Note: In December, 2015 IDOC initiated a major IT transition, moving from a DOS-based offender tracking system to a modern, web-based tracking system. During the transition, some traditional measures will contain missing values due to a combination of factors, which include quality control issues with data entry and missing data for fields that are no longer required within the system. In addition, basic coding and program logic is still being reviewed and corrected. Moving forward, the Department continues to validate certain data measures and all elements are subject to change as more information becomes available. Contact the Planning & Research Unit with any questions.

¹ Race categories are determined by the categories used by the Illinois State Police (ISP). IDOC is required to upload race information to ISP as part of a long-standing public safety paradigm. When ISP adopts the required race categories determined by Public Act 101-654, IDOC will do so at the same time. IDOC cannot proceed with the race categories updates required by the new public act at this time because the data upload to ISP will be rejected and potentially create a public safety issue.

Note: The Department of Corrections manages its population from a total system perspective. Provided in Table 10 are historical intake (court, violated at the door, violated at the institution, supervision violators, and bond in), exits (adult transition center, Mandatory Supervised Release, parole, discharge, death), data on inter-institutional transfers in and inter-institutional transfers out. While under COVID protocols data includes individuals admitted to IDOC custody that are physically located at county jails.

Note: Work camps, IIP's, and R&C's are combined with their parent facilities.
