Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

Pre-Onsite Audit Phase

Logan Correctional Center (LGCC) is an adult female institution located in Logan, IL approximately 30 miles north of Springfield. LGCC was originally constructed in 1920 as a mental health facility and converted to an adult correctional center in December of 1977. In March of 2013, Logan converted to a multi-security level female facility. LGCC houses maximum, medium and minimum-security offenders and serves a multifaceted population consisting of reception and classification, segregation, protective custody and mental health units as well as a state-of-the-art medical facility designated to provide care to pregnant and critically or terminally ill female.

The notification of the on-site audit at Logan Correctional Center (LGCC) was posted on October 24, 2018, six weeks prior to the date of the onsite audit. The posting of the notices was verified by photographs received electronically from the Facility PREA Compliance Manager (FPCM). The photographs provided with the Pre-Audit information indicated notices were posted strategically throughout the facility, accessible to inmates, staff, visitors, contractors, and volunteers. The auditor noticed that the notifications were placed in the lobby, hallways, living units, and common areas. The posted audit notices contained the Auditor's contact information and included information regarding confidentiality. The notice was posted in English and Spanish and at eye levels easy for a person to see either standing or sitting. All inmates in the facility during the time of the site visit spoke and read English. No correspondence was received during any phase of the audit.

Prior to the auditor's onsite visit to the facility, the auditor worked with the APC in developing and completing the Pre-Audit Questionnaire (PAQ). This document identified the minimum information and supporting documents that the facility should submit to the auditor before the onsite audit begins. The LGCC PAQ was received on November 7, 2018, and included policies, procedures and supporting documentation which was within an adequate timeframe for review. The completed PREA Pre-Audit Questionnaire, policies and procedures, and supporting documentation were uploaded to a flash drive and mailed to the Auditor. This flash drive was received by the Auditor well over a month before the site visit.

An initial assessment was conducted of the information provided and it was determined the information was provided in detail on the flash drive. The documentation on the flash drive was well organized by each standard, including the identified provisions of each standard. Additional information requested during the site visit was provided or explained by the Warden.

The FPCM had been previously provided a document by the Auditor titled, "Information Requested to Determine Staff and Inmates to be interviewed during the On-site PREA Audit." The document was completed and provided the Auditor onsite. The document requested the identification of the staff members who served and performed in specific PREA related specialized roles within the facility, including volunteers and contractors who have contact with inmates. The document requested a list of security staff and their shift assignments and an inmate population roster. Additionally, the request included information regarding inmates who may be in vulnerable categories such as disabled; limited

English proficient; intersex, gay, lesbian, bisexual and/or transgender inmates; and inmates housed in isolation.

The Auditor reviewed the lists/documents provided and conferred with the FPCM in development of the interview schedule to ensure clarity regarding specialized PREA roles among staff. The Auditor communicated with the FPCM to confirm schedules and to clarify specialized PREA roles. A current inmate roster was also provided to the Auditor. As a result of the information received, the Auditor developed an interview schedule of specialized and random staff and inmates, including targeted inmate interviews. The facility provided the lists and information before or during the site visit that assisted with the following determinations and interview selections:

Lists/Information	Comments
Complete Inmate Roster	An up-to-date roster was provided on the day of the site visit.

Internet research of the facility revealed no indication of litigation, U. S. Department of Justice involvement, or federal consent decrees. General and specific information about the facility and the programs and services provided are detailed on the facility’s website. An array of information, pictures of the facility and contact information may be accessed from the informative page. The facility’s website also contains PREA information including but not limited to the zero-tolerance and coordinated response policies. The PREA audit report for the initial audit in 2016 is located on the website and it also contains the third-party reporting form.

Onsite Audit Phase

The on-site visit was conducted December 5-7, 2018 by Dwight L. Fondren (Auditor). The Auditor arrived onsite during the early morning hours in order to interview some staff members on the overnight shift and observe early morning operations. LGCC random staff members working the overnight shift were interviewed immediately upon the Auditors' arrival to the facility to reduce the accrual of overtime hours. Once the interviews were completed, an entrance conference was conducted. In addition to the Auditor, the entrance conference included the Warden, the APC, the Mental Health Programs Administrator, and the FPCM. During the conference the Auditor discussed the information contained in the PAQ. Formal introductions were made and a review of the audit process, site visit activities and the itinerary. Site review Instructions were covered to include a description of the areas of the facility to be toured; operations and practices to be observed; and questions that should be asked of staff and inmates to conduct a thorough site review. Additionally, interview protocols to be used by the Auditor to interview staff and inmates as part of the audit were discussed. Required documentation, relevant observations, the interview protocols, and the audit compliance tool were used to establish evidence of standard compliance. At the time of this audit, the facility employed 504 staff and the inmate population was 1702.

Upon completion of the entrance conference, a comprehensive site review of the facility was conducted and led by the Warden. The tour included all areas of the facility. The staff was observed providing direct supervision to the program inmates. During the pre-audit phase, the Auditor was provided a diagram of the physical plant which provided familiarity with the layout of the facility. The tour of the facility was conducted by the FPCM and we were accompanied by the APC. The facility is clean, in good repair, and well maintained. The facility is comprised of 52 buildings contained on 150 acres of land with 57 acres enclosed by a security fence. The majority of the 61 buildings used at LGCC were constructed prior to the facility becoming an adult prison with the exception of the 448 bed X-House (Reception and Classification), the Health Care Unit/Infirmary, and the Dietary building. The X-house was constructed in 1995 and the HCU/Dietary buildings were constructed in 2005. Logan's living units consist of seven E-style units, three C-style units, one X-house, a segregation unit and a 15-bed infirmary health care unit. The PREA Audit notice was posted on the bulletin boards in various hallways. Posters containing the PREA hot-line number are prominently posted in the main lobby area and hallways. The notices contained large enough print to make them accessible and easy to see and read and in English and Spanish. Posted signs were observed regarding general PREA information including emergency and non-emergency numbers for assistance. The posted information included instructions on accessing the 24/7 hotline for reporting allegations and requesting advocacy services.

Questions were answered by staff during informal interviews regarding inmate activities and program services as the site review progressed throughout the facility. The site visit also included the outside grounds. In addition to the Warden, designated staff monitors the camera system in the master control room on a twenty-four-hour basis. Telephones were observed in the housing units which were available for legal and personal contacts as well as reporting allegations of sexual abuse and sexual harassment. A physical test and observation indicated that the telephones were in working order. The reporting process was discussed during the site review. Directions for accessing the crisis hotline were posted and included the limitations of confidentiality. Male and Female staff are required to knock on entrance doors to alert the inmates that opposite gender staff were making rounds/inspections or entering the unit. Signs were observed in the detention area during the site review. Visibility is enhanced with the strategic use of cameras, mirrors and windows in doors. There are no cameras in bathrooms and reasonable privacy is provided to inmates when they use the toilet, change clothes and shower. In addition to staff explaining to each inmate during intake, the shower procedures are printed and posted at the entrance of the bathroom.

Medical Request Forms, grievance forms, and the locked boxes for each are posted in a common area, accessible to all inmates and designated staff. All inmates have access to writing utensils needed for

completing the forms. Signage was posted which indicated where inmates were not allowed or only allowed with staff supervision. The doors to closets and storage rooms are kept locked.

A letter of Agreement exists with The John Howard Association to receive allegations of sexual abuse and sexual harassment and for the provision of advocacy services upon request. A Program Representative was interviewed by phone and confirmed the advocacy services to be provided in accordance with the agreement. Documentation and interviews with the Nurse and Medical providers at Decatur Hospital confirmed forensic medical examinations will be performed at Hospital and Clinics. The hospital's Sexual Assault Policy provides that a Sexual Assault Nurse Examiner (SANE) will conduct the examinations. According to the Hospital's written Policy, when a SANE is not available, the Emergency Department Physician and Emergency Department Nurse will assume care of the patient and follow the protocols outlined in the Policy.

Interviews

The Logan Correctional Center employs 504 staff, 148 contractors and uses the services of 320 volunteers to assist in facility programs. The population at the start of the audit was 1702. A number of LGCC staff provides dual services and roles in the management of the PREA Programs. A total of 70 staff were interviewed to include the Warden; security staff (from all three 8-hour shifts); two administrative staff; 8 contract staff, 55 specialized staff, and 25 random staff. The random staff members interviewed covered all shifts and specialized staff members interviewed based on their job duties and PREA roles. Although 55 individuals were identified for specialized interviews, the specialized interviews conducted included staff members in this category serving in more than one PREA related specialized role. The interviews with staff and contractor indicated their receipt of PREA training which was also verified by a review of documentation, including training materials. Staff interviews conducted by the Auditor were done in the privacy of a conference room.

During this process the Auditor did not limit the interview questions to only those included in the protocols; rather, additional site specific questions were asked to use as a starting point for eliciting information about the facility's compliance with the PREA Standards. All Responses to the interview questions were part of the auditor's compliance assessment. There are no on-site medical providers at the center. Inmate interviews support staff's compliance with the facility's prohibition of cross-gender viewing and pat searches. This Auditor was provided evidence to ensure compliance to the PREA as documented in this report.

Onsite Documentation Review

The Auditor received many examples of documentation from inmate and staff files as part of the Pre-Onsite Audit Phase. During the pre-onsite audit phase and the onsite audit phase the auditor reviewed a sample of personnel files of the staff selected to be interviewed, including documentation of criminal background checks occurring. The PREA Pre-Audit Questionnaire and facility policies, procedures and supporting documentation were reviewed prior to the site visit and while onsite for interviewees and persons not interviewed. The secondary documentation reviewed included, but was not limited to, Vulnerability Assessments, Grievance Form, Medical Request Form, PREA education and training acknowledgement forms, training records, checklists, sexual abuse coordinated response plan, annual staffing plan assessment, staff schedules, unannounced rounds reports, retaliation monitoring form, organization chart, and other documentation. The facility reports there were 78 allegations of sexual abuse or sexual harassment in the past 12 months.

After the completion of the site visit process, an exit briefing was held in the conference room. The attendees were the Warden, AWP, the APC, FPCM, Chief of Investigations, Mental Health Administrator and the Auditor. The exit briefing served to review the onsite process and review program strengths. The attendees were given the opportunity to ask additional questions about the activities of the day and the shared information. The time table for the submission of PREA Report was discussed as well.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, inmate or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

Logan Correctional Center (LGCC) is an adult female institution located in Lincoln, IL approximately 30 miles north of Springfield. LGCC was originally constructed in 1920 as a mental health facility and converted to an adult correctional center in December of 1977. In March of 2013, Logan converted to a multi-security level female facility. LGCC houses maximum, medium and minimum-security offenders and serves a multifaceted population consisting of reception and classification, segregation, protective custody and mental health units as well as a state-of-the-art medical facility designated to provide care to pregnant and critically or terminally ill female offenders.

The mission statement and vision of the Illinois Department of Corrections is to protect the public from criminal offenders through a system of incarceration and supervision, which securely segregates offenders from society, assures offenders of their constitutional rights and maintains programs to enhance the success of offenders' re-entry into society. It is the mission of the Logan Correctional Center to provide appropriate custodial care and a continuum of programs and services for the female offender in a safe and humane environment. The center's goal is to address the special needs of the female offender, as well as provide education, vocational, and industrial-based programming that will enhance and support skill building within an entrepreneurial approach. The center's mission is to provide independence for the female offender and her dependents.

Logan Correctional Center sits on 150 acres with 57 acres enclosed by a security fence. The majority of the 61 buildings used at LGCC were constructed prior to the facility becoming an adult prison with the exception of the 448 bed X-House (Reception and Classification), the Health Care Unit/Infirmary, and the Dietary building. The X-house was constructed in 1995 and the HCU/Dietary buildings were constructed in 2005. Logan's living units consist of seven E-style units, three C-style units, one X-house, a segregation unit and a 15-bed infirmary health care unit.

The average age of offender at Logan is 37 years old. The average length of stay is 24 months. The Logan Correctional Center employs 237 staff, 39 contractors and uses the services of 77 volunteers to assist in facility programs. The population during the audit was 1715. The facility has an operational population capacity of 1019. The facility does not house males or youthful offenders less than 18 years of age. On average, 45% of the population is Caucasian and 45% is Black with 10% other (Hispanic, Asian or Native American). Nearly 60% of Logan's population is incarcerated for a low-level crime causing 45% of the population to be incarcerated for less than 12 months and 64% to be incarcerated for less than 2 years. Nearly 70% of Logan's population is currently receiving mental health services with one third of those being designated as seriously mentally ill. The prison has undergone no significant expansions, modifications, or upgrades since the initial construction. The LGCC had previously been accredited by the American Correctional Association, but that status had expired due to financial considerations.

The health care unit serves the offender population by addressing all medical, dental and mental health needs, with licensed professionals. Offenders with on-going health problems are assigned to chronic clinics, which assures proper monitoring and treatment of their medical needs. Programming and services offered by facility mental health professionals includes individual and group counseling. Medical care is provided twenty-four hours a day, seven days per week. Outside medical and emergency care is available at Decatur Memorial Hospital of Decatur, Illinois, which is approximately 30 miles from the facility.

Offenders are provided work assignments that include Food Service, Mechanical Services, Health Services, and Education/Recreation, Laundry and unit orderlies. Offenders are offered opportunities to participate in educational programs such as ABE (Adult Basic education), Pre GED and GED (General Education Development). Offenders are provided the opportunity to participate in the practice of their faith and access to leisure and law libraries as well as a wide variety of recreational programs.

The auditor concluded, through interviews and the examination of policy and documentation, that all staff were knowledgeable concerning their responsibilities involving PREA. Staff were able to describe in detail their specific duties and responsibilities, including being a "first responder". During the interviews, offenders stated that staff was respectful and that they felt safe at the facility. Staff was observed to be interacting with offenders in a positive and helpful manner.

Provision (a):

An agency shall have a written policy mandating zero-tolerance toward all forms of sexual abuse and sexual harassment and outlining the agency's approach to preventing, detecting, and responding to such conduct.

The facility Policy mandates a zero-tolerance policy toward all forms of sexual abuse and sexual harassment. The policy outlines the facility's approach to preventing, detecting, and responding to such conduct. The policy includes definitions of prohibited behaviors regarding sexual abuse and sexual harassment and includes sanctions for those found to have participated in prohibited behaviors. The Policy provides for the appointment of a PREA Coordinator by the Warden.

The Policy addresses detection of sexual abuse and sexual harassment through inmate education, staff training, and intake screening for risk of sexual victimization and abusiveness. The Policy includes, but is not limited to, responding to sexual abuse and sexual harassment through reporting, investigations, assessments, crisis intervention, and disciplinary sanctions for inmates and staff.

Provision (b):

An agency shall employ or designate an upper-level, agency-wide PREA Coordinator with sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in all of its facilities.

The Facility Policy indicated a designated position, Facility PREA Compliance Manager (FPCM). The organization chart shows the FPCM reports directly to the Warden as confirmed by staff interviews. The interview with the Warden and the FPCM, and observations, revealed that they have the time and authority to perform their PREA duties.

The evidence shows the Agency has designated an upper-level position of PREA Coordinator as verified through the organization chart; Policy; Job Description; review of the PREA Pre-Audit Questionnaire; and the interviews with the Warden and random staff. The FPCM has demonstrated that there is sufficient time and authority to accomplish the PREA related responsibilities.

Provision (c):

Where an agency operates more than one facility, each facility shall designate a PREA compliance manager with enough time and authority to coordinate the facility's efforts to comply with the PREA standards.

LGCC does not contract with another facility to house its inmates, according to the Policy and interview with the Warden.

Conclusion:

Based upon the review and analysis of the available documentation, the Auditor has determined the facility is compliant with this standard requiring a zero-tolerance policy toward sexual abuse and sexual harassment and the designation of a PREA Coordinator.

Standard 115.12: Contracting with other entities for the confinement of inmates

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. The agency meets the mandates of this standard. A review of the documentation and an interview with the Assistant PREA Coordinator confirmed the IDOC requires other entities contracted with for the confinement of offenders to adopt and comply with the PREA standards. The state contractual

agreements have been modified to incorporate the language requiring the contractor to adopt and comply with PREA standards. The Auditor reviewed the State of Illinois Standard Contract for Confinement of Offenders, Section 1.3.1.9, page 11, which mandates that the Vendor comply with the PREA of 2003 and the National Standards to prevent, detect and respond to prison rape as contained in 28 CFR, part 115.

Facility Policy provides details for maintaining the staffing ratios. The staffing plan for LGCC mandates three staff members per shift. The weekly schedule reviewed indicated that the 1st shift has three staff members, 2nd shift has three to six staff members, and 3rd shift has three to four staff members. PREA training is required of all new hires, as well as PREA refresher courses provided throughout the year to better ensure inmate safety. The facility has 500 cameras located throughout the facility monitoring system. Camera locations include Gym, Housing Units, Health Care. The camera system is monitored

constantly, and the provisions of the standard are taken into consideration regarding adequate staffing levels as confirmed through the interview with the Warden and review of staffing plan and observations. The work schedules are based on the staffing plan and facility policy.

Provision (b):

The agency shall comply with the staffing plan except during limited and discrete exigent circumstances and shall fully document deviations from the plan during such circumstances.

AD 04.01.301, Sexual Abuse and Harassment Prevention and Intervention Program; ID 04.01.301, Sexual Abuse and Harassment Prevention and Intervention Program and the Agency and facility organizational charts meet the mandates of this standard. Interviews with the Warden and Human Resource Manager revealed compliance with the PREA and that the elements listed in the standard, as well as other safety and security issues are always a primary focus when they consider and review their respective staffing plan. Cameras are located throughout the facility to assist with effective. Although video monitoring systems are considered at staffing meetings and a proposal has been submitted for various monitoring devices to be purchased and installed in additional areas of the facility. Sufficient staff are currently assigned to each shift to ensure the safety of both offenders and staff. The facility reviews the staffing plan at least annually and the staff complement is adequate. There have been no instances where the staffing plan was not complied with. Documentation of unannounced rounds covering all shifts by administrative staff was reviewed. Interviews with higher level facility staff confirmed unannounced rounds to all areas of the institution are conducted on a weekly basis, with no warning to staff.

The facility Policy states if the staffing ratio is unable to be maintained during exigent circumstances, the deviation must be documented. The facility documents that there have been no deviations to the staffing plan in the past 12 months. The facility is prepared to document any deviations from the staffing plan.

Provision (c):

Whenever necessary, but no less frequently than once each year, for each facility the agency operates, in consultation with the Warden required by § 115.311, the agency shall assess, determine, and document whether adjustments are needed to:

- (1) The staffing plan established pursuant to paragraph (a) of this section;
- (2) Prevailing staffing patterns;
- (3) The facility's deployment of video monitoring systems and other monitoring technologies; and
- (4) The resources the facility has available to commit to ensure adherence to the staffing plan.

LGCC PREA Policy provides, at the least, an annual assessment of the staffing plan is conducted. The Staffing Plan Assessment is conducted annually with the latest being conducted in January 2018 and is signed by the Warden. The document reviews but is not limited to the following areas prevailing staffing patterns; deployment of video monitoring system; and occurrence of unannounced rounds. Facility Design and Technology provides that administration in conjunction with the WARDEN assess the video monitoring system at least annually and document the assessment.

LGCC has a policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. Such policy and practice shall be implemented for night shifts as well as day shifts. The policy prohibits staff from alerting other staff members that these supervisory rounds are occurring, unless such announcement is related to the legitimate operational functions of the facility. A review of a sample of documented unannounced rounds support unannounced rounds are conducted by intermediate level and higher-level staff and by Supervisors for each shift at the various times as determined by a review of documentation and interviews. The unannounced rounds conducted by administrative staff are documented on the Unannounced Visit Summary Form. The Unannounced Supervisor Rounds

checklist is used by shift Supervisors. Areas assessed during the unannounced rounds by the administrative staff includes all areas of the facility such as all living units; common area; staff break room; gymnasium; and classrooms. The Supervisors' unannounced rounds include all living units and provides for comments regarding mood, demeanor and interactions. The interview with the Warden and policy review indicated how they ensure that staff does not alert other staff when unannounced rounds are conducted. Staff members are not informed of the unannounced rounds and there is not a routine schedule regarding the rounds. Staff members are encouraged not to alert other staff members regarding the unannounced visits.

Conclusion:

Based upon the review and analysis of the available evidence, the Auditor has determined the facility is following this standard regarding supervision and monitoring.

Provision (a):

The facility shall not conduct cross-gender strip searches or cross-gender visual body cavity searches (meaning a search of the anal or genital opening) except in exigent circumstances or when performed by medical practitioners.

LGCC PREA Policy on Limits to Cross Gender Viewing and Searches prohibits cross-gender strip searches and cross-gender visual body cavity searches. There is no evidence of cross-gender strip searches or cross-gender visual body cavity searches occurring at the facility. Based on the review of the Pre-audit questionnaire and according to the Warden, no such searches have been conducted.

Provision (b):

The agency always refrains from conducting cross-gender pat-down searches of female inmates, except in exigent circumstances. In addition, the agency shall always refrain from restricting female inmates' access to regularly available programming or other outside opportunities in order to comply with this provision.

LGCC PREA Policy provides that staff will only conduct cross-gender pat-down searches of females only in exigent circumstances. Additionally, the search must be approved by the Warden and the justification for the search must be documented. The facility provides training on how to conduct these searches in exigent circumstances using training curricula. Staff participation in the training is recorded with training sign-in sheets and training acknowledgement statements. Staff interviews confirmed they are aware of the restriction of conducting cross-gender pat-down searches except in exigent circumstances.

Interviews with Staff indicated that cross-gender pat-down searches have not occurred at the facility, but the facility is prepared for them to be conducted in exigent circumstances. Based on the review of the Pre-audit questionnaire; and staff interviews; training sign-in sheets; and training acknowledgement statements, the facility follows this provision of the standard.

Provision (c):

The facility shall document and justify all cross-gender strip searches, cross-gender visual body cavity searches, and cross-gender pat-down searches.

The Policy prohibits cross-gender strip searches and cross-gender visual body cavity searches. Cross-gender pat-down searches may be conducted only in exigent circumstances which random staff interviews summarized as an extreme emergency. The Policy indicates that in the event a cross-gender search is warranted pursuant to an emergency circumstance, it must be approved by the Warden and the justification for the search documented. Such searches will be documented on a form currently used for all searches which have been used for same sex searches. The form requires the staff to

record the reason for the search. The evidence shows the facility is prepared to document and justify all cross-gender pat-down searches. Based on the review of the Pre-audit questionnaire and the Inmate Pat Down Searches & Control of Contraband Accountability Form, staff and inmate interviews, and staff training materials, the facility follows this provision of the standard.

Provision (d):

The facility shall implement policies and procedures that enable inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Such policies and procedures shall require staff of the opposite gender to announce their presence when entering a inmate housing unit. In facilities (such as group homes) that do not contain discrete housing units, staff of the opposite gender shall be required to announce their presence when entering an area where inmates are likely to be showering, performing bodily functions, or changing clothing.

LGCC PREA Policy states the facility will enable inmates to shower, perform bodily functions, and change clothes without non-medical staff of the opposite gender viewing them except in exigent circumstances or during routine room checks. Staff members of the opposite gender are required to knock and/or announce themselves upon entering the unit. This practice was confirmed through observation of signage indicating such and interviews with staff. The evidence shows inmates can shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia. Based on the review of the documentation, staff interviews, and observations, the facility follows this provision of the standard. Additionally, viewing of the cameras and staff interviews confirmed that inmates are not directly viewed by staff when showering, using the toilet or changing clothes.

Provision (e):

The facility shall not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. If the inmate's genital status is unknown, it may be determined during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner.

LGCC Policy prohibits the search of transgender or intersex inmates solely for the purpose of determining the inmates' genital status. Staff interviews verified no such searches have occurred in the past 12 months. According to the Policy, if the inmate's genital status is unknown, it may be determined during conversations with the inmate, by reviewing medical records, or by learning that information as part of a broader medical examination conducted in private by a medical practitioner. One hundred percent of LGCC staff received the training on conducting cross-gender pat-down searches and searches of transgender and intersex inmates. Staff interviews confirmed they are aware facility policy prohibits them from conducting a physical examination of transgender or intersex inmate solely for the purpose of determining the inmate's genital status. Based on the documentation reviewed and staff interviews, the facility meets this provision of the standard.

Provision (f):

The agency shall train security staff in how to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs.

LGCC PREA Policy states that staff shall be trained in how to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. The documentation and staff interviews support the training is conducted at least annually. Training participation is documented with

sign-in sheets and training acknowledgement forms. The evidence shows staff are trained in how to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs.

Conclusion:

Based on the reviewed documentation and interviews, the facility follows this provision of the standard.

Provision (a):

The agency shall take appropriate steps to ensure that inmates with disabilities (including, for example, inmates who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Such steps shall include, when necessary to ensure effective communication with inmates who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the agency shall ensure that written materials are provided in formats or through methods that ensure effective communication with inmates with disabilities, including inmates who have intellectual disabilities, limited reading skills, or who are blind or have low vision. An agency is not required to take actions that it can demonstrate would result in a fundamental alteration in the nature of a service, program, or activity, or in undue financial and administrative burdens, as those terms are used in regulations promulgated under Title II of the Americans With Disabilities Act, 28 *CFR* 35.164.

The facility Policy addresses the provision of support services for disabled inmates by providing these inmates the equal opportunity to participate in or benefit from all aspects of the facility's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. The Policy prohibits use of inmate interpreters, inmate readers, or other types of inmate assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate's safety, performance of first responder duties, or the investigation of the allegations. Staff interviews and an interview with a contractor confirmed this information. During inmate interviews the accommodations of transcribed and narrated educational material, particularly, textbooks for visually impaired inmate were discussed. The interview revealed inmates understanding of the PREA information.

Provision (b):

The agency shall take reasonable steps to ensure meaningful access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient, including steps to provide interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary.

A language line Solution is available and can be accessed by staff 24/7. The Inmate Handbook is in English and Spanish. The evidence shows inmates with disabilities and who may be limited English

proficient are provided equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. All staff interviewed confirmed inmates are not used as interpreters and understand prior arrangements have been made regarding language interpreters. The Inmate Handbook is printed in English and Spanish. The PREA audit notice was printed in English and Spanish. The evidence shows the facility ensures access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient, including taking steps to provide interpreters who can interpret effectively, accurately, and impartially, using any necessary specialized vocabulary.

Provision (c):

The agency shall not rely on inmate interpreters, inmate readers, or other types of inmate assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate's safety, the performance of first-response duties under § 115.364, or the investigation of the inmate's allegations.

According to American Sign Language Video Remote Interpretation Procedure; the facility prohibits the use of inmate interpreters, inmate readers or any kind of inmate assistants except when a delay in obtaining interpreter services could jeopardize an inmate's safety, performance of the first responder duties, or the investigation of the allegation. Staff interviews confirmed inmates have not been used to relate PREA information to or from other inmates in the past 12 months. There were no inmates in need of an interpreter during the site visit.

Conclusion: Based upon the review and analysis of the evidence, the Auditor has determined the facility is compliant with this standard regarding inmates with disabilities and inmates who are limited English Proficient. Inmates with disabilities and who are limited English Proficient are provided equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment.

The agency shall also impose upon employees a continuing affirmative duty to disclose any such misconduct.

Facility Policy addresses hiring and promotion processes and decisions and background checks. The Policy is aligned with the requirements of the provisions of the standard and provides background checks occur prior to employment and every year thereafter. Initial background checks and annual checks were reviewed while on site. Additional personnel information reviewed during the pre-audit and the onsite audit phases included: Pre-Hire Interview Questions; New Hire Application Packet and Current Staff Applications. The interview with the Human Resource Specialist, Warden and a review of Policy, provided details about the hiring process, completion of background checks, and the grounds for termination in accordance with the PREA standard. According to the interview, staff has a continuing duty to report related misconduct and omission of sexual misconduct or providing false information will be grounds for termination. The forms completed and included in the personnel files are in response to the above provisions of this standard.

According to facility Policy, all applicants are asked about any prior misconduct involving any sexual activity. In addition, the IDOC and LGCC shall not hire or promote anyone who has been civilly or administratively adjudicated to have been convicted of engaging in or attempted to engage in sexual activity by any means. Also, the agency does not hire anyone who has engaged in sexual abuse in a prison, jail, community confinement facility, or anyone, who has used or attempted to use force in the community to engage in sexual abuse.

Provision (b):

The agency shall consider any incident of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with inmates.

The facility Policy states any incidents of sexual harassment by a staff member will be taken into consideration if the staff member is eligible for promotion. The interview with the Warden was aligned with the standard. The interview questions for employment also address previous misconduct. The evidence shows the facility considers any incident of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with inmates. Based on the review of the personnel files, records provided during the pre-audit phase, and the interview with the Warden, the facility follows this provision of the standard.

Provisions (c) & (d):

(c) Before hiring new employees or (d) contractors who may have contact with inmates, the agency shall:

- (1) Perform a criminal background records check;
- (2) Consult any child abuse registry maintained by the State or locality in which the employee would work;
- (3) Consistent with Federal, State, and local law, make its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse.

The agency policy requires background checks to occur prior to inmates receiving services from contractors and volunteers and confirmed by the Warden's interview. Additionally, best efforts should be made to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse. Based on the review of documentation and interview with the Warden, the facility follows this provision of the standard.

Provision (e):

The agency shall either conduct criminal background records checks at least every five years of current employees and contractors who may have contact with inmates or have in place a system for otherwise capturing such information for current employees.

The agency policy is aligned with the requirements of the provisions of the standard and provides background checks occur prior to employment and every five years thereafter. Initial background checks and five-year checks were reviewed while onsite and during the pre-audit phase. This was also confirmed during the Warden's interview. Based on the review of documentation and the interview, the evidence shows the facility practices are aligned with the provisions of this standard. The facility continuously monitors the background of employees through the computer criminal history check using the Law Enforcement Agencies Data System (LEADS). A tracking system is in place to ensure that the IDOC is informed of any employee arrests.

Provision (g):

Material omissions regarding such misconduct, or the provision of materially false information, shall be grounds for termination.

Facility Policy states material omissions regarding such misconduct, or the provision of materially false information, shall be grounds for termination. Based on the review of the documentation and the interview with the Warden, the evidence shows the facility follows this provision of the standard. AD 03.02.100, Administrative Review of Personnel Issues and AD 01.02.107, Background Investigation address the requirements of the standard. All employees, contractors and volunteers who have regular contact with offenders have criminal background checks completed by the IDOC's Background Investigations Unit prior to having contact with offenders.

Provision (h):

Unless prohibited by law, the agency shall provide information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer for whom such employee has applied to work.

The interview with the Warden confirmed the facility would provide this information if requested to do so. Facility Policy also states the information would be provided when requested unless it is prohibited by law to provide the information. All applicants are asked about prior misconduct and are required to certify and confirm by signing a Prison Rape Elimination Act Pre-Employment Self-Report (DOC Form 0450). Employees have a duty to disclose any such misconduct. Material omissions regarding such misconduct, or the provision of materially false information, are grounds for termination. Provisions (a) & (b):

(a) To the extent the agency is responsible for investigating allegations of sexual abuse, the agency shall follow a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions. (b) The protocol shall be developmentally appropriate for inmates and, as appropriate, shall be adapted from or otherwise based on the most recent edition of the U.S. Department of Justice's Office on Violence Against Women publication, "A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents," or similarly comprehensive and authoritative protocols developed after 2011.

Agency policy, IDOC AD 04.01.301, Sexual Abuse and Harassment Prevention and Intervention provides for the uniform Protocols to be followed. The Protocol is outlined regarding appropriateness for youth and adults. The facility does not conduct criminal investigations. Referrals are made to Illinois State Patrol (ISP) who conducts the criminal investigations. Forensic medical exams, when needed, would be conducted at the Facility by the medical Director. However, when the Director is not available the exams would be conducted at St. John's/ Hospital in Springfield, Illinois. All Forensic exams would be conducted at no cost to the inmates. There were no forensic medical exams conducted during the previous 12 months. A review of a memo dated June 20, 2018 from the Prairie Center Against Sexual Assault verified the facility has an agreement with the Victim Support Services offering victim advocate services. Staff interviews confirmed an understanding of the facility's protocol for obtaining usable physical evidence if an inmate alleges sexual abuse and knowledge of the entities responsible for conducting investigations.

Provision (c):

The agency shall offer all inmates who experience sexual abuse access to forensic medical examinations whether on-site or at an outside facility, without financial cost, where evidentiary or medically appropriate. The Policy states forensic medical examinations will be conducted at St. John's Hospital in Springfield, Illinois who employs Sexual Assault Nurse Examiners (SANE) and Sexual Assault Forensic Examiners. The Sexual Assault Policy of the Hospital states that the medical forensic examination will be conducted by a SANE or SAFE. The facility Policy states that the services will be provided at no cost to the victim. The Nurse's interview was aligned with the facility Policy.

Provisions (d) & (e):

For the purpose of this standard, a rape crisis center refers to an entity that provides intervention and related assistance, such as the services specified in 42 U.S.C. 14043g(b)(2)(C), to victims of sexual assault of all ages. The agency may utilize a rape crisis center that is part of a governmental unit if the center is not part of the criminal justice system (such as a law enforcement agency) and offers a comparable level of confidentiality as a nongovernmental entity that provides

similar victim services. (e) As requested by the victim, the victim advocate, qualified agency staff member, or qualified community-based organization staff member shall accompany and support the victim through the forensic medical examination process and investigatory interviews and shall provide emotional support, crisis intervention, information, and referrals.

Allegations of sexual abuse that are criminal in nature are conducted by the ISP Division. The ISP Division is required to follow the agency protocol regarding sexual abuse/assault investigations. Agency policy, AD 01.12.112, Preservation of Physical Evidence and AD 01.12.120, Investigations of Unusual Incidents provides for the uniform Protocols to be followed.

Provision (h):

For the purposes of this standard, a qualified agency staff member or a qualified community-based staff member shall be an individual who has been screened for appropriateness to serve in this role and has received education concerning sexual assault and forensic examination issues in general.

Provision (a):

The agency shall ensure that an administrative or criminal investigation is completed for all allegations of sexual abuse and sexual harassment.

The Policy directs staff to report all allegations of sexual abuse and sexual harassment and to document the reports. Staff members are aware of the Policy requirements as verified through their interviews. The facility reports no allegations of sexual abuse and one allegation of sexual harassment. The facility Policy and the MOU ensures the cooperation between the facility staff and the ISP Division. Documentation reviewed from the ISP discusses the training and experience of investigators that may be assigned to conduct investigations.

Provision (b) and (c):

The agency shall have in place a policy to ensure that allegations of sexual abuse or sexual harassment are referred for investigation to an agency with the legal authority to conduct criminal investigations, unless the allegation does not involve potentially criminal behavior. The agency shall publish such policy on its website or, if it does not have one, make the policy available through other means. The agency shall document all such referrals. (c): If a separate entity is responsible for conducting criminal investigations, such publication shall describe the responsibilities of both the agency and the investigating entity.

Agency Policies Title 20 Illinois Administrative Code - Part 112, Internal Investigations detail a comprehensive set of procedures to ensure that administrative or criminal investigations are completed for all allegations of sexual abuse and sexual harassment. This policy describes the responsibilities of both the facility and the investigating agencies. This was verified in the interview with the Agency Head. If the allegation involves potentially criminal behavior, the Warden or designee shall contact local law enforcement. All incidents shall be documented in an Informational Incident Report. There were 13 PREA-related allegations made during the previous 12 months. Staff interviews and training documentation confirmed that all staff have been trained on their responsibilities as mandatory reporters and understand their responsibilities to report through local channels and/or local law enforcement (i.e., Illinois State Police) for sexual abuse incidents or suspicions.

The facility's website provides the information and related policies for reporting allegations of sexual abuse. A third-party reporting form is also on the website. Reporting information is also posted in various areas of the facility including but not limited to living units. The posted information is accessible to inmates, staff, contractors and visitors. Provision (d):

Any State entity responsible for conducting administrative or criminal investigations of sexual abuse or sexual harassment in confinement facilities shall have in place a policy governing the conduct of such investigations.

When required (criminal violation), the facility investigators refer sexual abuse investigations to the Illinois State Police, who follow the requirements of the standard. The Memorandum of Understanding clearly clarifies the responsibilities of both entities; the IDOC will investigate offender-on staff and offender-on-offender sexual assaults (unless criminal) and the ISP will conduct investigations involving staff-on-staff and staff-on offender sexual assaults (considered criminal).

Provision (e):

Any Department of Justice component responsible for conducting administrative or criminal investigations of sexual abuse or sexual harassment shall have in place a policy governing the conduct of such investigations.

When there is substantial evidence that a criminal act has taken place, the case is referred to the State's Attorney for possible prosecution. There have been no referrals in the past 12 months to the State's Attorney. Administrative and criminal investigations are completed on all allegations of sexual abuse/harassment, and facility investigators and the ISP are trained in conducting sexual assault investigations in confined settings/prisons. A review of documentation and staff interviews confirmed compliance to this standard.

Provision (a):

The agency shall ensure that all volunteers and contractors who have contact with inmates have been trained on their responsibilities under the agency's sexual abuse and sexual harassment prevention, detection, and response policies and procedures.

LGCC Policies require volunteers and contractors who have contact with inmates, be trained on PREA and their responsibilities regarding sexual assault prevention, detection, and response to allegations of sexual abuse and sexual harassment. A review of training records and interviews document the training occurs. All contractors and volunteers have received PREA training to include the agency's zero-tolerance policy, reporting and responding requirements. The training is documented and copies of training sign-in sheets and other related documents were reviewed by the Auditor. Interviews were conducted with one contract staff and one volunteer which revealed that they received the appropriate training. A review of documentation and staff interviews confirmed compliance to this standard.

Provision (b):

The level and type of training provided to volunteers and contractors shall be based on the services they provide and level of contact they have with inmates, but all volunteers and contractors who have contact with inmates shall be notified of the agency's zero-tolerance policy regarding sexual abuse and sexual harassment and informed how to report such incidents.

The interviews revealed the PREA training informs the participants of their role in reporting allegations of sexual abuse and sexual harassment. The participants are informed of their responsibilities regarding sexual abuse prevention, detection, and response to a PREA allegation. The training is based on the services provided by the contractors and volunteers. The contractors and volunteers also stated the training includes a review of the zero-tolerance policy regarding sexual abuse and sexual harassment of inmates.

Provision (c): The agency shall maintain documentation confirming that volunteers and contractors understand the training they have received.

The PREA Volunteer Guideline Agreement contains the information reviewed with the contractor and volunteer. The document also serves as the training acknowledgement statement containing the signature of the participant and the date, confirming their understanding of the PREA information.

Conclusion: Based upon the review and analysis of the available evidence, the Auditor has determined the facility is compliant with the provisions of this standard regarding volunteer and contractor training. LGCC Policy meets the requirements of the standard. The facility utilizes volunteers and contractors, who are required to complete the same comprehensive PREA training. The volunteer and/or contracted staff signs a Fundamental Practices Employee Agreement and Volunteer Guideline Agreement Documentation. The agreement form was all reviewed by this Auditor. Staff interviews and files verified the training completion.

Inmates receive directions on how to report allegations of sexual abuse and sexual harassment; and the right to be free from retaliation for reporting. According to the Warden and the inmates interviewed, an orientation is provided to inmates during the intake process. Policy provides that inmates receive a comprehensive age-appropriate PREA education session within 10 days of admission to the facility. The results of the staff and inmate interviews indicated the information provided to the inmates is comprehensive and age-appropriate.

The intake staff's interview revealed inmates are educated regarding their rights to be free from sexual abuse and sexual harassment, and to be free from retaliation for reporting such incidents. The PREA education sessions include a review of the Safety Brochure. The inmates sign acknowledgement statements confirming their receipt of the PREA information. A review of documentation showing dates

and indicating inmates' participation in PREA education sessions confirmed the PREA education sessions occur. The PREA-related information is provided to staff in policies and procedures, training and staff meetings.

Provision (c):

Current inmates who have not received education prior to arrival at the facility shall be educated within one year of the effective date of the PREA standards and shall receive education upon transfer to a different facility to the extent that the policies and procedures of the inmate's new facility differ from those of the previous facility.

The Intake staff was interviewed regarding PREA education for inmates transferred to LGCC. Available documentation reviewed indicated that inmates' receipt of the information, including the inmate signing the acknowledgement form.

Provision (d):

The agency shall provide inmate education in formats accessible to all inmates, including those who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to inmates who have limited reading skills.

Posted PREA information is in English and Spanish accessible to inmates, staff, contractors, volunteers, and visitors. Staff interviews confirmed inmates are not used as translators or readers for other inmates. Inmates with cognitive disabilities revealed and understanding of the PREA information provided.

Provision (e):

The agency shall maintain documentation of inmate participation in these education sessions.

A sample of signed acknowledgement statements were reviewed which supported the inmates' involvement in PREA education sessions. The inmates were aware of PREA information, including their rights regarding PREA, how to report allegations and that they would not be punished for reporting allegations of sexual abuse or sexual harassment. The PREA Compliance Manager was interviewed regarding PREA education for inmates. The PREA Compliance Manager ensures inmates' receipt of the information, including the inmate signing the acknowledgement form.

Provision (f):

In addition to providing such education, the agency shall ensure that key information is continuously and readily available or visible to inmates through posters, inmate handbooks, or other written formats.

The PREA education materials provide inmates information on how to report allegations of sexual harassment and sexual abuse. A brochure is provided to each inmate to eliminate incidents of sexual abuse and sexual harassment. The brochure provides educational information regarding sexual abuse and victims. The inmates revealed they can report allegations of sexual abuse or sexual harassment by telling a staff member; telling a family member who may report the allegation for them; access to the hotline to report allegations of sexual abuse or sexual harassment; or complete a grievance form. Each inmate is provided a Handbook and Safety Brochure. Posters were observed placed throughout the facility and were easy to see and read.

Conclusion:

Based upon the review and analysis of the available evidence, the Auditor has determined the facility is compliant with the provision of this standard. LGCC Policies on Offender Orientation and Training

address inmate orientation and education. During intake, all inmates receive an orientation that includes the PREA information relating to sexual misconduct and abusive sexual contact. The information is available in English and Spanish. Interpretive services for other languages are available, if needed. DOC 0372 Mental Health Screening Form

Interviews:

PREA Coordinator
Staff Responsible for Risk Screening
Inmates

Provision (a):

Within 72 hours of the inmate's arrival at the facility and periodically throughout a inmate's confinement, the agency shall obtain and use information about each inmate's personal history and behavior to reduce the risk of sexual abuse by or upon a inmate. The Policy provides a risk screening occurs within 72 hours upon arrival to the facility. The Intake Coordinator will interview the inmate at intake to obtain information about the inmate's personal history and behavior in order to reduce the risk of sexual abuse by or upon a inmate. The inmate's risk level is reassessed periodically.

Policy DOC 0372 addresses risk screening. All inmates are screened upon arrival for potential risk, utilizing the Admission and Placement Screening, which contains the elements required by the standard. If the result from the Risk Assessment Tool indicates a probability for victimization or sexually aggressive behavior and/or violent behavior, the inmates shall be assigned to an appropriate room close to staff posts. If the screening indicates that an inmate has experienced prior victimization or has previously perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, the intake staff shall offer the inmates a follow-up meeting with a facility Mental Health specialist. The follow-up shall be completed within 14 days.

The Intake staff also completes an inspection of any other medical and mental health screenings that may have been conducted, as well as conversations with the inmates during the admission process. Existing court records and case files are also consulted, if available. Policy requires intake staff, as part of the risk screening process, to attempt to ascertain information about any gender non-conforming appearance, mannerisms, or identification as LGBTQI.

All risk assessment documentation is securely maintained and accessible only on a need to know basis. Inmates are assessed as needed, at least every 30 days, and more specifically if an inmate makes an allegation of sexual abuse or harassment the entire screening is re-conducted. Files showed that all screenings were conducted within 24 hours of intake. Inmate interviews confirmed that they received a risk screening during the admission process. Interviews with Specialized Staff who perform the risk screenings confirmed the comprehensive nature of the screenings and how housing decisions were made.

Disclosure of prior victimization or perpetrated sexual abuse is addressed during the time of disclosure. The information is related to mental health personnel following the disclosure of the information. There was one inmate in the facility who had disclosed prior victimization. A review of documentation, interviews with inmates and staff confirmed the Vulnerability Assessment is administered. The information for the instrument may be obtained by asking questions from the form, medical and mental health screenings and other methods. All inmates interviewed could identify specific areas inquired about in the administration of the Vulnerability Assessment. Reassessments are conducted periodically. PREA Education and Screening log was reviewed and it is maintained indicating the administration of the initial assessment and the completion of the follow-up assessments.

Based on the review of the Pre-audit questionnaire, review of inmate records, interview with the staff responsible for risk screening, and inmate interviews, the evidence shows that inmate's risk levels are assessed during intake within 15 days of their arrival, but no later than 72 hours. Additionally, risk levels are reassessed periodically. The facility follows this provision of the standard.

Provision (b):

Such assessments shall be conducted using an objective screening instrument.

The Vulnerability Assessment is used to obtain the information required by the standard, including but not limited to prior sexual victimization or abusiveness; self-identification; current charges and offense history; intellectual or developmental disabilities; and an inmate's concern regarding his own safety.

The interview and review of Policy revealed how the objective instrument is administered to glean information to assist staff in keeping inmates safe. The responses on the instrument garner a score and the risk level is determined by definition and the corresponding number to that definition. The Policy states inmates will be screened within 72 hours of admission; however, interviews with inmates indicated it is also administered earlier. The facility provided the Auditor with examples of the screening tool. The PCM, responsible for monitoring risk screening, confirmed inmates are screened whether a new admission or transfer from another facility for risk of sexual abuse victimization or sexual abusiveness toward the other inmates. The risk screening occurs within 72 hours of intake, usually on the first day. Risk levels are reassessed periodically per the Intake staff and a review of documents.

All inmates interviewed entered the facility within the past 12 months. They confirmed they were asked questions like the following examples at intake: (1) Have you have ever been sexually abused? (2) Do you identify with being gay, bisexual or transgender? (3) Do you have any disabilities? (4) Do you think you might be in danger of sexual abuse at the facility?

Provision (c):

At a minimum, the agency shall attempt to ascertain information about: (1) Prior sexual victimization or abusiveness; (2) Any gender nonconforming appearance or manner or identification as lesbian, gay, bisexual, transgender, or intersex, and whether the inmate may therefore be vulnerable to sexual abuse; (3) Current charges and offense history; (4) Age; (5) Level of emotional and cognitive development; (6) Physical size and stature; (7) Mental illness or mental disabilities; (8) Intellectual or developmental disabilities; (9) Physical disabilities; (10) The inmate's own perception of vulnerability; and (11) Any other specific information about individual inmates that may indicate heightened needs for supervision, additional safety precautions, or separation from certain other inmates.

The Auditor reviewed the IDOC Sexual Assault Victim/Assailant Checklist (SAVAC) screening instrument and determined all factors required by this provision of the standard are included. The interview with the PREA Compliance Manager confirmed the awareness of the elements of the risk screening instrument. The inmate interviews also confirmed the administration of the screening instrument.

Provision (d):

This information shall be ascertained through conversations with the inmate during the intake process and medical and mental health screenings; during classification assessments; and by reviewing court records, case files, facility behavioral records, and other relevant documentation from the inmate's files.

The facility Policy states the information shall be ascertained through conversations with the inmate during the intake process and medical and mental health screenings; during classification assessments; and by reviewing court records, case files, facility behavioral records, and other relevant documentation from the inmate's file. The staff and inmate interviews are aligned with the Policy and this provision of the standard. The review of the instrument and interview with the PREA Compliance Manager responsible for risk screening confirmed the information is ascertained through conversations

with the inmates using the Vulnerability Assessment: Risk of Victimization and/or Sexual Aggression screening instrument. Inmate interviews also revealed the instrument is used. Additional screening instruments are used and based on the needs of the inmate.

Provision (e):

The agency shall implement appropriate controls on the dissemination within the facility of responses to questions asked pursuant to this standard in order to ensure that sensitive information is not exploited to the inmate's detriment by staff or other inmates.

The Policy provides for appropriate controls be taken to ensure that sensitive information is protected and not exploited. Interviews revealed the information is only available to the PREA Compliance Manager and the mental health staff. The documents are kept in the inmate's file in a locked file cabinet. The office is locked when unoccupied by the PREA Compliance Manager. The Auditor observed the files to be maintained in a secure manner. The evidence shows the facility follows this provision of the standard.

Conclusion:

Based upon the review and analysis of the available evidence, the Auditor has determined the facility is fully compliant with this standard regarding screening for risk of victimization and abusiveness.

Provision (a):

The agency shall use all information obtained pursuant to § 115.341 and subsequently to make housing, bed, program, education, and work assignments for inmates with the goal of keeping all inmates safe and free from sexual abuse.

The facility Policy provides guidance to staff regarding the use of the information obtained from the Vulnerability Assessment: Risk for Victimization and/or Sexual Aggressiveness. The staff interviews and information obtained through the administration of the screening instrument assist in determining bed, education and other program assignments with the goal of keeping all inmates safe and meeting the needs of each inmate. This information was verified through a review of specific samples of the aforementioned completed screening instrument. The facility also uses additional screening instruments.

Provision (b):

Inmates may be isolated from others only as a last resort when less restrictive measures are inadequate to keep them and other inmates safe, and then only until an alternative means of keeping all inmates safe can be arranged. During any period of isolation, agencies shall not deny inmates daily large-muscle exercise and any legally required educational programming or special education services. Inmates in isolation shall receive daily visits from a medical or mental health care clinician. Inmates shall also have access to other programs and work opportunities to the extent possible.

The Policy states any use of segregated housing to protect an inmate who is alleged to have suffered sexual abuse shall comply with § 115.342 and the provision (a). At no time will any client be denied any legally required educational programs, special education services, daily large-muscle exercise, or medical/mental health care. At-risk inmates may only be placed in isolation in an emergency situation, and only as a last resort if less restrictive measures are inadequate to keep the inmate safe.

No inmates at risk of sexual victimization were placed in isolation in the 12 months preceding the audit. The interview with the Warden confirmed the facility has not used isolation for this purpose. The policy is inclusive of this provision if there were to be an emergency situation. The use of isolation would be documented. The inmates' rights to daily large-muscle exercise and any legally required educational programming or special education services would be provided. Based on the review of the Pre-audit questionnaire, related documents and interview with the Warden, the evidence shows the facility follows this provision of the standard.

Provision (c):

Lesbian, gay, bisexual, transgender, or intersex inmates shall not be placed in particular housing, bed, or other assignments, solely on the basis of such identification or status, nor shall agencies consider lesbian, gay, bisexual, transgender, or intersex identification or status as an indicator of likelihood of being sexually abusive.

The Policy prohibits placing lesbian, bisexual, transgender, or intersex inmates in specific housing or making other assignments solely based on how the inmates identify or their status. The Policy prohibits staff from considering the identification as an indicator that these inmates may be more likely to be sexually abusive. During the comprehensive site review, there were no rooms observed to be reserved for transgender or intersex inmates. The restroom/showers were observed and were configured for a reasonable amount of privacy. A targeted inmate interview revealed there is no special housing based on how an inmate identifies, which was also supported by staff interviews and observations.

Provision (d):

In deciding whether to assign a transgender or intersex inmate to a facility for male or female inmates, and in making other housing and programming assignments, the agency shall consider on a case-by-case basis whether a placement would ensure the inmate's health and safety, and whether the placement would present management or security problems.

The Policy also provides that housing and program assignments for transgender or intersex inmates would be made on a case-by-case basis and these inmates would not be placed in particular or special housing which was evident from staff interviews. There were no transgender or intersex inmates in the facility during the site visit and this audit period. The PREA Compliance Manager's interview confirmed the facility would consider on a case-by-case basis whether a placement would ensure the inmate's health and safety, and whether the placement would present management or security problems.

Provision (e):

Placement and programming assignments for each transgender or intersex inmate shall be reassessed at least twice each year to review any threats to safety experienced by the inmate.

The Policy states placement and programming assignments for each transgender or intersex inmate shall be reassessed at least twice each year. This function would be done to review any threats to safety experienced by the inmate and the PREA Compliance Manager is aware of the requirement. The PREA Compliance Manager confirmed each transgender or intersex inmate would be reassessed at least twice each year to review any threats to safety experienced by the inmate. Based on the review of the Pre-audit Questionnaire and interview with the PREA Compliance Manager, the evidence shows the facility follows this provision of the standard.

Provision (f):

Transgender and intersex inmates shall be given the opportunity to shower separately from other inmates.

The Policy states transgender or intersex inmates shall be given the opportunity to shower separately from other inmates which is also supported by staff interviews. If an inmate is isolated pursuant to paragraph (b) of this section, the facility shall clearly document: (1) The basis for the facility’s concern for the inmate’s safety; and (2) The reason why no alternative means of separation can be arranged.

The Policy states if an inmate is isolated pursuant to part (B.2.) of this section, the facility shall document: (a.) The basis for the facility’s concern for the inmate’s safety; and (b.) The reason why no alternative means of separation can be arranged. Interviews with the Warden and APC confirmed the facility has not used isolation for this purpose. The policy is inclusive of this provision if there were to be an emergency. The Isolation/separation would be documented according to the provisions of the Policy and standard.

Every 30 days, the facility shall afford each inmate described in paragraph (h) of this section a review to determine whether there is a continuing need for separation from the general population.

The Policy states every 30 days, staff shall afford each inmate described in provision (b) of this section a review to determine whether there is a continuing need for separation from the general population. No inmates at risk of sexual victimization were placed in isolation in the 12 months preceding the audit. Interviews with the Warden and APC confirmed the facility has not used isolation for this purpose. The policy is inclusive of this provision if there were to be an emergency situation.

Conclusion:

Based upon the review and analysis of the available evidence, the Auditor has determined the facility is fully compliant with this standard regarding use of screening information. The facility uses information from the risk screening required by §115.341 to inform housing, bed, work, education, and program assignments with the goal of keeping all inmates safe and free from sexual abuse. The facility prohibits placing LGBTI inmates housing, bed, or other assignments solely on the basis of such identification or status and does not consider such identification or status as an indicator of likelihood of being sexually abusive. The facility is prepared to provide a safe and secure environment and follow all provisions of this standard.

Provision (a):

The agency shall provide multiple internal ways for inmates to privately report sexual abuse and sexual harassment, retaliation by other inmates or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents. LGCC policy covers this standard. For the reporting duties and confidentiality section A covers it. Inmates have several ways to report incidents. They also have established hotlines for both staff and inmates to use to report PREA incidents. The Auditor tried the phone number while on-site and it worked appropriately.

Facility Policy addresses this standard and provides for multiple internal ways an inmate may report allegations of sexual abuse and sexual harassment, including how they can privately report sexual abuse and sexual harassment; retaliation for reporting; and staff neglect or violations of responsibilities that may have contributed to such. Inmates may report allegations of sexual abuse or sexual harassment by telephone through the 24-hour hotline of an agency not a part of the facility as confirmed by inmate interviews, posters, staff, MOU, and posted phone instructions. LGCC staff interviews revealed inmates may use the telephone, located on each unit, to privately report sexual abuse and sexual harassment. The telephone was tested during the comprehensive site review and was found to be in working order.

The inmates also identified internal ways they could report such as completing a grievance form; talking to a trusted staff member; completing a Medical Request Form; or tell an outside person or family member. There are designated locked boxes and forms on the living units for depositing the written grievance forms. If an inmate uses a grievance form to report allegations of sexual abuse or sexual harassment, they just need to place their name on the form, check the appropriate space and place it in the grievance box.

All inmates receive a Safety Pamphlet and Inmate Handbook which provides PREA related information, including how to report allegations of sexual abuse. Posters are located in the living units and other areas visible to inmates, staff, contractors and visitors. Inmates revealed they have contact with someone who does not work at the facility such as a family member or other person they could report abuse to if needed. Staff members receive information on how to report allegations of sexual abuse or sexual harassment through policies and procedures, training, and staff meetings.

Provision (b):

The agency shall also provide at least one way for inmates to report abuse or harassment to a public or private entity or office that is not part of the agency and that is able to receive and immediately forward inmate reports of sexual abuse and sexual harassment to agency officials, allowing the inmate to remain anonymous upon request. Inmates detained solely for civil immigration purposes shall be provided information on how to contact relevant consular officials and relevant officials at the Department of Homeland Security.

A review of documentation and staff/inmate interviews indicated there are multiple ways (verbally, in writing, anonymously, privately and from a third party) for inmates to report sexual abuse/sexual harassment. LGCC inmates have an option to contact the John Howard Association (JHA) through written communications or the PREA Report Hotline to report an allegation of sexual abuse or harassment. JHA is a private entity and is not associated or otherwise connected to the IDOC.

Provision (c):

Staff shall accept reports made verbally, in writing, anonymously, and from third parties and shall promptly document any verbal reports.

LGCC requires all staff to report immediately, in accordance with LGCC Policy AD 04.01.301, any knowledge, suspicion, or information regarding an incident of offender sexual abuse or offender sexual harassment. All staff are required to report retaliation against offenders or staff who reported such an incident, and any staff neglect or violation of responsibilities that may have contributed to an incident or retaliation. The staff interviews confirmed the methods available to inmates for reporting allegations of sexual abuse and sexual harassment. Staff members are required to accept third-party reports and to document verbal reports. All inmates interviewed revealed they are familiar with the provisions of the standard. The inmate interviews demonstrated their familiarity with the various ways they may report either in person, in writing, by phone, completing a grievance or Medical Request Form, or through a third-party. The inmates were aware third-party reports could be made and that reports can be made anonymously. Staff members interviewed was aware of their duty to receive and document third-party reports.

The facility shall provide inmates with access to tools necessary to make a written report. Writing materials are readily available for inmates to complete the accessible forms. Prior to the site visit pictures were sent to the Auditor showing the reporting forms such as Grievance forms and Medical Request Forms and the accessibility of writing utensils. During the site visit and while on the site review, the Auditor observed the accessibility of writing utensils to the inmates.

Provision (d):

The agency shall provide a method for staff to privately report sexual abuse and sexual harassment of inmates.

The staff interviews revealed staff can privately report allegations of sexual abuse. The interviews collectively identified the following ways a report can be made privately: use of the telephone on the living units; use of telephone in an office; third-party reporting form online; report by email to administrative staff; and/or talk to supervisor in private. All information concerning an event of offender sexual abuse or sexual harassment is to be treated as confidential. Apart from reporting to designated supervisors or officials, staff shall not reveal any information related to a sexual abuse/harassment report to anyone other to the extent necessary, as specified in LGCC Policy AD 04.01.301, to make treatment, investigation, and other security and management decisions.

Conclusion:

Based upon the review and analysis of the available evidence, the Auditor has determined the facility is compliant with this standard regarding inmate reporting. The inmates have multiple internal ways to privately report. Reports can be made verbally, in writing, anonymously, and from third parties. Verbal reports would be documented immediately. Inmates have access to pens and pencils to write a grievance or complete a Medical Request Form. Staff can privately report sexual abuse and sexual harassment of inmates.

(2) The agency may apply otherwise-applicable time limits on any portion of a grievance that does not allege an incident of sexual abuse. A locked grievance box is located on each housing unit. Policies address procedures for filing an emergency grievance alleging that an offender is subject to a substantial risk of imminent sexual abuse.

Provision (d):

(1) The agency shall issue a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance. (2) Computation of the 90-day time period shall not include time consumed by inmates in preparing any administrative appeal. (3) The agency may claim an extension of time to respond, of up to 70 days, if the normal time period for response is insufficient to make an appropriate decision. The agency shall notify the inmate in writing of any such extension and provide a date by which a decision will be made. (4) At any level of the administrative process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly-noticed extension, the inmate may consider the absence of a response to be a denial at that level.

There were no grievances filed that alleged sexual abuse in the 12 months preceding the audit. Based on the review of the Policy, inmate interviews and Pre-audit questionnaire and associated memos of non-occurrence by the Warden, evidence shows the facility follows this provision of the standard.

Provision (e):

(1) Third parties, including fellow inmates, staff members, family members, attorneys, and outside advocates, shall be permitted to assist inmates in filing requests for administrative remedies relating to allegations of sexual abuse, and shall also be permitted to file such requests on behalf of inmates. (2) If a third party, other than a parent or legal guardian, files such a request on behalf of an inmate, the facility may require as a condition of processing the request that the alleged victim agree to have the request filed on his or her behalf, and may also require the alleged victim to personally pursue any subsequent steps in the administrative remedy process. (3) If the inmate declines to have the request processed on his or her behalf, the agency shall document the inmate's decision. (4) A parent or legal guardian of a juvenile shall be allowed to file a grievance regarding allegations of sexual abuse, including appeals, on behalf of such juvenile. Such a grievance shall not be conditioned upon the juvenile agreeing to have the request filed on his or her behalf.

The Policy and the Third-Party Reporting Form provide that third parties may file a grievance on behalf of inmates and such action is not conditioned upon the inmate agreeing to the filing of the grievance. There were no grievances alleging sexual abuse filed in the 12 months preceding the audit in which the inmate declined third-party assistance. Based on the review of the Pre-audit questionnaire, and associated memos of non-occurrence, evidence shows the facility follows this provision of the standard.

Provision (f):

(1) The agency shall establish procedures for the filing of an emergency grievance alleging that a inmate is subject to a substantial risk of imminent sexual abuse. (2) After receiving an emergency grievance alleging a inmate is subject to a substantial risk of imminent sexual abuse, the agency shall immediately forward the grievance (or any portion thereof that alleges the substantial risk of imminent sexual abuse) to a level of review at which immediate corrective action may be taken, shall provide an initial response within 48 hours, and shall issue a final agency decision within five calendar days. The initial response and final agency decision shall document the agency's determination whether the inmate is in substantial risk of imminent sexual abuse and the action taken in response to the emergency grievance.

The Policy provides for this provision of the standard. Once the grievance is received, it is dealt with through the appropriate administrative channels and Policy states that the inmate will receive an initial response within 48 hours and a final agency decision within five calendar days.

Provision (g):

The agency may discipline an inmate for filing a grievance related to alleged sexual abuse only where the agency demonstrates that the inmate filed the grievance in bad faith.

The Policy requires the actions of this standard provision. During the past 12 months, there were no inmate grievances alleging sexual abuse that resulted in disciplinary action by the agency against the inmate for having filed the grievance in bad faith. Based on the review of the Policy, associated memos of non-occurrence, and posted information, evidence shows the facility follows this provision of the standard.

Conclusion:

Based upon the review and analysis of the available evidence, the Auditor has determined the facility is compliant with this standard regarding exhaustion of administrative remedies. LGCC has an administrative procedure for dealing with inmate grievances regarding sexual abuse that is inclusive of all provisions required by the standard. The grievance procedure is contained in the Inmate Handbook and explained to the inmates.

Provision (a):

The facility shall provide inmates with access to outside victim advocates for emotional support services related to sexual abuse, by providing, posting, or otherwise making accessible mailing addresses and telephone numbers, including toll free hotline numbers where available, of local, State, or national victim advocacy or rape crisis organizations, and, for persons detained solely for civil immigration purposes, immigrant services agencies. The facility shall enable reasonable communication between inmates and these organizations and agencies, in as confidential a manner as possible.

The facility currently has a letter/agreement with the John Howard Association who acts as an anonymous reporting conduit between offenders and the IDOC. If contacted, the local rape crisis center would also advise the LGCC of a PREA violation (confirmed through an interview with the Victim Advocate) and provide services. Several Rape Crisis Centers are available to provide supportive services to inmates upon request. Posters containing the PREA hot-line number are prominently posted in the hallways and lobby area. The Offender Handbook outlines the steps on how to report PREA violations and who to report to, and where to report, along with the PREA Report Line telephone number and addresses. Staff and offender interviews confirmed compliance to this standard.

Provision (b): The facility shall inform inmates, prior to giving them access, of the extent to which such communications will be monitored and the extent to which reports of abuse will be forwarded to authorities in accordance with mandatory reporting laws.

The Policy addresses confidentiality of the advocacy support services. Monitoring notices were observed posted in each unit. The inmate receives information regarding the limitations of confidentiality during the intake process. Inmate communications to these services are not monitored. An acknowledgement statement specific to the review of the reporting and advocacy services contains

information regarding the advocacy services to be provided. Samples of acknowledgement statements were reviewed.

Provision (c): The agency shall maintain or attempt to enter into memoranda of understanding or other agreements with community service providers that are able to provide inmates with confidential emotional support services related to sexual abuse. The agency shall maintain copies of agreements or documentation showing attempts to enter into such agreements.

The facility Policy states the facility shall have a letter/agreement with local advocacy agency that may provide inmates with emotional support. The Prairie Center Against Sexual Assault provides inmates with confidential emotional support services related to sexual abuse. The inmates may use the phone, located on each living unit, and push the appropriate number to gain access and speak with a victim advocate. The agency is identified on the signage along with directions for reporting allegations or requesting advocacy services.

The PCM and the APC confirmed the availability and accessibility of outside confidential support services to inmates. The Medical Advocate of The Prairie Center stated that an advocate would go to the facility or the hospital upon request. The agency has copies of agreements or documentation showing attempts to enter into such agreements.

Conclusion:

Based upon the review and analysis of the available evidence, the Auditor has determined the facility is compliant with this standard regarding inmate access to outside confidential support services and legal representation.

Are both the agency and any other governmental entities responsible for collective bargaining on the agency's behalf prohibited from entering into or renewing any collective bargaining agreement or other agreement that limits the agency's ability to remove alleged staff sexual abusers from contact with any inmates pending the outcome of an investigation or of a determination of whether and to what extent discipline is warranted

The agency's current collective bargaining agreement (CBA) with the American Federation of State, County and Municipal Employees was entered into on July 2012, prior to the adoption of these standards. The current agreement does not prohibit the agency from removing alleged staff sexual abusers from contact with any offenders pending the outcome of an investigation or of a determination of whether and to what extent discipline is warranted. Interviews with the Warden and the agency PREA Coordinator indicated that the collective bargaining agreement does not hamper the agency's commitment to protect offenders through any disciplinary action of a staff member, including reprimand, suspension, demotion, and discharge or to otherwise discipline employees with proper cause.

Retaliation Monitor
Warden
PCM

Provision (a):

The agency shall establish a policy to protect all inmates and staff who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations from retaliation by other inmates or staff and shall designate which staff members or departments are charged with monitoring retaliation.

The LGCC Policy states the facility shall protect all inmates and staff from retaliation who report sexual abuse, sexual harassment or cooperate with sexual abuse or sexual harassment investigations. The Warden is responsible for monitoring retaliation. Periodic checks are included. Monitoring shall consist of a review of the following: (a.) the inmate's disciplinary reports, (b.) Housing and room assignment, (c.) Program changes, (d.) Staff performance reviews and, (e.) Staff assignments and duties. Finally, the policy states that monitoring terminates once the allegation has been labeled unfounded by the investigating entity. The PREA Compliance Manager is the designated staff member that monitors the conduct or treatment of offenders and/or staff members who have reported sexual abuse to insure any type of retaliation does not occur. Policy requires that monitoring for any type of retaliation will be done

for at least 90 days. Policy outlines the protection measures available and requires the prompt remediation of any type of retaliation. This follow-up may also extend without limit if necessary. There have been no incidents of retaliation occurring within the previous 12 months. Staff interviews and an examination of policy confirmed compliance to this standard.

Provision (b):

The agency shall employ multiple protection measures, such as housing changes or transfers for inmate victims or abusers, removal of alleged staff or inmate abusers from contact with victims, and emotional support services for inmates, or staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations.

The Policy identifies measures to protect staff and inmates including the following: (a.) Initiating housing changes or transfers for inmate victims or abusers; (b.) Removing alleged staff or inmate abusers from contact with victims; and (c.) Providing emotional support services. Staff and inmate interviews confirmed the facility would protect inmates and staff from retaliation for sexual abuse and sexual harassment allegations. Protective measures would include housing changes, transfers, removing alleged abusers, and emotional support services. The Warden identified protective measures that are aligned with the Policy and standard, including separating the alleged abuser from the alleged victim. The PCM was knowledgeable on what to look for and what to do with respect to retaliation against, or by, inmates and/or staff. This includes periodic status checks. There were no instances of actual or threatened retaliation during the previous 12 months.

Provision (c):

For at least 90 days following a report of sexual abuse, the agency shall monitor the conduct or treatment of inmates or staff who reported the sexual abuse and of inmates who were reported to have suffered sexual abuse to see if there are changes that may suggest possible retaliation by inmates or staff and shall act promptly to remedy any such retaliation. Items the agency should monitor include any inmate disciplinary reports, housing, or program changes, or negative performance reviews or reassignments of staff. The agency shall continue such monitoring beyond 90 days if the initial monitoring indicates a continuing need.

The Policy requires the monitoring of items identified in this provision of the standard. Warden explained during the interview how she would discharge those duties, including monitoring the items identified in the standard and whether an inmate filed a grievance alleging sexual abuse or sexual harassment. Retaliation monitoring would occur for 90 days to see if there are any changes that may suggest possible retaliation by inmates or staff, and shall act promptly to remedy any such retaliation, according to Policy. The monitoring will continue beyond 90 days, if the initial monitoring indicates a continuing need. There have been no incidents of retaliation during the 12 months preceding the audit.

Provision (d):

In the case of inmates, such monitoring shall also include periodic status checks.

The Warden indicated status checks would be initiated with staff and inmates. The Policy states periodic status checks will occur. The Retaliation Status Checklist would be used to document the status checks as well as the Retaliation Monitoring Checklist to document the ongoing monitoring and use of the Retaliation Status Checklist.

Provision (e): If any other individual who cooperates with an investigation expresses a fear of retaliation, the facility shall take appropriate measures to protect that individual against retaliation.

The Policy states if any other individual who cooperates with an investigation expresses the occurrence of retaliation from another inmate or staff member, LGCC shall take appropriate measures to protect that

individual against retaliation. Policies prohibit any type of retaliation to any offender or staff member who has reported sexual abuse, sexual harassment or has cooperated with such investigations.

Provision (f): An agency's obligation to monitor shall terminate if the agency determines that the allegation is unfounded.

The LGCC Policy states the facility's obligation to monitor shall terminate if it is determined that the allegation is unfounded.

Conclusion:

Based upon the review and analysis of the available evidence, the Auditor has determined the facility is compliant with this standard regarding agency protection against retaliation.

Interviews: Retaliation Monitor

Provision (a):

Is any and all use of segregated housing to protect a inmate who is alleged to have suffered sexual abuse subject to the requirements of § 115.342?

Title 20 Illinois Administrative Code, DR 501d, Protective Custody; AD 04.01.301, Sexual Abuse and Harassment Prevention and Intervention Program and ID 04.01.301, Offender Sexual Assaults-Prevention and Intervention govern the mandates of this standard. Staff interviewed indicated that, in practice, offenders who allege to have suffered sexual abuse may not be placed in involuntary segregated housing (SHU), unless an assessment of all available alternatives has been made and there is a determination that there is no available alternative means of separation from likely abusers. Additionally, in practice, to the extent possible, access to programs, privileges, education and work opportunities are not limited to offenders placed in the SHU for the purposes of protective custody.

Policy requires that the facility document the reasons for restricting access to programs and the length of time the restriction would last. In the past 12 months there were no offenders held in involuntary segregated housing for one to 24 hours awaiting completion of an assessment and none held in involuntary segregated housing for longer than 30 days while awaiting alternative placement. Staff Interviews and an examination of policy confirmed compliance to this standard.

Conclusion:

Based upon the review and analysis of the available evidence, the Auditor has determined the facility is compliant with this standard regarding agency protection against retaliation.

When the agency conducts its own investigations into allegations of sexual abuse and sexual harassment, it shall do so promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports.

Title 20 Administrative Code, DR Part 112, Internal Investigation, AD 01.12.101, Employee Criminal Misconduct and AD 01.12.120, Investigations of Unusual Incidents address the mandates of this standard. The facility promptly, thoroughly and objectively conducts its own investigations into allegations of sexual abuse and sexual harassment, including third-party and anonymous reports. Facility investigators have received the necessary special training in sexual abuse investigations. Investigators gather and preserve direct and circumstantial evidence, including any available physical

or DNA evidence, and any available other monitoring data. Interviews are conducted with the alleged victim, suspected perpetrator and potential witnesses. The trained investigators also review prior complaints and reports of sexual abuse involving the suspected perpetrator. When the quality of evidence appears to support criminal prosecution, the investigators contact the ISP to complete the investigation.

Provision (b):

Where sexual abuse is alleged, the agency shall use investigators who have received special training in sexual abuse investigations pursuant to § 115.334.

A review of training files indicated that all facility investigators have completed the Agency Investigation Training and certified to conduct administrative investigations. All facility investigators have received additional training in conducting investigations as confirmed by a review of training certificates, training log, and training curriculum. The course lesson topics included how to gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; investigators are required to interview alleged victims, suspected perpetrators, and witnesses; and shall review prior complaints and reports of sexual abuse involving the suspected perpetrator.

Provision (c):

Investigators shall gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; shall interview alleged victims, suspected perpetrators, and witnesses; and shall review prior complaints and reports of sexual abuse involving the suspected perpetrator.

Facility and Agency Investigators gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data. Policy states that investigators are required to interview alleged victims, suspected perpetrators, and witnesses; and shall review prior complaints and reports of sexual abuse involving the suspected perpetrator. When the quality of evidence appears to support criminal prosecution, the investigators contact the Illinois State Police (ISP) Department to complete the investigation.

Provision (d):

The agency shall not terminate an investigation solely because the source of the allegation recants the allegation.

Title 20 Administrative Code, DR Part 112, Internal Investigation provides that an investigation will not be terminated solely because the source recants the allegation. The interviews confirmed what the practice will be in accordance with the Policy and standard.

Provision (e):

When the quality of evidence appears to support criminal prosecution, the agency shall conduct compelled interviews only after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution.

Investigations that are criminal in nature are investigated by the ISP Department as determined by staff interviews, and MOU supports this provision. Where reasonable grounds exist to suspect that an individual has committed a violation of criminal law, it shall be reported to the State's Attorney of the county in which the incident occurred or to the appropriate prosecuting official.

Provision (f):

The credibility of an alleged victim, suspect, or witness shall be assessed on an individual basis and shall not be determined by the person's status as inmate or staff. No agency shall require an inmate who alleges sexual abuse to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation.

All investigations of allegations of sexual abuse or harassment are to be conducted in accordance with Administrative Directives 01.12.105 and 04.01.301, and with the standards and regulations adopted under the Prison Rape Elimination Act (PREA). In accordance with PREA standards, during the course of such investigations, the Department shall impose no standard higher than a preponderance of the evidence when determining whether allegations of sexual abuse or harassment are substantiated. The Policy further states the credibility of an alleged victim, suspect, or witness shall be assessed on an individual basis and not be determined by the person's status as an inmate or staff. Additionally, no inmate who alleges sexual abuse will be subjected to a polygraph examination or other truth telling device as a condition for proceeding with the investigation of the allegation. The interviews with the facility-based investigators support the Policy.

Provision (g):

Administrative investigations: (1) Shall include an effort to determine whether staff actions or failures to act contributed to the abuse; (2) Shall be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings.

The Policies, interviews and training documentation are inclusive of this provision of the standard. The Warden has assigned LGCC as administrative investigators. The investigators have received the regular PREA training as evident through documentation, identifying that they have also received training in first responder duties and understanding the agency's protocol for obtaining usable physical evidence if an inmate alleges sexual abuse. Investigation reports reviewed included actions to indicate an effort to determine whether staff actions or failures to act contributed to the abuse. There were written reports that included a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings.

Provision (h):

Criminal investigations shall be documented in a written report that contains a thorough description of physical, testimonial, and documentary evidence and attaches copies of all documentary evidence where feasible.

Interviews with the facility Warden and the PCM, as well as a review of agency policy indicate compliance of this provision of the standard. The number of substantiated allegations of conduct that appear to be criminal that were referred for prosecution since the last PREA audit was ten. Although no training documentation was available for review at the time of the on-site audit, the APC stated that appropriate training has been received by the ISP Division's investigators and their experience to conduct a professional investigation.

Provision (i):

Substantiated allegations of conduct that appears to be criminal shall be referred for prosecution.

Investigations that are criminal in nature are investigated by the ISP Department as determined by staff interviews, and MOU supports this provision. Where reasonable grounds exist to suspect that an individual has committed a violation of criminal law, it shall be reported to the State's Attorney of the county in which the incident occurred or to the appropriate prosecuting official.

Provision (j):

The agency shall retain all written reports referenced in paragraphs (g) and (h) of this section for as long as the alleged abuser is incarcerated or employed by the agency, plus five years, unless the abuse was committed by a juvenile inmate and applicable law requires a shorter period of retention.

All written reports for the past 12 months were reviewed on-site. Additionally, the agency retains all files while the abuser is incarcerated or employed by the agency, plus five years, unless applicable law requires a shorter period of retention.

Provision (k): The departure of the alleged abuser or victim from the employment or control of the facility or agency shall not provide a basis for terminating an investigation.

Policy states that the departure of the alleged abuser or victim from employment or control of LGCC shall not provide a basis for terminating an investigation, which was also supported by interviews with Human Resource Staff and the APC.

Provision (l):

When outside agencies investigate sexual abuse, the facility shall cooperate with outside investigators and shall endeavor to remain informed about the progress of the investigation.

LGCC Policy states staff shall cooperate with any outside investigator and shall remain informed about the progress of the investigation. According to the Warden, the case number is provided when an outside investigation is conducted so that follow-up can occur as needed.

Conclusion:

Based upon the review and analysis of the available evidence, the Auditor has determined the facility is compliant with this standard regarding criminal and administrative agency investigations. All allegations of sexual abuse and sexual harassment deemed to be criminal in nature are referred to a law enforcement agency. It shall be the responsibility of the agency investigators to gather and preserve direct and circumstantial evidence including any available physical and DNA evidence and any available electronic monitoring data; to interview alleged victims, suspected perpetrators, and witnesses; and to review prior complaints and reports of sexual abuse involving the suspected perpetrator.

An agency's obligation to report under this standard shall terminate if the inmate is released from the agency's custody.

The Policy AD 01.12.120, Investigation of Unusual Incidents, provides the facility's obligation to report under this standard shall terminate if the inmate is released from the facility's custody.

Conclusion:

A review of reports and documentation, as well as interviews with staff, confirm the Standard requirements and staff knowledge of the process of reporting to an inmate regarding the outcomes of an allegation of sexual abuse. The Auditor has determined the facility is compliant with this standard regarding reporting to inmates.

Provision (a):

An inmate may be subject to disciplinary sanctions only pursuant to a formal disciplinary process following an administrative finding that the inmate engaged in inmate-on-inmate sexual abuse or following a criminal finding of guilt for inmate-on-inmate sexual abuse.

Title 20 Illinois Administrative Code—Administration of Discipline for Offenders Identified as Seriously Mentally Ill; AD 04.01.301, Sexual Abuse and Harassment Prevention and Intervention Program; LGCC ID 04.01.301, Offender Sexual Assaults-Prevention and Intervention and the Offender Handbook address the mandates of this standard. The Policy further addresses an administrative process for dealing with rule violations and references the policy that deals with discipline. Sanctions are directly related to the seriousness of the negative behavior. The interview with the Warden revealed the process regarding allegations of inmate-on-inmate abuse which can include the inmate being removed from the facility and placed in the detention center during the investigation by law enforcement. Offenders found guilty of an administrative finding or criminal finding of offender-on-offender sexual abuse are subject to disciplinary sanctions pursuant to a formal disciplinary process. Disciplinary sanctions are commensurate with the nature and circumstances of the abuse committed, the offender's disciplinary history, and the sanctions imposed for comparable offenses by other offenders with similar histories.

The disciplinary process considers whether an offender's mental disabilities or mental illness contributed to the offender's behavior when determining what type of sanction, if any, should be imposed. If mental disabilities or mental illness is a factor, the facility considers the offer of therapy, counseling or other interventions designed to address and correct underlying reasons or motivations for the abuse.

PREA policy states that inmates found to have sexually harmed others shall be offered therapy counseling or other interventions designed to address and correct the underlining reasons for their conduct. Inmates consequences shall commensurate with the nature and circumstances of the sexual abuse or harassment committed, the inmates's disciplinary history, and consequences imposed for comparable offenses committed by other inmates with similar history. This determination is made by a trained OHI investigator, court system, and/or Law Enforcement.

Provision (b):

Any disciplinary sanctions shall be commensurate with the nature and circumstances of the abuse committed, the inmate's disciplinary history, and the sanctions imposed for comparable offenses by other inmates with similar histories. In the event a disciplinary sanction results in the isolation of an inmate, agencies shall not deny the inmate daily large-muscle exercise or access to any legally required educational programming or special education services. Inmates in isolation shall receive daily visits from a medical or mental health care clinician. Inmates shall also have access to other programs and work opportunities to the extent possible.

Title 20 Illinois Administrative Code—Administration of Discipline for Offenders provides that disciplinary sanctions are commensurate with the nature and circumstances of the abuse committed, the inmate's disciplinary history, and the sanctions imposed for comparable offenses by other inmates with similar histories. In the extreme event a disciplinary sanction results in the isolation of an inmate, LGCC shall not deny the inmate daily large-muscle exercise or access to any legally required educational programming or special education services. Policy further provides for daily visits by mental health and medical personnel. Inmates shall also have access to other programs and work opportunities to the extent possible and receive daily visits from medical and mental health staff, in accordance with the Standard.

Provision (c):

The disciplinary process shall consider whether an inmate's mental disabilities or mental illness contributed to his or her behavior when determining what type of sanction, if any, should be imposed.

The LGCC Policy provides that the disciplinary process considers whether an inmate's mental disabilities or mental illness contributed to his or her behavior when determining what type of sanction, if any, should be imposed. This was confirmed by the interview with the Warden. The Warden also clarified that the facility does not make any determination regarding whether a particular activity constitutes sexual abuse.

Provision (d):

If the facility offers therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse, the facility shall consider whether to offer the offending inmate participation in such interventions. The agency may require participation in such interventions as a condition of access to any rewards-based behavior management system or other behavior-based incentives, but not as a condition to access to general programming or education.

LGCC Policy provides the facility considers whether to offer the offending inmate therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse participation. The facility may require participation in such interventions as a condition of access to privileges, but not as a condition to access to general programming or education.

Provision (e):

The agency may discipline an inmate for sexual contact with staff only upon a finding that the staff member did not consent to such contact.

The agency may discipline an offender for sexual contact with staff only upon a finding that the staff member did not consent to such contact. For the purpose of disciplinary action, a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred does not constitute falsely reporting an incident or lying, even if the investigation does not establish evidence enough to substantiate the allegation.

Provision (f):

For the purpose of disciplinary action, a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred shall not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation.

The LGCC Policy states a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred shall not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation.

Provision (g):

An agency may, in its discretion, prohibit all sexual activity between inmates and may discipline inmates for such activity. An agency may not, however, deem such activity to constitute sexual abuse if it determines that the activity is not coerced.

The Policy prohibits any sexual conduct between inmates. All such conduct is subject to disciplinary action. Court processes occur after determination the sexual activity was coerced.

Conclusion:

Based upon the review and analysis of the available documentation, the Auditor determined the facility is compliant with this standard regarding interventions and disciplinary sanctions for inmates.

If the screening pursuant to § 115.341 indicates that an inmate has experienced prior sexual victimization, whether it occurred in an institutional setting or in the community, do staff ensure that the inmate is offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening?

Interviews and a review of intake screening documents supports the finding that screening for prior sexual victimization is conducted by mental health professionals during in-processing procedures. If the screening indicates the offender experienced prior sexual victimization, the offender is offered a follow-up meeting with a medical or mental health practitioner within 14 days. Follow-up meetings with mental health providers routinely occur within 72 hours of the initial screening. In-processing procedures also screen for previous sexual assaultive behavior in an institutional setting or in the community.

Provision (b):

If the screening pursuant to § 115.341 indicates that an inmate has previously perpetrated sexual abuse, sexual victimization, whether it occurred in an institutional setting or in the community, do staff ensure that the inmate is offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening?

LGCC Policy states that if the screening for abusiveness and victimization indicates that an inmate has previously perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, the intake staff shall offer the inmate a follow-up meeting with a facility contracted Mental Health provider.

Provision (c):

Is any information related to sexual victimization or abusiveness that occurred in an institutional setting strictly limited to medical and mental health practitioners and other staff as necessary to inform treatment plans and security management decisions, including housing, bed, work, education, and program assignments, or as otherwise required by Federal, State, or local law?

In accordance with policy and staff interviews, if the screening for abusiveness and victimization indicates that an inmate has experienced prior victimization or has previously perpetrated sexual abuse, whether it occurred in an institutional setting or in the community, the intake staff shall offer the inmates a follow-up meeting with a facility-contracted Mental Health provider. The follow-up shall be completed within 14 days. All confidential data and files are labeled on a "need to know" basis. Warden and medical staff interviews verified the procedures.

Provision (d): Do medical and mental health practitioners obtain informed consent from inmates before reporting information about prior sexual victimization that did not occur in an institutional setting, unless the inmate is under the age of 18?

Information related to sexual victimization or abusiveness is limited to medical and mental health practitioners and other staff on a need-to-know-basis for treatment plans, security, housing, work, program assignments and management decisions. Medical and mental health practitioners attempt to obtain informed consent from offenders before reporting information about prior sexual victimization that did not occur in an institutional setting.

Conclusion:

Based upon the review and analysis of the available documentation, the Auditor determined the facility is compliant with this standard regarding mental health screening and interventions for inmates.

If the screening pursuant to § 115.341 indicates that an inmate has experienced prior sexual victimization, whether it occurred in an institutional setting or in the community, staff shall ensure that the inmate is offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening. Under 04.04.100, General Provisions, Medical and Mental Health Care provides that an inmate who indicates during initial screening that they were a victim or perpetrator of sexual abuse shall be offered a follow-up visit with medical or mental health staff within 14 days of the intake screening. Any inmates alleging victimization are transported to Northeast Regional Medical Center where SANE services are available. Acute trauma care shall be provided by the SANE program including but not limited to, treatment of injuries, HIV/AIDS education, timely access to emergency contraception, prophylaxis and testing for Sexually Transmitted Diseases. The policy states that victims shall be provided trauma assessment, crisis intervention, safety planning and address treatment needs. The Mental Health Specialist shall see the inmate victim, as soon as possible for assessment and crisis intervention, as appropriate. Based on the results of the trauma assessment, the Mental Health Specialist shall develop a short-term trauma plan (i.e., psychiatric care, medication, mental health counseling, etc.) and an on-going counseling plan as needed. Inmates are informed during their intake orientation that all such services will be provided without financial costs (also written in the PREA information the inmates receive). Medical staff and the Warden staff verified the procedures.

A review of documentation demonstrates inmates are offered follow-up meetings in a timely manner, prior to the 14 days. This information was also confirmed through the interview with the PREA Compliance Manager, Medical providers and SANE/SAFE representatives.

Provision (c):

Any information related to sexual victimization or abusiveness that occurred in an institutional setting shall be strictly limited to medical and mental health practitioners and other staff, as necessary, to inform treatment plans and security and management decisions, including housing, bed, work, education, and program assignments, or as otherwise required by Federal, State, or local law.

Information concerning treatment and access to care is offered immediately to all victims, as clinically indicated. The treatment is offered at no financial cost to the inmates. All emergency decisions and care provided would be fully documented. Interviews with staff, a SANE nurse from the local hospital and a Victim Advocate support a finding that the facility complies with this standard. A review of documentation also supports compliance to this standard. LLC Policies supports that any information related to sexual victimization or abusiveness that occurred in an institutional setting shall be strictly limited to medical and mental health practitioners and other staff, as necessary, to inform treatment plans and security and management decisions, including housing, bed, work, education, and program assignments, or as otherwise required by Federal, State, or local law.

The Auditor observed the inmate files maintained in a secure manner. The files are secured in a locked cabinet behind a locked door, when the office is unoccupied. The files have a list of individuals that have access to them.

Provision (d):

Medical and mental health practitioners shall obtain informed consent from inmates before reporting information about prior sexual victimization that did not occur in an institutional setting, unless the inmate is under the age of 18.

The Policy provides that medical and mental health practitioners shall obtain informed consent from inmates before reporting information about prior sexual victimization that did not occur in an institutional setting, unless the inmate is under the age of 18. The facility has Informed Consent forms to document this type of situation.

Conclusion:

Provision (a): The facility shall conduct a sexual abuse incident review at the conclusion of every sexual abuse investigation, including where the allegation has not been substantiated, unless the allegation has been determined to be unfounded.

Facility Policy 17.12 Investigations requires the facility to conduct a sexual abuse incident review at the conclusion of every sexual abuse investigation, including where the allegation has not been substantiated, unless the allegation has been deemed to be unfounded. The Warden is familiar with the Policy requirements. The Warden shall prepare a report of the findings to include recommendations for improvement. The report shall be submitted to the Court Services Administrator. The Warden may implement the recommendations for improvement or shall document the reasons for not doing so. In that there were no substantiated or unsubstantiated findings that required a review, there were none completed in the previous 12 months.

Provision (b):

Such review shall ordinarily occur within 30 days of the conclusion of the investigation.

There is a Critical Incident Review Form that is completed within 30 days of the outcome of an Administrative or Criminal Investigation. The review process considers whether: (a.) Changes in the policy or practice are needed; (b.) Whether race, ethnicity, sexual orientation, gender identity, gang affiliation or inmate's culture in the facility played a role; (c.) Physical barriers in the facility; (d.) Staffing levels, and (e.) Video monitoring needs. The Warden has appointed the following persons to participate in the review: (a.) PREA Compliance Manager; (b.) The Internal Affairs Investigator; (c) the Health Care Unit Administrator; and (d.) Mental Health Administrator. The Policy requires that the reviews occur within 30 days of the conclusion of the investigation.

Provision (c):

The review team shall include upper-level management officials, with input from line supervisors, investigators, and medical or mental health practitioners.

The Policy identifies the incident review team members as the PREA Compliance Manager; The Internal Affairs Investigator; the Health Care Unit Administrator with input from line supervisors, investigators, mental health staff, and Counselors. The ISP Department would be invited to the meeting, according to the Policy. The interview with the Warden confirmed the Policy requirements.

Provision (d):

The review team shall: (1) Consider whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse; (2) Consider whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or, gang affiliation; or was motivated or otherwise caused by other group dynamics at the facility; (3) Examine the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse; (4) Assess the adequacy of staffing levels in that area during different shifts; (5) Assess whether monitoring technology should be deployed or augmented to supplement supervision by staff; and (6) Prepare a report of its findings, including but not necessarily limited to determinations made pursuant to paragraphs (d)(1)-(d)(5) of this section, and any recommendations for improvement and submit such report to the facility head and PREA compliance manager.

The Policy outlines the requirements of the standard for the areas to be assessed by the incident review team. The interview with the Warden, review of Policy and documentation method confirmed the incident review team is charged with considering the factors identified in this standard provision regarding the results of the investigation, including: considering the make-up and vulnerability of the population such as gang affiliation; whether the inmate identifies as gay, bisexual, transgender, or intersex; other group dynamics; assessment of the area relative to the allegations; and adequacy of staffing.

The Policy requires the meeting to be documented, including recommendations and the document provided to the Warden. The interview with the PCM and Incident Review Team Member confirmed the facility would prepare a report of its findings and any recommendations for improvement when conducting a sexual abuse incident review. They confirmed the team would consider all factors required by the standard. A sexual abuse incident review has not been conducted during this audit period.

Provision (e):

The facility shall implement the recommendations for improvement, or shall document its reasons for not doing so.

The Policy states the administration shall implement the recommendations for improvement, or shall document its reasons for not doing so. The Warden is familiar with this Policy requirement. The form, Alleged Sexual Abuse & Sexual Assault Post-Incident Review, has been developed for documenting the incident review team meeting and it allows for documentation of the considerations of the standard. Additionally, the form provides for recommendations for improvement by the team members. There were no allegations of sexual abuse in the past 12 months.

Conclusion:

Based upon the review and analysis of the available documentation, the Auditor has determined the facility is compliant with this standard regarding sexual abuse incident reviews.

The agency shall collect accurate, uniform data for every allegation of sexual abuse at facilities under its direct control using a standardized instrument and set of definitions. The incident-based data collected shall include, at a minimum, the data necessary to answer all questions from the most recent version of the Survey of Sexual Violence conducted by the Department of Justice.

The Policy requires the use of a standardized instrument with definitions to collect accurate, uniform data for every allegation of sexual abuse. A review of the PREA Data document demonstrates that it includes data necessary to answer all questions from the most recent version of the Survey of Sexual Violence conducted by the U. S. Department of Justice. Observation and review of documentation support the finding that the Illinois Department of Corrections has collected accurate, uniform data for every allegation of sexual abuse at facilities under its direct control, using a standardized instrument and set of definitions. The agency data has been aggregated at least annually for the last two years. Interviews with the PREA Coordinator and a review of policy indicated that upon request, the agency would provide all such data from the previous calendar year to the Department of Justice no later than June 30.

Provision (b):

The agency shall aggregate the incident-based sexual abuse data at least annually.

The agency collects, aggregates, and maintains the data, as required by the standard. The data instrument collects the data necessary to answer all questions from the USDOJ Survey of Sexual Violence. This procedure was verified by the Detention Liaison to the Statewide Detention PREA Coordinator. LGCC Procedures dictates that any incident report that alleges staff sexual misconduct, juvenile sexual misconduct or inmates sexual abuse shall be collected by the Warden, who is also the Agency PREA Coordinator. The Warden shall be responsible for compiling records and annually reporting statistical data to the State of Missouri who then compiles all statewide data and submits to Federal Bureau of Justice as required by the Department of Justice. The Policy and review of the annual report and data gathering instrument and other documents confirm the facility collects incident-based, uniform data regarding allegations of sexual abuse and sexual harassment. A standardized instrument and specific guidelines and definitions are used to assist in identifying the data.

Provision (c):

The incident-based data include, at a minimum, the data necessary to answer all questions from the most recent version of the Survey of Sexual Violence conducted by the Department of Justice.

The facility maintains and collects various types of identified data and related documents regarding PREA. The data instrument collects the data necessary to answer all questions from the USDOJ Survey of Sexual Violence. This procedure was verified by the FPCM and the Statewide PREA Coordinator.

Provision (d):

The agency shall maintain, review, and collect data as needed from all available incident-based documents, including reports, investigation files, and sexual abuse incident reviews.

The facility maintains and collects various types of identified data and related documents regarding incident-based documents, including reports, investigation files, and sexual abuse incident reviews. The Policy and review of the annual report and data gathering instrument and other documents confirm the facility's compliance with this provision.

Provision (e):

The agency also shall obtain incident-based and aggregated data from every private facility with which it contracts for the confinement of its inmates.

LGCC does not contract with outside facilities for confinement of its inmates.

Provision (f):

Upon request, the agency shall provide all such data from the previous calendar year to the Department of Justice no later than June 30.

The Policy states that upon request, LGCC shall provide all such data from the previous calendar year to the Department of Justice no later than June 30.

Conclusion:

Based upon the review and analysis of the documentation, the Auditor has determined the facility is compliant with this standard regarding data collection.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PREA audits for the facility have been conducted as required for the initial three-year period. The facility, in conjunction with the Missouri Department of Inmates Services, has embarked on fulfilling the auditing requirements for this second three-year period. The facility has provided the Auditor with the required documentation which have maintained as required by the standards and the auditing process.

A comprehensive site review was provided to the Auditor during the site visit and additional documentation was reviewed during the site visit. The staff members were cooperative in providing additional documentation as requested. The Warden provided appropriate work spaces which included conditions for conducting interviews in private with the inmates and staff. The posted notices regarding the audit were observed throughout the facility, accessible to inmates; staff; visitors; contractors; and volunteers. The notices provided directions and contact information informing those who wanted to contact the Auditor of how to do so. No correspondence was received by the Auditor.

Standard 115.40a: Frequency and scope of audits states that during the three-year period starting on August 20, 2013, and during each three-year period thereafter, the agency ensures that each facility operated by the agency, or by a private organization on behalf of the agency, was audited at least once. All final reports are posted on the agency website. During this audit, the Auditor had access to previous audits, and had the ability to observe all areas of the audited facility. The Auditor received copies of any relevant documents (including electronically-stored information) requested and was able to conduct private interviews with staff and inmates. A review of documentation and interviews with the Administrative and the PREA Manager support the finding that this facility is in compliance with this Standard.
