¹ Recidivism rates indicate the percentage of offenders who return to IDOC within three years after release. The data represent those offenders released from IDOC in FY2014, FY2015, and FY2016.

²Sentencing County: County from which offender was convicted and sentenced. It will not always be the county in which the crime occurred.

Collar Counties (5): DuPage, Kane, Lake, McHenry and Will. Downstate Counties (96): Illinois counties other than Cook County and collar counties.

³Sex offenders are defined as inmates required to register as a sex offender for having a sex offense or a murderer/violence against youth offense on the sentencing order; excluding prostitution.

⁴ Sentence length does not include extended sentence or any additional sentencing factors that extend beyond the single holding offense class, including life sentences.

** In December, 2015 IDOC initiated a major IT transition, moving from a DOS-based offender tracking system to a modern, web-based tracking system. During the transition, some traditional measures will contain missing values due to a combination of factors, which include quality control issues with data entry and missing data for fields that are no longer required within the system. In addition, basic coding and program logic is still being reviewed and corrected. Moving forward, the Department continues to validate certain data measures and all elements are subject to change as more information becomes available. Contact the Planning & Research Unit with any questions.
