

ILLINOIS DEPARTMENT OF CORRECTIONS

Higher Education Report

September 1, 2025

JB Pritzker

Governor

Latoya Hughes

Director

In accordance with the Unified Code of Corrections, this report is compiled to satisfy the requirements of Public Act 103-0541.

[Public Act 103-0541](#)

Section 1. Short title. This Act may be cited as the Higher Education in Prison Act.

Section 5. Higher education in prison programs.

- (a) In this Section, "higher education" means post-secondary academic education at the undergraduate or graduate level in a community college or university setting.
- (b) On or before September 1 of the year following the effective date of this Act and each subsequent September 1, the Department of Corrections shall release a report, to be published on the Department of Corrections' Internet website, detailing the following information pertaining to higher education within Department institutions and facilities:
 - (1) the number of unique individuals involved in adult basic education, high school equivalency, and credit and non-credit bearing higher education programs over the course of the fiscal year;
 - (2) the racial, ethnic, age, and gender breakdown of committed persons participating in higher education programs.
 - (3) the length of sentence and length of remaining sentence of persons enrolled in higher education programs.
 - (4) the number of committed persons who are on waiting lists for participation in all educational programs, including adult basic education, high school equivalency, and higher education, and the average length of time spent on each waiting list, including a breakdown by length of remaining sentence;
 - (5) the total amount of earned program sentence credit awarded to committed persons for participating in higher education programs and the percentage of committed persons participating in higher education programs that are awarded earned program sentence credit.
 - (6) the number, category, and ultimate resolution of grievances related to higher education programs.
 - (7) a financial statement that includes annual and monthly expenditures of Department of Corrections institutions and facilities on adult basic education, high school equivalency, and higher education programs; and
 - (8) an explanation of how participation in adult basic education, high school equivalency, and higher education programs is factored into a committed persons' risk assessment score. Personal, identifiable information shall be redacted to protect privacy. The report must be filed with the Governor and General Assembly.¹
- (c) The data provided in the report under subsection (b) shall include an aggregate chart at the Department level and individual reports by each correctional institution or facility of the Department of Corrections.

The below data will be issued to the Board of Higher Education in a separate report provided by individual Colleges and Universities:

- (d) To facilitate the collection of information on higher education in prison (HEP) programs, each 4-year public or private institution of higher education with HEP degree or certificate programs shall provide the Board of Higher Education with student-level information as part of its regular agency data-collection processes. Each public community college with HEP degree or certificate programs shall provide the Illinois Community College Board with student-level information as part of its regular agency data-collection processes. Upon request, the student-level information shall include the correctional facility in which the HEP program is being offered. The information provided to the Board of Higher Education and the Illinois Community College Board shall include HEP enrollment and completion data disaggregated by variables, including but not limited to, race, ethnicity, gender, age, and type of degree or certificate. The Board of Higher Education and the Illinois Community College Board shall annually make HEP program data publicly available on their Internet websites.

Effective Date: 1/1/2024

¹ The risk assessment score is designed to evaluate both static (unchangeable) and dynamic (changeable) risk factors. Static factors, like criminal history, heavily influence the initial risk score. An individual's educational participation is a dynamic factor used to adjust case plans and the type of programming an individual may be enrolled in while in custody, not the score itself.

September 1st Report reflects FY25 data.

¹ Individuals can be duplicated in data due to taking more than one course at a time and the ability to transfer between facilities resulting in multiple facilities recording the individual within one fiscal year.

² This data reflects the status or location of the individual at the time the data was pulled.

³ Blank sentence length data indicates that the individual is either serving a sentence of life in prison, has an undetermined MSR date and Discharge date due to a sentence as a Sexually Dangerous Person (SDP), sex offender, contempt of court, or the sentence is still being calculated at the time this data was pulled. Length of Sentence data is a estimation due to sentences continually being recalculated for sentence credits earned/awarded/revoked.

Note: This data is comprised of Higher Education Program (HEP) and Career Technical Education (CTE) data combined.

¹ Individuals can be duplicated in data due to taking more than one course at a time and the ability to transfer between facilities resulting in multiple facilities recording the individual within one fiscal year.

² This data reflects the status or location of the individual at the time the data was pulled.

³ Blank sentence length data indicates that the individual is either serving a sentence of life in prison, has an undetermined MSR date and Discharge date due to a sentence as a Sexually Dangerous Person (SDP), sex offender, contempt of court, or the sentence is still being calculated at the time this data was pulled. Length of Sentence data is a estimation due to sentences continually being recalculated for sentence credits earned/awarded/revoked.

Note: This data is comprised of Higher Education Program (HEP) and Career Technical Education (CTE) data combined.

¹ Adult Basic Education (ABE) is designed to bring a student from at or below a first-grade through the eighth-grade competency level. Programs are designed to help adults improve their foundational skills, such as reading, writing, math and basic problem-solving.

² Adult Secondary Education (ASE) is designed to bring a student from the ninth grade through the twelfth-grade competency level. Programs provide adults with the opportunity to earn an Illinois High School Diploma through Pearson Vue's GED Testing Services.

Note: Greyed out areas are not in the tracking system of record.
Data will be provided when programming is funded and will be completed.
