staff.

### Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

**Instructions for Overall Compliance Determination Narrative**

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. This is the third PREA audit of this facility. The previous PREA audit was in December 2017. The auditor was allowed access to all areas of the facility and had access to all required supporting documentation. The auditor was able to conduct private interviews with both inmates and staff. All Illinois facilities have received at least one PREA audit since August 20, 2012. At least one-third of all Illinois facilities were audited during the one-year period after August 20, 2012 until this audit cycle. Due to the pandemic and Governor’s proactive plan to protect the offenders and staff from the pandemic most audits were postponed and did not meet the one third threshold established by the PREA Standards. The auditor was provided supporting documentation before and during the audit. Notifications of the audit posted throughout the facility to allow inmates to send confidential letters to the auditor prior to the audit. There was one correspondence from inmates or staff after the onsite audit period. By chance, the offender was interviewed as a target population.

**All Yes/No Questions Must Be Answered by the Auditor to Complete the Report**

**115.403 (f)**

- The agency has published on its agency website, if it has one, or has otherwise made publicly available, all Final Audit Reports. The review period is for prior audits completed during the past three years PRECEDING THIS AUDIT. The pendency of any agency appeal pursuant to 28 C.F.R. § 115.405 does not excuse noncompliance with this provision. (N/A if there have been no Final Audit Reports issued in the past three years, or in the case of single facility agencies that there has never been a Final Audit Report issued.)  Yes  No  NA

**Auditor Overall Compliance Determination**

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

## Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

The institution has completed required corrective action plans to comply with the PREA standard. Presently the facility has fully implemented all policies, practices and procedures outlined in the PREA standards. The auditor reviewed applicable standards and, through the review of supporting documentation, interviews with staff and inmates and the observation of physical evidence, concluded that this facility fully meets and substantially complies in all material ways with the PREA standards for the relevant review period. The agency and facility's leadership are fully committed to eliminating sexual abuse/sexual harassment, as evidenced in the realistic staffing analysis and the recommendations for enhanced supervision techniques. Substantiated allegations of abuse are processed in accordance with the standards, to include incident reviews, disciplinary actions, if required, and outcome notifications.

PREA training for staff and inmates is documented and all stakeholders receive the appropriate level of training and are knowledgeable of the intent of the PREA and the tools available to ensure prevention, detection, reporting and response to sexual abuse incidents. Sexual abuse and victimization propensity screening is well established and tracked in an organized fashion. Referrals for mental health counseling are integrated in the intake and allegations of sexual abuse processes. Medical networks for the inmates are established in the community. The public has access to reporting mechanisms and PREA trends data via the website. The Hill Correctional Center currently meets or exceeds all applicable PREA standards.
